**Guerrilla Warfare Tactics In Urban Environments** Major Patrick D. Marques, 2014-08-15

Current Special Forces doctrine is very limited concerning the conduct of guerrilla warfare combat operations in urban environments The focus of the current doctrine is on conducting combat operations in rural environments The material available on urban environments is defined in broad terms primarily focused on the larger picture of unconventional warfare Some considerations and characteristics of urban tactical operations are addressed but are so general they could be applied to a conventional infantry unit as easily as to a guerrilla force Traditionally Special Forces guerrilla warfare doctrine has focused on its conduct in a rural environment as historically most guerrilla movements have formed operated and been supported outside of the cities Increasing world urbanization is driving the center of gravity of the resistance the populace and their will to resist into urban settings As populations have gravitated to the cities on every continent the ability to prosecute a successful guerrilla war has often depended on the ability to conduct combat operations in these environments Predominantly the aspects of unconventional warfare that were executed in urban settings were those such as intelligence activities recruiting sabotage or subversion Guerrilla warfare combat operations were done in urban environments only when absolutely necessary

U.S. Army Counterinsurgency and Contingency Operations Doctrine, 1942-1976 Andrew James Birtle, 2006 CMH Pub 70 98 1 This study examines the nature of counterinsurgency and nation building missions the institutional obstacles inherent in dealing effectively with such operations and the strengths and weaknesses of U S doctrine including the problems that can occur when that doctrine morphs into dogma
