**The School of Life Guide to Modern Manners**, 2019 Modern life is full of minor but acute dilemmas we get stuck at a gathering with someone unusually boring and wonder how to move on without causing offence in the course of introducing one friend to another we realise that we have forgotten one of the party's names we run into an ex while on an early date with a new partner we spill red wine across a host's sofa Such dilemmas might at one level seem desperately insignificant But they actually belong to some of the largest and most serious themes in social existence how can you pursue our own agenda for happiness while at the same time honouring the sensitivities and wishes of others how can you convey goodwill

with sincerity how can you be kind without being supine or sentimental These dilemmas were once covered by books on etiquette or manners The modern age often doesn't seem to value manners equating them with an old-fashioned stuffiness instead we are advised to communicate our feelings and tell it the way it really is But the result in practice is that we are often confused as to how to act around others and discharge our obligations to them This book puts good manners back at the centre of our lives It features twenty case studies on common social dilemmas and our possible responses to them contributing to a new and original philosophy of graceful conduct Manners are far from negligible fancies they stand at the day-to-day end of a hugely grand and dignified mission which The School of Life is committed to the creation of a kinder and more considerate world
