Billy Wilson

Large Poster Golden Rules:

Magic Apples Lee Steels, 2014-08-29 MAGIC APPLES is a daily reader with 366 reflections to mull. The topics are broad in scope with a liberal approach. Drawn from the author's experience as a teacher, parent, coach, musician, and big kid, the reflections are an eclectic mix of food for thought. Every 6th day is a silly story intended to produce those healing endorphins we all need to keep our equilibrium. There are plenty of opportunities to laugh, cry, and to agree or disagree. If you need to escape from autopilot and enhance your life-long learning skills, MAGIC APPLES should give you lots to chew on. If you desire a modern approach to traditional tales, new ways to love your fellow travelers, and the chance to laugh at the human condition, a magic apple each day will be to your delight. **Gazette of the Union, Golden Rule and Odd-fellows' Family Companion**, 1848

The Alphabet Gang Billy Wilson, 2019-10-29 Magic happens every night in one lucky classroom. The animals on alphabet cards come alive, pop off the wall, and start doing great things around the school. Each letter has its own personality, quirks, and talents to help solve problems, most often with a hilarious twist. Sharing a united concern and compassion for kids, the animals form teams to help the most vulnerable students. One gang sets out to vanquish bullying, and another works to destroy the stealing of food and money. One group empowers and encourages students to stand up for themselves with respect, character, and self-esteem. Another team finds jobs for poor and desperate families, helping to eradicate poverty. Focusing on real problems, *The Alphabet Gang* shares a whimsical story of a group of animals intent on helping students and teachers. **The Dairy World**, 1925 **Ethics and the Golden Rule** Harry J. Gensler, 2013-05-20 It is commonly accepted that the golden rule, most often formulated as "do unto others as you would have them do unto you," is a unifying element between many diverse religious traditions, both Eastern and Western. Its influence also extends beyond such traditions, since many non-religious individuals hold up the golden rule as central to their lives. Yet while it is extraordinarily important and widespread, the golden rule is often dismissed by scholars as a vague proverb that quickly leads to absurdities when one attempts to formulate it in clear terms. In this book, Harry J. Gensler defends the golden rule and addresses all of the major philosophic objections, pointing out several common misunderstandings and misapplications. Gensler first discusses golden rule reasoning and how to avoid the main pitfalls. He then relates the golden rule to world religions and history and to areas like moral education, egoism, evolution, society, racism, business, and medicine. The book ends with a discussion of theoretical issues like whether all morality reduces to the golden rule, which the author argues against. *Ethics and the Golden Rule* offers two introductory chapters; the first is simpler and the second more technical. A reader may start with either or both. One can then read any combination of further chapters in any order, depending on one's interests, but Chapters 13 and 14 are technical and assume one has read Chapter 2. This is a golden rule book for everyone, accessible to a wide readership.

The Unity Project John Maulhardt, 2020-01-09 Our world today seems to be spiraling out of control. Fears of a renewed cold war, the proliferation of nuclear weapons, fake news, and disinformation, along with an impending environmental

apocalypse all combine to push us toward a sense of hopelessness and ennui But even though it is hidden far below the surface mankind's past is actually slowly evolving for the better And now we find ourselves at perhaps a crucial point in our history where we have a powerful concoction made up of brilliant innovators powerful spiritual reconcilers and the necessary technological tools that could accelerate that path dramatically forward All that is needed is the right catalyst to ignite this formula into an unstoppable chain reaction of peace and democratic prosperity This is a story of how a simple indigenous man of the earth called by the simple peaceful spirituality of his people sparks a worldwide movement that leads to a much better planet Combining a cast of many of today's real life people of vision in conjunction with the use of today's amazing technological advancements our hero leads an epic struggle to overcome not only the world's dark forces but the dark forces of unworthy self doubt within himself We trust that you will find this simple hope filled fantasy not really so fanciful after all but actually quite plausible and perhaps even inspirational and motivational *Report ...
