Las Pistolas Espanolas Tipo Mauser:

Evolución del arma corta en España Gil Gil Borralló, 2012-06-27 En el momento actual han desaparecido definitivamente casi todas las fábricas y talleres que tradicionalmente se dedicaban a la producción del arma corta en España. Con la desaparición de las fábricas desaparece también la posibilidad de investigar en sus archivos en lo concerniente a los tipos de armas que se fabricaron sus características y destino de las mismas. He querido reunir en este trabajo fruto de larga investigación en INTERNET 2006-2010 la información a la que he tenido acceso sobre la evolución del arma corta en España como recuerdo y testimonio de la que fue una de las industrias españolas que ha conseguido un gran prestigio en el mundo. Desde una semblanza histórica del origen de las fábricas de armas en el Norte hasta su práctica desaparición en 2005 se estudia la producción armística en España durante el siglo XX. Con cuatro apartados: El primero dedicado de forma general a toda la producción de la pistola y el revólver y al armamento del Ejército y Cuerpos de Seguridad en España. Los otros tres tratan de las grandes marcas: ASTRA, LLAMA, Gabilondo y STAR. Bonifacio Echeverría. Con un apéndice de la cartuchería usada. Todo ello aderezado con multitud de anécdotas, personajes históricos, sindicalismo y cooperativismo. Con dibujos explicativos de funcionamiento, despieces de montaje, marcas identificativas y el cartucho que dispara cada arma. Con cuadros sinópticos de producción y de identificación de modelos.

The Brand and Its History Patricio Sáiz, Rafael Castro, 2022-03-16 This book delves into the origins and evolution of trademark and branding practices in a wide range of geographical areas and periods, providing key knowledge for academics, professionals and general audiences on the complex world of brands. The volume compiles the work of twenty-five prominent worldwide scholars studying the origins and evolution of trademarks and branding practices from medieval times to present days and from distinct European countries to the USA, New Zealand, Canada, Latin America and the Soviet Union. The first part of the book provides new insights on pre-modern craft marks on the emergence of trademark legal regimes during the nineteenth century and on the evolution of trademark and business strategies in distinct regions, sectors and contexts. As industrialisation and globalisation spread during the twentieth century, trademarking led to modern branding and international marketing, a process driven by new economic but also cultural factors. The second part of the book explores the cultural side of the brand and offers challenging studies on how luxury fashion, culture, associations and the consolidation of national identities played a key role in nowadays branding. This edited volume will not only be of great value to scholars, students and policymakers interested in trademark branding research but to marketing and legal practitioners as well, aiming to delve into the origins of modern brand strategies. The chapters in this book were originally published as two special issues of the journal *Business History*.
