En el aspecto político desaparece la figura del 2do. Vicepresidente, de igual forma en los Diputados. Es importante hacer alusión a estas reformas, que integran el derecho de las personas con discapacidad y otorga mayores derechos y garantías a los ciudadanos. De igual forma, la conformación de la Asamblea Nacional será de acuerdo a las reformas de 70 Diputados a nivel Nacional.

assessment of the legal and constitutional developments concerning the Economic and Monetary Union since the Treaty of Maastricht this book provides not only a study of legal EMU related measures and reforms at the EU level but most importantly sheds light on their perception in the EU Member States *Elecciones y cambio de élites en América Latina, 2014 y 2015* Manuel ALCÁNTARA SÁEZ, María Laura TAGINA, 2016-06-15 El presente volumen aborda el análisis de los procesos electorales de ámbito presidencial y legislativo celebrados en América Latina en el bienio 2014-2015. Se trata de elecciones celebradas en once países cuyo estudio se desarrolla en igual número de capítulos. Se cubren comicios simultáneos a ambas instancias en Argentina, Bolivia, Brasil, Costa Rica, Guatemala, Panamá y Uruguay. En El Salvador y en Colombia aunque se celebraron en tiempos distintos ambos tipos de comicios se consideran en el mismo capítulo. Allí las presidenciales precedieron a las legislativas con un año de diferencia en el primer país y las legislativas antecedieron por tres meses a las presidenciales en el segundo. Se recogen también en capítulos independientes las elecciones únicamente legislativas de México y Venezuela. Si bien el criterio temporal siempre puede calificarse de caprichoso en este caso sigue la preocupación iniciada hace ochenta años de dar cumplida cuenta del acontecer electoral en la región en el ámbito de los dos poderes representativos del Estado por excelencia. En efecto, este volumen da continuidad a anteriores trabajos. El bienio aquí analizado da cabida a un nivel promedio de elecciones presidenciales si se tiene en cuenta el acumulado en la región desde hace 30 años por lo cual es representativo del quehacer político latinoamericano. Así la Tabla 1 recoge las 117 elecciones presidenciales que se han llevado a cabo en la región entre 1986 y 2015 cuyo resultado no fue cuestionado. Su media es de cuatro procesos electorales por año y aquí el número de elecciones que se recogen son nueve.

El Parlamento de México. Historia, estructura y funciones, de Cecilia Mora-Donatto Cecilia Mora-Donatto, 2023-08-18 Este libro se empezó a escribir antes y durante el proceso electoral de 2018 y se concluyó una vez que se conocieron los primeros resultados de la elección del 2 de julio que llevaron al triunfo en la titularidad del Ejecutivo federal a Andrés Manuel López Obrador. Al fin después de una Jefatura de Gobierno en el Distrito Federal 2000-2005 hoy Ciudad de México de sortear un torpe y absurdo proceso de Declaración de Procedencia en 2005 y de su participación en dos ocasiones como candidato a la Presidencia de la República 2006 y 2012 la izquierda encabezada por López Obrador alcanzaba su objetivo. Esa noche todos dormimos tranquilos. La fuerte personalidad del candidato y la definición de la elección casi desde el inicio centraron la atención de los comicios de ese domingo en la elección presidencial.

La ciencia del derecho procesal constitucional Ferrer 'Mac-Gregor' Eduardo, Lelo de Larrera Arturo Zaldívar, 2022-06-08 El lenguaje y los trámites aterran al hombre sencillo a quien tiene que llegar al sistema de justicia. Las providencias normalmente son esotéricas, unas por exceso del fallador y otras porque hay términos de los cuales no se puede prescindir pero que en todo caso son de difícil comprensión para el hombre común. La tutela en Colombia desformalizada sencilla y rápida ha venido ejerciendo una labor pedagógica para que los jueces se acostumbren a abandonar las formalidades que la única explicación que tienen es la misma formalidad. Aparece un mensaje: lo simple y sencillo logra resultados positivos.

casi en forma inmediata **La Reforma Fundamental** Álex Grijelmo, 2016-02-12 EL PAÍS ha sido reflejo durante los últimos lustros de cómo ha ido creciendo el interés por una reforma de la Constitución que actualice la ley fundamental aprobada por referéndum en diciembre 1978 Este libro recoge una selección de artículos publicados entre 2003 y 2015 al calor de esta inquietud intensificada durante la legislatura 2011-2015 y durante la última campaña electoral hasta el punto de que todos los actuales grupos parlamentarios han asumido un propósito que hace no tanto parecer a muy lejano Los textos recogidos en esta obra fueron firmados por catedráticos de derecho economistas historiadores escritores o periodistas Entre estos últimos el presidente del grupo PRISA Juan Luis Cebrión ya mostraba en 2003 cuando se cumplían 25 años desde el referéndum su desacuerdo con la idea de una Constitución inamovible que se presentaba como una especie de frontera para el vade retro Y a la celebración del veinticinco aniversario de la Constitución es ocasión propicia no sólo para ensalzar sus virtudes sino para preguntarse por sus carencias y defectos Me atrevo a decir que es la obligación de todo buen ciudadano que aspire a una España democrática unida y estable Las propuestas de reforma se dirigen en estos artículos hacia diferentes aspectos las normas electorales la configuración de las comunidades autónomas el Senado incluso los mecanismos para la propia modificación constitucional Y todas ellas parten explícita o implícitamente de la necesidad de regresar a un consenso como el que alumbró el texto de 1978 que los españoles aprobaron apenas a los 10 y medio después de ser elegidas aquellas Cortes Recorrer los artículos de este libro es repasar nuestra historia reciente recordar los escollos que la sociedad democrática ha ido salvando y reconocer que aún permanecen en pie muchas barreras que conviene saltar Aquí se puede observar cómo ha ido creciendo el estado de opinión sobre una reforma que cada día se ve más necesaria

Construyendo la democracia en sociedades posconflicto Dinorah Azpuru de Cuestas, 2007 En los años 90 Guatemala y El Salvador firmaron acuerdos de paz integrales que pusieron fin a décadas de un sangriento conflicto interno Ambos acuerdos de paz OCoas como el proceso de construcción de paz que le siguió OCo han tenido un impacto en el concepto tradicional de paz ya que fueron pioneros en lo que son consideradas operaciones de paz de segunda generación multidisciplinarias que van más allá del cese al fuego Uno de los objetivos principales de los acuerdos de paz y el proceso de construcción de paz era fortalecer los incipientes procesos democráticos en el período del posconflicto Más de una década ha transcurrido desde que los acuerdos fueron suscritos En ambos casos la democracia electoral o política ha logrado mantenerse vigente y el sistema político ha tenido una apertura Los combatientes armados en ambos países han ahora formado sus propios partidos políticos han participado en elecciones y han obtenido puestos en el Congreso Sin embargo muchos problemas persisten y la democracia dista de estar consolidada La democratización en ambas sociedades se ve confrontada con muchos problemas antiguos y por nuevos desafíos Sin duda alguna la paz ha tenido un impacto en la democratización pero algunas áreas han avanzado más que otras y algunas pueden haberse incluso estancado Existen diversos estudios individuales acerca de los procesos de negociación e implementación de la paz en Guatemala y El Salvador Sin embargo se ha escrito muy poco desde una perspectiva comparada Además se han

llevado a cabo pocos análisis integrales acerca del desarrollo democrático reciente en esos países. En este libro dos equipos de investigación utilizan nueva información y técnicas múltiples de investigación comparada para presentar un perfil actualizado del proceso de democratización en ambos países y una evaluación de la interacción existente entre la paz y la democratización. **El**

Constitucionales Elaborar romper y cambiar constituciones ofrece una hoja de ruta para navegar en el universo intelectual de las reformas constitucionales así como un plano para diseñar y mejorar las reglas de cambio constitucional. A la luz de docenas de constituciones de todas las regiones del mundo este libro mezcla la teoría y la práctica con el fin de responder dos preguntas de la mayor importancia: ¿qué es una reforma y cómo deberían los arquitectos constitucionales estructurar los procedimientos de cambio constitucional? El primer interrogante es más importante ahora que en el pasado. Los reformadores explotan las reglas de reforma constitucional: ponen a prueba los límites jurídicos de la reforma; socavan las normas de gobernanza democrática y esquivan la constitución escrita para crear constituciones integralmente nuevas que se hacen pasar como simples reformas constitucionales ordinarias. La segunda pregunta es clave frente al desempeño y a la resiliencia de las constituciones. Los arquitectos constitucionales hoy en día no tienen casi que ningún recurso a la mano que pueda guiarlos al momento de construir las reglas de reforma constitucional mientras que los académicos no tienen un panorama claro de la importancia de las reglas de reforma en el proyecto del constitucionalismo. *La política desde la justicia* Karina

Wright, 2014-12-10 Universal human rights standards were adopted in 1948 but in the 1970s and 1980s violent dictatorships in Argentina and Chile flagrantly defied the new protocols. Chilean general Augusto Pinochet and the Argentine military employed state terrorism in their

quest to eradicate Marxism and other forms of subversion Pinochet constructed an iron shield of impunity for himself and the military in Chile while in Argentina military pressure resulted in laws preventing prosecution for past human rights violations When democracy was reestablished in both countries by 1990 justice for crimes against humanity seemed beyond reach Thomas C Wright examines how persistent advocacy by domestic and international human rights groups evolving legal environments unanticipated events that impacted public opinion and eventual changes in military leadership led to a situation unique in the world the stripping of impunity not only from a select number of commanders of the repression but from all those involved in state terrorism in Chile and Argentina This has resulted in trials conducted by national courts without United Nations or executive branch direction in which hundreds of former repressors have been convicted and many more are indicted or undergoing trial Impunity Human Rights and Democracy draws on extensive research including interviews to trace the erosion and collapse of the former repressors impunity a triumph for human rights advocates that has begun to inspire authorities in other Latin American countries including Peru Uruguay Brazil and Guatemala to investigate past human rights violations and prosecute their perpetrators *Los grandes problemas de México. Jhappan, Francois Rocher, 2007-09-01 It is no longer sufficient to examine discrete nation states in isolation from each other In Politics in North America Redefining Continental Relations prominent authors from Canada the United States and Mexico explore the politics of redefining the institutional economic geographic and cultural boundaries of North America The contributors argue that the study of politics in the twenty first century requires simultaneous attention to all levels local national and international as well as increasingly to continents This argument is explored through the historical and contemporary social and political forces that have created competing visions of what it means to belong to a North American political community In this process new debates emerge in the book concerning the appropriate role for the state as well as the meaning of sovereignty democracy and rights

La reforma definitiva Sebastián Garrido de Sierra, La reforma definitiva propone una nueva explicación sobre el fin del régimen autoritario que el Partido Revolucionario Institucional PRI encabezó en México entre 1929 y 2000 Para el autor la reforma electoral de 1996 tuvo un papel clave Los profundos cambios en la estructura de incentivos de las facciones priistas con esta reforma desencadenaron la erosión de la unidad del partido y con ello la desertión de sus cuadros más experimentados y sus valiosas máquinas clientelares A partir de la investigación de archivos entrevistas y el análisis estadístico de bases de datos creadas especialmente para este proyecto el autor expone el profundo impacto electoral de las reformas en todos los niveles de gobierno causando la derrota del PRI en diversas elecciones locales y finalmente en la elección presidencial
