its journey the aircraft is shot down by two spitfires who mistake it for an enemy plane all on board are lost no efforts were made to recover the aircraft or its contents the relatives of those on board were informed their loved ones were lost in action this is based on a true event After the loss is known a senior member of the Ministry of Mines in the Congo removes all records of the transaction from the files A family member of one of the US officers promises the widow that one day he would make sure her husband s remains will be returned to the USA for burial He dies before he can achieve this so his son undertakes to carry out the task as his chosen profession is that of Marine Engineer he feels qualified to achieve this It is not until many years later he can obtain any information about his Grandfather s death there is a limit to what the records show in the US archives so he plans a trip to England to meet an old friend from Cambridge to gather more details Two other parties develop a great interest in the aircraft and contents they show they will go to any lengths necessary to achieve their objectives These individuals clash sometimes violently involving innocent members of the families and their friends in this battle for what they hold dearest family or greed The international fight attracts the interest of many parties involved in the initial movement of the aircraft and its contents they want part of the action this leaves a trail of dead and injured bodies The attempts to find and salvage the remains of the aircraft and its contents is one of immense hardship fighting the physical elements above the water and the never ending struggle to get the sea to give up it s secrets the lives of those involved will never be the same again Barry Jyam
