Endlings Lydia Pyne, 2022-08-16 Amid the historical decimation of species around the globe a new way into the language of loss An endling is the last known individual of a species when that individual dies the species becomes extinct These last individuals are poignant characters in the stories that humans tell themselves about today's Anthropocene In this evocative work Lydia Pyne explores how discussion about endlings how we tell their histories draws on deep traditions of storytelling across a variety of narrative types that go well beyond the science of these species biology or their evolutionary history Endlings provides a useful and thoughtful discussion of species concepts how species start and how and why they end what it means to be a charismatic species the effects of rewilding and what makes species extinction different in this era From Benjamin the thylacine to Celia the ibex to Lonesome George the Galapagos tortoise endlings Pyne shows have the power to shape how we think about grief mourning and loss amid the world's sixth mass extinction *LIFE*, 1948-06-21 *LIFE* Magazine is the treasured photographic magazine that chronicled the 20th Century It now lives on at LIFE.com the largest most amazing collection of professional photography on the internet Users can browse search and view photos of today's people and events They have free access to share print and post images for personal use [Loss of the Sultana and Reminiscences of Survivors](#) Chester D. Berry, 2005 Originally published in 1892 Loss of the Sultana and Reminiscences of Survivors is a collection of first hand accounts by those who lived to tell the story of perhaps the worst maritime disaster in US history On the Mississippi River just above Memphis at two o'clock on the morning of April 27 1865 the steamboat Sultana carrying over 2 400 passengers it was licensed to carry only 356 exploded and sank Over 1 700 people perished Most of the passengers were Union soldiers recently released from Confederate prisons Many were from East Tennessee They had boarded at Vicksburg where the longest siege of the war had finally ended in Confederate surrender ending the Vicksburg campaign The soldiers homeward bound from Andersonville and Cahaba Confederate prisons had survived the terrors of battle the loss of close comrades physical and psychological wounds the risky confinement of hospital the humiliation of capture and surrender escape and recapture homesickness boredom the daily threat of death by starvation disease suicide robbery injury or death by raiders Chester D Berry one of the survivors compiled facts records and personal accounts of other survivors resulting in this compelling and profound testimony to the human spirit in the face of tragedy *The Maryland Prize* Richard Wesley Clough, 2017-11-03 Here's more of the adventures and poems of the juggernaut's spirit clashing with physical reality that might either belie or prove his true status in the black hole The fact it exists became quite a coup by him of French lettered desire as I began toiling on this reverie on a midnight dreary feeling cold and weary was a little of the eloquence I perused and felt as I gibbaled my way through the seething morass into the ethereal light Thanks to this unorthodox alchemy the speed of light's original concepts have been broadened by using the technique of seeing a glimmer of something almost other dimensional then pulling it coolly into reality after first applying some moderating effects to make

it palatable to those who otherwise couldn't understand *Franklin's Fate* John Roobol, 2019-06-11 The 1845 North West Passage expedition of Sir John Franklin in the ships HMS Erebus and HMS Terror with a full company of 129 officers and men none of whom ever saw England again was one of the most heroic and courageous maritime expeditions in history This enthralling book is the result of seven years of arduous research by retired geologist Dr John Roobol who weighs evidence gathered over more than 170 years and offers a highly convincing interpretation of what really happened to the lost heroic expedition

Local Theories of Argument Dale Hamble, 2021-03-25 Argumentation is often understood as a coherent set of Western theories birthed in Athens and developing throughout the Roman period the Middle Ages the Enlightenment and Renaissance and into the present century Ideas have been nuanced developed and revised but still the outline of argumentation theory has been recognizable for centuries or so it has seemed to Western scholars The 2019 Alta Conference on Argumentation co sponsored by the National Communication Association and the American Forensic Association aimed to question the generality of these intellectual traditions This resulting collection of essays deals with the possibility of having local theories of argument local to a particular time a particular kind of issue a particular place or a particular culture Many of the papers argue for reconsidering basic ideas about arguing to represent the uniqueness of some moment or location of discourse Other scholars are more comfortable with the Western traditions and find them congenial to the analysis of arguments that originate in discernibly distinct circumstances The papers represent different methodologies cover the experiences of different nations at different times examine varying sorts of argumentative events speeches court decisions food choices and sound explore particular personal identities and the issues highlighted by them and have different overall orientations to doing argumentation scholarship Considered together the essays do not generate one simple conclusion but they stimulate reflection about the particularity or generality of the experience of arguing and therefore the scope of our theories
