The Last Time I Lied Riley Sager, 2019-04-02 THE INSTANT NEW YORK TIMES BESTSELLER From the author of *Survive the Night* and *Final Girls* comes a tense and twisty thriller about a summer camp that's impossible to forget no matter how hard you try Two Truths and a Lie Vivian Natalie Allison and Emma played it all the time in their cabin at Camp Nightingale But the games ended the night Emma sleepily watched the others sneak out into the darkness The last she or anyone saw of the teenagers was Vivian closing the cabin door behind her hushing Emma with a finger pressed to her lips Fifteen years later Emma is a rising star in the New York art scene turning her past into paintings massive canvases filled with dark leaves and gnarled branches over ghostly shapes in white dresses When the paintings catch the attention of the wealthy owner of Camp Nightingale she implores Emma to come back to the newly reopened camp as a painting instructor Despite her guilt and anxiety or maybe because of them Emma agrees to revisit her past Nightingale looks the same as it did all those years ago haunted by a midnight dark lake and familiar faces Emma is even assigned to the same cabin she slept in as a teenager although the security camera pointed at her door is a disturbing new addition As cryptic clues about the camp's origins begin to surface Emma attempts to find out what really happened to her friends But her closure could come at a deadly price

[The Last Time He Saw April](#) KD Groethe, 2014-08-15 During a snowy 1947 March afternoon sophomore Dane Halden watches from an empty study hall window as his friends April and Adam make out in Adam's car during lunch hour Alone with his thoughts Dane speaks of both This is The Last Time He Saw April Until The story returns to the summer of 1946 setting the stage for April and Adam's romance After many loving days weeks and months Together Forever their most whispered endearment April moves to

Connecticut to live with relatives The end Conceivably After high school April marries twice moves to New York and inherits a successful music business Her one child Jonathan becomes a rock megastar Paralleling April's life Adam joins the USAF meets and marries his English love Jillian after being stationed at RAF Sealand near Chester Like many GI marriages theirs sadly ends in divorce After university Adam becomes a professor at a Minnesota college Fate takes charge In 1964 April and Adam meet in New York Are their feelings still alive Did they renew their relationship If so are they happy Are friends truly friends What about the boy in the window All comes to light while visiting this narrative *The Last Best of All Times* Robert A. Semenza, 2007 Robert Semenza has always considered himself fortunate to have been brought up in what may have been in his mind the last best of all times an era that spanned only a little more than a decade and a half from the early forties to the midfifties from World War II to the Korean police action from FDR to Harry the buck stops here Truman to Ike He was even more blessed to be raised in an environment where he was surrounded by a wealth of love and warmth from our parents and a seemingly unlimited number of relatives and piasians however the adults in our lives were there only when we needed them sort of a Charlie Brown type of existence but without his anxiety He felt that all his wonderful memories would be lost forever and wanted to preserve them for the generations to follow His tale is told in a self effacing way and from the perspective of a young boy being raised in the West a neighborhood in New Rochelle New York of Italians and colored people you never called them blacks or African Americans unless you were prepared for a fight and the rest of civilization referred to simply as the Americans It tells of his Tom Sawyer Huck Finn type of youthful adventures and mishaps centered around a cast of colorful and unforgettable characters that roamed the streets of the West from the likes of the Goat Man who would proudly parade his goats down Union Avenue and whose route was undeniably marked by a trail of small round soft black pellets which the goats expelled as they merrily strolled to their noonday repast presumably to make more pellets to the Iron Horse to Louie Chicken Breast and to a whole host of other characters As he explains they were just there and accepted as they were except that they like everyone else in the neighborhood had a nickname which was generally linked to their physical appearance which in each case was obvious He has attempted the impossible task of trying to list all of these nicknames his nickname was Chesty the reader will learn why His personal memories transport the reader back to that time and to his boyish recollections of his family the school the church the Boys Club the games they invented and the special joys brought by each season of the year www.readerscircle.org **How to Have Fun with Retirement** Patrick M. Kennedy, 2008-03 This collection of lighthearted and witty yet informative articles about seniors and retirement living was originally written for a leading syndication of news and features and made available to more than 50 mature market publications *Routing Strategies in Ad-hoc Wireless Networks* Jyoti Raju, 2002 Ad hoc wireless networks present a unique design problem for routing Wireless networks suffer from low bandwidth due to high rates of interference and inherent limitations of the medium Mobility also increases the bandwidth used for control packets To conserve on precious bandwidth

routing protocols should generate as few updates as possible In this dissertation we propose distance vector solutions to ad hoc routing because unlike existing routing solutions our solutions do not use sequence numbers and thus are not prone to inefficient or wrong behavior in the presence of node failures First we introduce ROAM the first protocol to correctly tackle the searching to infinity problem found in on demand routing protocols ROAM can be used in networks with low rates of topology changes because it required reliable updates Next we describe two protocols DST on demand and BEST table driven for networks with high rates of topology change Simulation experiments carried out in two different simulation packages show that these protocols perform an order of magnitude better than representative on demand and table driven routing solutions for ad hoc networks Finally we introduce MDST an on demand protocol that extends the source tracing algorithm used in DST to create and maintain multiple paths in an ad hoc wireless network Multipath routing can be used in ad hoc networks to achieve greater resilience to route failures and better end to end delays Multipath routing is also essential when using QoS metrics like delay in order to avoid route oscillation We show that multiple paths that are node disjoint and loop free can be maintained with less overhead than DST Further these multiple paths decrease the delay of packet delivery and increase the throughput of the network

Mass Media Advertising Edith Smit,1999 For most consumers advertising is less important than advertisers might think Advertising appears to function as something in the background that is hardly noticed as wallpaper But mass mediated advertising should at least function as a reminder when people are making choices Smit addresses these questions through in depth interviews a nation wide telephone survey with follow up mail and a face to face survey Edith Smit is associate professor at the Department of Communication at the University of Amsterdam and at the Amsterdam School of Communications Research ascor She is also Deputy Director of swocc the Dutch Foundation for Fundamental Research on Commercial Communication

Speaking the Truth about Oneself Michel Foucault, 2021-10-07 Speaking the Truth about Oneself is composed of lectures that acclaimed French philosopher Michel Foucault delivered in 1982 at the University of Toronto As is characteristic of his later work he is concerned here with the care and cultivation of the self which becomes the central theme of the second and third volumes of his famous History of Sexuality published in French in 1984 the month of his death and which are explored here in a striking and typically illuminating fashion Throughout his career Foucault had always been interested in the question of how constellations of knowledge and power produce and constitute subjects But in the last phase of his life he became especially interested not only in how subjects are constituted by outside forces but in how they constitute themselves In this lecture series and accompanying seminar we find Foucault focused on antiquity starting with classical Greece the early Roman dynasties and concluding with fourth and fifth century Christian monasticism Foucault's claim is that in these periods we see the development of a new kind of act speaking the truth about oneself as the locus of a new form of subjectivity which he deemed important not just for historical reasons but also as something modernity could harness anew or adapt to its own purposes
