Transatlantic Liners J. Kent Layton, 2012-07-20 Since the end of the nineteenth century there has been a stunning succession of transatlantic liners from the White Star Line's Oceanic of 1899 to the Cunard Line's Queen Mary 2 of 2004 These floating palaces often contained luxurious staterooms ballrooms and lounges for the rich and noticeably more modest and basic accommodation for poorer travellers Their designs and powerplants were often cutting edge as each competed to be the largest most luxurious and fastest ship on the Atlantic As the tides of passenger demand rose and fell through the years and the world plunged twice into global conflict these ships had to adapt to survive Many of these vessels including Mauretania Olympic the first Queen Mary and France had long and glorious careers others Titanic Lusitania and Normandie among them suffered tragic endings J Kent Layton describes the heyday of the superliners and explains what life was like for passengers both rich and poor

The Last Voyage of the Andrea Doria Greg King, Penny Wilson, 2020-04-07 An extensively documented account of the 1956 sinking of the Italian luxury liner amazing stories of serendipitous luck heroism cowardice and tragedy Booklist In 1956 a stunned world watched as the famous Italian ocean liner Andrea Doria sank after being struck

by a Swedish vessel off the coast of Nantucket Unlike the tragedy of the Titanic this sinking played out in real time across radios and televisions the first disaster of the modern age Audiences witnessed everything that ensued after the unthinkable collision from the heroic rescue of passengers to the ship's final sinking beneath the Atlantic taking some fifty lives with her The Andrea Doria represented the romance of travel and the glamorous side of mid twentieth century life Now Greg King and Penny Wilson offer a fresh look at this legendary liner and her tragic fate They bring the fateful voyage to life in a narrative focused on her passengers Cary Grant's wife Philadelphia's flamboyant mayor the heiress to the Marshall Field fortune and many brave Italian emigrants who found themselves plunged into a desperate struggle to survive The Last Voyage of the Andrea Doria follows the effect this trauma had on their lives and brings the story up to date with the latest expeditions and never before seen photos of the wreck

The Last of a Salty Breed Roy Vaughan, 2015 Just as the Romans built roads to create and maintain their empire so the British ruled the ocean waves with ships and created the biggest empire the world has seen The Last of a Salty Breed tells tales about British ships seamen and the many millions of folk who were voluntarily or forcibly shipped to the four corners of the world to create new countries This book takes a conventional chronological narrative interspersed by interludes between the chapters They are light hearted or poignant in nature in many cases highlighting the high and low points of seafaring and the harrowing voyages of times past The author a former maritime journalist for the New Zealand Herald and a ship deck officer adds to the narrative his personal experiences and those of his maritime ancestors who stretch back to the 1700s The main characters are ships and prominent seafarers who made history one way or another from Elizabethan mariners to present time and include the author's long family history of seafaring The dual dialogue and the subject a very worthy one as to my knowledge there is no history of the New Zealand Merchant Navy only books about ships and individual shipping companies Captain Hamish Ross editor of Sea Breezes the worldwide magazine of ships and the sea

[A Postcard History of the Passenger Liner](#) Christopher Deakes, 2023-10-01 From around 1880 for almost a hundred years shipowners commissioned a wealth of paintings that depicted their magnificent liners as well as the routes they travelled their exotic destinations and life onboard These paintings rich in imagination and atmosphere appeared on postcards and posters of the day and were used to advertise the companies and their ships and so was born a whole genre that produced tens of thousands of paintings which formed a wonderful record of the great era of the passenger liner In 1900 there were over thirty shipping companies operating passenger liners across the North Atlantic Other oceans were similarly served But now with just a few exceptions the companies and their liners have disappeared along with the art they once inspired Little remains to recall this aspect of our maritime past except the postcards and they tell an evocative story of the vanished world of elegant ships and leisurely travel of social and political times much changed by the history of the past century Here brought vividly to life in more than 500 colourful postcards are the ships on which so many of our predecessors sailed as emigrants soldiers administrators or simply as tourists in days long past These cards

which are now highly collectable show how steamships developed over the years but they are also a fine tribute to the artists who painted them This volume also includes a glossary of some 170 illustrators which forms an important reference section and advice on collecting **The Review of Reviews** William Thomas Stead,1907 **School Journal** ,1907 Cold War America, 1946 To 1990 Facts on File Inc,Ross Gregory,2014-05-14 Uses statistical tables charts photographs maps and illustrations to explore everyday life in the United States during the Cold War period **Designing Liners** Anne Wealleans,2006-09-27 This in depth history of the interior design of ocean liners surveys the transient history of interior design in relation to the development of passenger shipping from commissioning by the line owners methods and sources for the original creation of designs through to its construction use and influence It is a short lived branch of architecture and design lasting an average of fifteen years As the design and taste mirrors and reinforces cultural assumptions about national identity gender class and race not only did the interiors of ocean going liners reflect the changing hierarchies of society and shifting patterns in globalization but the glamour and styling of the liners were reflected back into the design of interiors on land Combining design history architecture history material and visual cultures Designing Liners is a richly multidisciplinary work for those studying or researching this application of interior design **The Shipbuilder and Marine Engine-builder** ,1928 **Shipbuilding & Shipping Record** ,1919
