Yahweh's Breath Bible, Volume 1 Jerry Ayers, 2010-05 Yahweh s Breath is a unique Bible In original Hebrew language it would be Yahweh s Nshamah meaning Yahweh s puff or breath of divine inspiration It was written in the Literal form of the original languages of Hebrew and Greek and then matched with the New Strong s Exhaustive Concordance of the Bible a thorough verbal index to the Holy Scriptures It s one of a kind format puts the Sacred Name of our Father Creator back into the text where it had been removed nearly 6 000 times by the scribes and translators throughout history An outstanding feature also makes those hard to pronounce Biblical names easy as they were written in the original language of the script with the pronunciation following the name Also the meanings of some of the names follows the pronunciation Using the wording from the Strong s Exhaustive Concordance of the Bible gives His Word a detailed come to life picture in your mind At times you can see the glistening green grass or smell the fragrant smoke of spices If you listen carefully you can hear the vibrating trumpet ram s horns or taste the sticky gummy syrup of honey You might even be able to feel with your finger the scar from the spikes in the hands and feet of the Messiah Another feature of this version of His Word the Bible is that any added text by our Romanized translations that was not in the original text languages has been put back into its original form Above all this version makes reading and understanding His love letter to us about His Son easy and enjoyable

Septuagint, Restored Names Version, Volume 1 Clinton R Smith,2014-04-11 The Septuagint is the only extant Greek translation from a Hebrew MSS that is currently lost to us The Greek Septuagint and its Autograph were extensively used before the Christian era as has been testified to by historians and many similarities manifest in the Dead Sea Scrolls During the age of the Messiah and the Apostles it appears they exclusively used either the Greek Septuagint or its Autograph as is demonstrated by the parallels found in their quotes from the Hebrew Scriptures O T The Septuagint persevered into the age of the early Church Fathers where after it inexplicably fell into disuse This is a fresh approach to Sir Brenton s translation in that this it restores the original Hebrew Names as found in the Masoretic Text While this approach may seem like a glaring paradox it may however be reasoned that a more satisfying though not perfect English translation has subsequently evolved
