Large Group Interventions for Organizational Change, 1997 *Community Visioning Programs* Norman Walzer, Gisele Hamm, 2017-10-02 Communities have practiced strategic planning for decades using a variety of tools and programs based on the initial Take Charge programs of the early 1990s These efforts generated a large amount of research regarding their effectiveness as well as ways to measure long term outcomes and other related issues in efforts to better understand the process of community change This book provides contributions written by researchers and practitioners describing both visioning and other strategic planning efforts The Great Recession challenged the future of many small and medium sized cities especially in non metropolitan areas renewing the interests of community leaders and elected officials in finding innovative ways to revitalize their local employment base and economic opportunities Having access to a collection of best practices and successful approaches can greatly assist these practitioners in selecting strategies and techniques for use in their community efforts The material in this book is especially useful because it includes both methodologies as well as case studies of how and why various approaches used in alternative

cultural settings have succeeded This book was originally published as a special issue of Community Development

Reference Guide on Understanding Common Use at Airports Rick Belliotti, 2010 The aviation industry has seen dramatic changes in the past two decades with significant growth during the 1990s a significant industry disruptive event on September 11 2001 and an economic decline resulting in a sharp rise in fuel prices that has substantially changed the economics of airline operations and a decline in growth During this period airlines have adapted to the changes in various ways many of which have resulted in adaptability issues for airport operators thus raising the question of is there a better way to be more flexible and responsive to airline service changes in good and bad times From an airline perspective cost reduction since September 11 has been a prominent focus From an airport operator perspective adapting to and accommodating changing flight services by incumbent carriers as well as new entrant services has been a key focus In recent years offering more cost effective solutions to retain or encourage new services in the face of service reductions has become a key focus Airport operator interests in common use have been heightened by the potential for achieving a reasonable balance between airline and airport operator interests The implications of transitioning from a traditional model of airline facility use and leasing focused on dedicated facilities to common use has elicited varying and often conflicting perceptions of benefit and cost

Moore, Arthur Freeman, 2014-11-13 This volume is the logical follow up to the military treatment handbook *Living and Surviving in Harm's Way* Sharon Freeman Clevenger Laurence Miller Bret Moore and Arthur Freeman return with this dynamic handbook ideal for law enforcement agencies interested in the psychological health of their officers Contributors include law enforcement officers with diverse experiences making this handbook accessible to readers from law enforcement backgrounds This authoritative comprehensive and critical volume on the psychological aspects of police work is a must for anyone affiliated with law enforcement Organization Development

Joan V. Gallos, 2017-07-27 This is the third book in the Jossey Bass Reader series *Organization Development* A Jossey Bass Reader This collection will introduce the key thinkers and contributors in organization development including Ed Lawler Peter Senge Chris Argyris Richard Hackman Jay Galbraith Cooperrider Rosabeth Moss Kanter Bolman Deal Kouzes Posner and Ed Schein among others Without reservations I recommend this volume to those students of organizational behavior who want an encyclopedia of OD to gain a perspective on the past present and future Jonathan D Springer of the American Psychological Association *Handbook of Psychology, Industrial and Organizational Psychology* Irving B. Weiner, Neal W. Schmitt, Scott Highhouse, 2012-10-16 Psychology is of interest to academics from many fields as well as to the thousands of academic and clinical psychologists and general public who can't help but be interested in learning more about why humans think and behave as they do This award winning twelve volume reference covers every aspect of the ever fascinating discipline of psychology and represents the most current knowledge in the field This ten year revision now covers discoveries based in neuroscience clinical psychology's new interest in evidence based practice and mindfulness and new findings in social developmental and forensic psychology *Routledge Handbook of Organizational Change in Africa* Franca Ovadje, Samuel Aryee, 2018-08-06 Although change management and therefore effective adaptation to environmental complexity is considered a uniquely human cultural activity the extensive change management literature is largely based on the experiences of organizations in the advanced economies of the West As the economies of African countries become increasingly open African organizations will need to be agile in order to adapt and grow in a dynamic global environment Currently there is a dearth of contextualized knowledge on change management within Africa but this handbook aims to address this by bringing together a wide range of experts to explore organizational change and change management from an African context The handbook adopts a multidisciplinary historical philosophical processual and strategic perspective as well as empirical accounts of change management It addresses such issues as What are the external and internal pressures for change What is the content and process of change management What are the essentials of effective change management How can change management be theorized from an African perspective What sort of leadership can best align with change management demands in an African context How do organizations build internal change management capability It is hoped that answers to these questions contained in the handbook will provide a contextualized understanding of change

management which African organizations and scholars can leverage to respond to the threats and opportunities inherent in their increasingly dynamic environment The handbook should constitute an essential reference for academics researchers and advanced students of change management development studies and African studies as well as practitioners
