Lart Magique:

L'art magique d'écrire sa destinée Olivier Manitaru, 2016-09 Les Ess niens se souviennent de l'origine de l'écriture. Leur tradition raconte que leur préfondeur ne fut le premier être sur la terre, les signes magiques permettant de communiquer avec les mondes des esprits et des génies¹ voire même avec les Anges, les Archanges et les Dieux, ce qui est beaucoup plus rare.

Surrealist Sorcery Will Atkin, 2023-08-10 Often regarded as an artistic movement of interwar Paris, Surrealism comprised an international community of artists, writers, and intellectuals who have aspired to change the conditions of life itself over the course of the past century. Consisting of a wide range of dedicated case studies from the 1920s to the 1970s, this book highlights the international dimensions of the Surrealist Movement and the radical chains of thought that linked its followers across the globe, from France to Romania and from Canada to the former Czechoslovakia. From very early on, the surrealists approached magic as a means of bypassing, discrediting, and combatting rationalism, capitalism, and other institutionalized systems and values that they saw to be constraining influences upon modern life. Surrealist Sorcery maps out how this interest in magic developed into a major area of surrealist research that led not only to theoretical but also practical explorations of the subject. Taking an international perspective, Atkin surveys this important quality of the movement and how it has remained an important element in the surrealist project and its ongoing legacy.

Scapeland Gillian B. Pierce, 2012-01-01 *Scapeland: Writing the Landscape from Diderot's Salons to the Postmodern Museum* is a comparative interdisciplinary study tracing theories of the sublime and a history of spectatorship from Diderot's eighteenth-century French Salons through art criticism by Baudelaire and Breton to Jean-François Lyotard's postmodern exhibition *Les Immatériaux*. In the Salons, an exploration of the painted landscape becomes an encounter with both the limits of representation and the infinite possibilities of fiction. Baudelaire and Breton explore similar limits in their work set against the backdrop of the modern city. For them, as for Diderot, the attempt to render visual objects in narrative language leads to the development of new literary forms and concerns. Lyotard's concept of the postmodern museum frames the sublime encounter once again in terms that expressly evoke Diderot's verbal rendering of painted spaces as a personal promenade. According to Lyotard, Diderot ouvre par critique les surfaces des tableaux comme les portes d'une exposition; il abolit l'opposition de la nature et de la culture, de la réalité de l'image, du volume et de la surface. Reading the literary production of these four writers alongside their art criticism, *Scapeland* considers narrative responses to art as imaginative assertions of human presence against the impersonal world of objects.

Surrealism and the Gothic Neil Matheson, 2017-08-07 Surrealism and the Gothic is the first book-length analysis of the role played by the gothic in both the initial emergence of surrealism and at key moments in its subsequent development as an art and literary movement. The book argues the strong and sustained influence not only of the classic gothic novel itself (Ann Radcliffe, Charles Maturin, Matthew Lewis, etc.) but also the determinative impact of closely related phenomena, as with the influence of mediumism, alchemy, and magic. The book also

traces the later development of the gothic novel as with Bram Stoker's *Dracula* and its mutation into such works of popular fiction as the *Fant mas* series of Marcel Allain and Pierre Souvestre enthusiastically taken up by writers such as Apollinaire and subsequently feeding into the development of surrealism. More broadly the book considers a range of motifs strongly associated with gothic writing as with insanity, incarceration and the accursed outsider explored in relation to the personal experience and electroshock treatment of Antonin Artaud. A recurring motif of the analysis is that of the gothic castle developed in the writings of Andr  Breton, Artaud, Sade, Julien Gracq and other writers as well as in the work of visual artists such as Magritte.

The Esoteric Secrets of Surrealism Patrick Lepetit, 2014-04-24. A profound understanding of the surrealists' connections with alchemists and secret societies and the hermetic aspirations revealed in their works. Explains how surrealist paintings and poems employed mythology, gnostic principles, tarot, voodoo, alchemy and other hermetic sciences to seek out unexplored regions of the mind and recover lost psychic and magical powers. Provides many examples of esoteric influence in surrealism such as how Picasso's *Demoiselles d'Avignon* was originally titled *The Bath of the Philosophers*. Not merely an artistic or literary movement as many believe, the surrealists rejected the labels of artist and author bestowed upon them by outsiders, accepting instead the titles of magician, alchemist or, in the case of Leonora Carrington and Remedios Varo, witch. Their paintings, poems and other works were created to seek out unexplored regions of the mind and recover lost psychic and magical powers. They used creative expression as the vehicle to attain what Andr  Breton called the supreme point, the point at which all opposites cease to be perceived as contradictions. This supreme point is found at the heart of all esoteric doctrines including the Great Work of alchemy and enables communication with higher states of being. Drawing on an extensive range of writings by the surrealists and those in their circle of influence, Patrick Lepetit shows how the surrealists employed mythology, gnostic principles, tarot, voodoo and alchemy not simply as reference points but as significant elements of their ongoing investigations into the fundamental nature of consciousness. He provides many specific examples of esoteric influence among the surrealists such as how Picasso's famous *Demoiselles d'Avignon* was originally titled *The Bath of the Philosophers*, how painter Victor Brauner drew from his father's spiritualist vocation as well as the Kabbalah and tarot, and how doctor and surrealist author Pierre Mabille was a Freemason focused on finding initiatory paths where it is possible to feel a new system connecting man with the universe. Lepetit casts new light on the connection between key figures of the movement and the circle of adepts gathered around Fulcanelli. He also explores the relationship between surrealists and Freemasonry, Martinists and the Elect Cohens as well as the Grail mythos and the Arthurian brotherhood.

Constellations of Miro, Breton Paul Hammond, 2000-06. In *Constellations of Miro, Breton* Paul Hammond unravels some of the mysteries of the call and response of these two Surrealists by reading the pictures against the poetry, the poetry against the pictures and both against the madness of a history that none of us has left that far behind.
