Chester, S. Martellucci, A.M. Verga Scheggi, 2012-12-06 This volume contains the Proceedings of a two week NATO Advanced Study Institute on Laser Systems for Photobiology and Photomedicine conducted from May 11 to 20 1990 in Erice Italy This is the 15th annual course of the International School of Quantum Electronics ISQE organized under the auspices of the Ettore Majorana Center for Scientific Culture The application of lasers to medicine and surgery has made amazing progress since the last ISQE Course on this subject in 1983 The present Proceedings give a tutorial introduction to today s most important areas as well as a review of current results by leading researchers Among the possible approaches to a NATO Advanced Study Institute on Laser Systems for Photobiology and Photomedicine we chose to emphasize the scientific and technological aspects of advanced laser systems when applied to laboratory and clinical tests Since it is the policy of the School to stress the advanced scientific and technological achievements in the field of Quantum Electronics the Course broadly covers performance already achieved and potential applications      *Lasers in Dermatology* Sean W. Lanigan, 2012-12-06 Over the past decade there has been a huge increase in interest in the use of lasers in dermatology The number and choice of lasers have increased dramatically This has expanded the number of conditions treatable by lasers and also the number of clinicians now wishing to include dermatological lasers in their therapeutic armamentarium Marketing forces and commercial pressures have led to a situation where lasers are purchased and used without a broad based understanding of this important and developing field The aim of this textbook is to provide a comprehensive guide to the theoretical and practical aspects of lasers used in the fields of dermatology and plastic surgery I would hope this book would allow the trainee consultant dermatologist or plastic surgeon to gain a full understanding of all aspects of lasers in dermatology both from the basic science and safety aspects through to the most appropriate choice of laser for the treatment of

most particular conditions This however is not a how to cook book guidance only on treatment is provided based on my own experience and published research Full understanding of the whys and whens of treatment are the aim coupled with an extensive review of current and cutting edge research This textbook will be an ideal complement to practical hands on laser training to provide the clinician with all that is necessary for safe and competent practice in this field vii i r
