both German and American Booklist Hamburg 1936 A splendid three masted sailing ship is christened Horst Wessel in the presence of Adolf Hitler and thousands of cheering Nazis It would become a training vessel for naval officers during World War II but after Germany's defeat the US Coast Guard found its young crew terrified and half starved The Coast Guardsmen brought the Germans so recently their mortal enemies back to life the Germans in return taught them the ways of the beautiful square rigged ship rechristened Eagle In time Eagle would become the Coast Guard's elite school ship the barque of saviors Uncannily linking Eagle's malign past and its American present is a coast guardsman named Karl Dillmann who believes the spirit of a young German sailor drowned in a U boat explosion inhabits his soul The voices of Dillmann and other crew members are heard throughout the book as are the voices of young sailors on the Horst Wessel Russell Drumm has obtained never before published logbooks from its war years affording fascinating new insights into both the ship's everyday life and its moments of high drama This unique piece of maritime history captures the feeling of life at sea and shows how the courage and sacrifice of the greatest generation are alive and well today in the dedicated members of the US Coast Guard Tall ships cast spells and Drumm catches the witchery of the Eagle's overpowering presence Kirkus Reviews The reader becomes familiar with the cadets of various eras The book also offers a rare look at postwar military cooperation and at the integration of female cadets beginning in the 1970s Publishers Weekly

On the Edge Roger McCoy,2012-07-18 With our access to Google Maps Global Positioning Systems and Atlases that cover all regions and terrains and tell us precisely how to get from one place to another we tend to forget there was ever a time when the world was unknown and uncharted a mystery waiting to be solved In On the Edge Roger McCoy tells the captivating and often harrowing story of the 400 year effort to map North America s Coasts Much of the book is based on the narratives of mariners who sought a passage through the continent to Asia and produced maps as a byproduct of their journeys These courageous explorers had to rely on the most rudimentary mapping tools and to contend with unimaginably harsh conditions ship crushing ice floes the threat of frostbite scurvy and starvation gold fever and mutiny ice that could lock them in for months on end and inevitably the failure to find the elusive Northwest passage Telling the story from the explorers perspective McCoy allows readers to see how maps of their voyages were made and why they were so full of errors as well as how they gradually acquired greater accuracy especially after the longitude problem was solved On the Edge tracks the dramatic voyages of John Cabot John Davis Captain Cook Henry Hudson Martin Frobisher John Franklin who nearly starved to death and become known in England as the man who ate his boots and others concluding with Robert Peary Otto Sverdrup and Vihjalmur Steffanson in the early twentieth century Drawing upon diaries journals and other primary sources and including a set of maps charting the progress of exploration over time On the Edge shows exactly how we came to know the shape of our continent Windjammer Paul W Simpson,2017-05-22 The Loch Sloy was built for Aitken Lilburn Co of Glasgow She sailed between Britain and Australia for more than twenty years In that time she established a reputation as a crack wool clipper Windjammer the story of the clipper ship Loch Sloy is not an adventure nor is it a romance or a tragedy even though it contains elements of all three The ship her captains officers crew and passengers all those her sailed upon her call out from the past to have their stories told The Loch Sloy s keel was laid down in mid 1877 By August the construction of the hull and deck fittings had been completed After her first marine survey the masts were stepped in and by

the end of October the Loch Sloy was all but complete The clipper lasted twenty one years before coming to grief on the jagged shore of Kangaroo Island during the predawn hours of April 24th 1899 The final chapter of the Loch Sloy like her unfortunate passengers and crew was buried beneath the ever shifting sands of Maupertuis Bay
