Golden Fruit Christina Mazzoni,2019-03-20 Through a close reading of key texts including poetic and spiritual writings fairy tales and a botanical treatise Golden Fruit examines the role of oranges in Italian culture from their introduction during the medieval period through to the present day Featuring a beautiful full colour spread Cristina Mazzoni's book brings together artistic

depictions literary analysis historical context and popular culture to investigate the changing representations of the orange over time and across the Italian peninsula Oranges were introduced to Italy in the 1200s many centuries after beloved Mediterranean fruits such as grapes figs and pomegranates all well known since Antiquity Not burdened with age old meanings and symbolism then oranges in early modern times provided a malleable image for artists writers and scientists alike Thus in the Middle Ages and Renaissance oranges appear in visual and verbal representations as an effective aid in physical and spiritual health as symbols of romantic and of divine love and as signs of geographic allegiance to one's citrus rich land Baroque poets botanists and painters regularly compared oranges to women for their shared hybrid nature whereas later folklore presented this dual character of oranges from an economic standpoint as both precious and dangerous The violence intrinsic to oranges in these Sicilian texts from the eighteen and nineteen hundreds returns in the controversial representations of the orange harvest in early twenty first century Italy *The Norwegian Fairy Book* Clara

Stroebe, 2016-01-08 I PER GYNT In the old days there lived in Kvam a marksman by the name of Per Gynt He was continually in the mountains where he shot bear and elk for at that time there were more forests on the Fjell and all sorts of beasts dwelt in them Once late in the fall when the cattle had long since been driven down from the mountain pastures Per Gynt decided to go up on the Fjell again With the exception of three dairy maids all the herd folk had already left the mountains But when Per Gynt reached Hvirringalm where he intended to stay over night in a herdsman's hut it already was so dark that he could not see his hand before his eyes Then the dogs began to bark so violently that he felt quite uneasy And suddenly his foot struck something and when he took hold of it it was cold and large and slippery Since he felt certain he had not left the path he could not imagine what it might be but he sensed that all was not in order And who are you asked Per Gynt for he noticed that it moved O I am the crooked one was the answer And now Per Gynt knew as much as he had before So he went along its length for sooner or later I will come to the end of it thought he As he went along he again struck against something and when he felt it it was again something cold and large and slippery **California Fruit News**, 1909 *Miscellaneous*
