Last Migration:

Oceanic Migration Charles E.M. Pearce, F. M. Pearce, 2010-06-17 *Oceanic Migration* studies the prehistoric peopling of the Pacific. It uses science and mathematics to expand the research base of Pacific prehistory and casts new light on this final human expansion. It explores the fundamental roles of oceanography and of global climate change in determining the paths, sequence, timing, and range of Spice Island based maritime migrations ranging across a quarter of the globe. The book is of interest to Pacific prehistorians, oceanographers, and American anthropologists concerned with the diffusionist debate. For oceanographers, it presents the new idea of the role of the West Pacific Warm Pool and of three of its four major currents in determining the evolution of voyaging in two oceans. For diffusionists, it provides new chronological and technological contexts in which the issue of diffusionism needs to be reconsidered. For prehistorians, it creates a paradigmatic shift by establishing a new time depth and mechanism for Polynesian exploration. It offers a new view of voyaging and exploration strategies and of economic imperatives and adds a new dimension to the debate on Polynesian origins.

Internal Migration as a Life-Course Trajectory Aude Bernard, 2022-06-20 This book responds to growing calls to conceptualise and analyse internal migration as a trajectory that unfolds over the life course of individuals rather than a series of discrete events. It combines macro and micro modes of analysis into a cohort framework to explore how individuals transition from one migration to the next. The book presents new methodological developments in longitudinal analysis and applies them to internal migration in 27 European countries. It demonstrates that the traditional dichotomy between migrants and non-migrants conceals a wide range of migration behaviour and heterogeneity among repeat migrants. It also reveals a continuity of migration behaviour: being exposed to the challenges and benefits of migration early in life predisposes individuals toward migration in adulthood. By adopting a cohort approach to migration coupled with state-of-the-art methods and novel concepts, this book provides new insights into internal migration for graduate students, academics, and policymakers interested in understanding migration behaviour in Europe and beyond.

International Handbook of Migration and Population Distribution Michael J. White, 2015-12-11 This Handbook offers a comprehensive collection of essays that cover essential features of geographical mobility from internal migration to international migration to urbanization to the adaptation of migrants in their destinations. Part I of the collection introduces the range of theoretical perspectives offered by several social science disciplines while also examining the crucial relationship between internal and international migration. Part II takes up methods ranging from how migration data are best collected to contemporary techniques for analyzing such data. Part III of the handbook contains summaries of present trends across all world regions. Part IV rounds out the volume with several contributions assessing pressing issues in contemporary policy areas. The volume's editor, Michael J. White, has spent a career studying the pattern and process of internal and international migration, urbanization, and population distribution in a wide variety of settings from developing societies to advanced economies. In this Handbook, he brings together contributors

from all parts of the world gathering in this one volume both geographical and substantive expertise of the first rank The Handbook will be a key reference source for established scholars as well as an invaluable high level introduction to the most relevant topics in the field for emerging scholars

Arab Voices in Diaspora Layla Al Maleh, Layla Maleh, 2009 Arab Voices in Diaspora offers a wide ranging overview and an insightful study of the field of anglophone Arab literature produced across the world The first of its kind it chronicles the development of this literature from its inception at the turn of the past century until the post 9 11 era The book sheds light not only on the historical but also on the cultural and aesthetic value of this literary production which has so far received little scholarly attention It also seeks to place anglophone Arab literary works within the larger nomenclature of postcolonial emerging and ethnic literature as it finds that the authors are haunted by the same hybrid exilic and diasporic questions that have dogged their fellow postcolonialists Issues of belonging loyalty and affinity are recognized and dealt with in the various essays as are the various concerns involved in cultural and relational identification The contributors to this volume come from different national backgrounds and share in examining the nuances of this emerging literature Authors discussed include Elmaz Abinader Diana Abu Jaber Leila Aboulela Leila Ahmed Rabih Alameddine Edward Atiyah Shaw Dallal Ibrahim Fawal Fadia Faqir Khalil Gibran Suheir Hammad Loubna Haikal Nada Awar Jarrar Jad El Hage Lawrence Joseph Mohja Kahf Jamal Mahjoub Hisham Matar Dunya Mikhail Samia Serageldine Naomi Shihab Nye Ameen Rihani Mona Simpson Ahdaf Soueif and Cecile Yazbak Contributors Victoria M Abboud Diya M Abdo Samaa Abdurraqib Marta Cariello Carol Fadda Conrey Cristina Garrig s Lamia Hammad Yasmeen Hanoosh Wa l S Hassan Richard E Hishmeh Syrine Hout Layla Al Maleh Brinda J Mehta Dawn Mirapuri Geoffrey P Nash Boulus Sarru Fadia Fayezyoufie

Migration and Belonging A.A. Weinberg, 2012-12-06 by LOUIS GUTTMAN Fitting it is for the World Mental Health Year that a fundamental research monograph should appear devoted to one of the universal but perhaps inadequately recognized problems of our times mental health and personal adjustment problems of immigrants Many types of demographic data on migration are readily available from a variety of official sources Social scientists who have addressed themselves to the subject have many plausible hypotheses about sociopsychological factors leading to migration and the effects of migration upon later adjustment Conclusions based upon empirical psychological and psychiatric research are few

and far between Is it true that a person who is willing to depart his homeland voluntarily for another country must be better adjusted than others in order to be able to brave the idea of making the change Or is the converse true While it would be of great interest to study potential migrants before they leave and the conditions under which they leave the present monograph is devoted to research at the other end of the problem What type of immigrant adjusts well after arrival in the new country and under what conditions The unusual situation of Israel in absorbing in a short span of time people from many countries of origin afforded a unique opportunity for this type of study

Rural Development And Migration Sally E. Findley,Calvin Goldscheider,2019-10-16 Perhaps because I grew up on a farm in Ohio I have long been interested in rural development Although I fl St became a migrant at the age of 17 when I left the farm to continue my studies in a city college I was not aware of the relation between rural development and migration until many years later when I began studying patterns of urban and rural poverty This research has grown out of my continuing investigation of the ways that migration has been seen as both a response to chronic conditions of rural poverty and a factor potentially exacerbating urban poverty conditions If governments wanted to deal with urban poverty they would want to restrict urban in migration yet if they reduced urban in migration this would remove one of the important means available to persons seeking to raise themselves out of rural impoverishment This would clearly be a no win situation for the rural poor the only way to deal fairly with both urban and rural poverty would be to foster socio economic development of rural areas Thus I became interested in studying the patterns of rural development which actually have had an effect on the migration decisions of rural families

Debates on U.S. Immigration Judith Gans,Elaine M. Replogle,Daniel J. Tichenor,2012-08-17 This issues based reference work available in both print and electronic formats shines a spotlight on immigration policy in the United States The U S is a nation of immigrants Yet while the lofty words enshrined with the Statue of Liberty stand as a source of national pride the rhetoric and politics surrounding immigration policy all too often have proven far less lofty In reality the apparently open invitation of Lady Liberty seldom has been without restriction Throughout our history impassioned debates about the appropriate scope and nature of such restriction have emerged and mushroomed among politicians among scholars of public policy among the general public In light of the need to keep students researchers and other interested readers informed and up to date on status of U S immigration policy this volume uses introductory essays followed by point counterpoint articles to explore prominent and perennially important debates providing readers with

views on multiple sides of this complex issue While there are some brief works looking at debates on immigration as well as some general A to Z encyclopedias we offer more in depth coverage of a much wider range of themes and issues thus providing the only fully comprehensive point counterpoint handbook tackling the issues that political science history and sociology majors are asked to explore and to write about as students and that they will grapple with later as policy makers and citizens Features Benefits The volume is divided into three sections each with its own Section Editor Labor Economic Debates Judith Gans Social Cultural Debates Judith Gans and Political Legal Debates Daniel Tichenor Sections open with a Preface by the Section Editor to introduce the broad theme at hand and provide historical underpinnings Each section holds 12 chapters addressing varied aspects of the broad theme of the section Chapters open with an objective lead in piece or headnote followed by a point article and a counterpoint article All pieces headnote point article counterpoint article are signed For each chapter students are referred to further readings data sources and other resources as a jumping off spot for further research and more in depth exploration Finally volume concludes with a comprehensive index and the electronic version includes search and browse features as well as the ability to link to further readings cited within chapters should they be available to the library in electronic format

given year in the lay areas of residence education family formation and work These data permit the effective use of the concepts of life cycle and cohort analysis in the interpretation of the men s geographic and occupational mobility The experience of the Monterrey men in adapting to the varied changes required by their mobility was not found to be as difficult as is often indicated in the social science literature on the consequences of economic development In part this may be because Monterrey in comparison with most other Latin American cities has been unusually successful in its economic growth The impact of migration also was lessened because most of the men had visited the city prior to moving there and many had friends or relatives in the city The age of the migrants upon arrival in Monterrey made a significant difference in subsequent occupational mobility those of nonfarm background who arrived before age 25 fared better than natives of the city Although it appears that status inheritance in Monterrey is somewhat higher than in industrialized countries a considerable proportion of men do move up the occupational ladder And perhaps as important the Monterrey men whether or not they themselves are moving up perceive the society as an open one The very success of Monterrey s development created conditions that would bring about changes in the educational economic and cultural expectations of its inhabitants Thus paradoxically the general satisfaction and the lack of group and class conflict in Monterrey over the previous decades may well have given rise to future dissatisfaction and conflict
