A New Heaven and New Earth William Dewberry,2017-01-31 Popular arguments for evidence of the existence of God and His creation are the cosmological the ontological and the argument for the intelligent design of created things The ability to identify the source of the creation requires intelligence The Bible says God created everything and gave intelligence to the people He created **The Ages of the Earth** J. Javier Álvaro,2019-04-12 Negationism is an irrational but useful tool for

manipulation Almost nobody supports the Flat Earth model or the geocentrism but some European educational laws still offer a confessional education that treats as real the myth about Adam and Eve This book recounts the struggle that human mind has maintained over two millennia against creationist myths The journey takes place between cosmogonies theological dogmas natural philosophy Deism and the inevitable secularism of the Age of Enlightenment *Scorched Earth* Paul Thomas Chamberlin,2025-05-06 A powerful unsparing new history of World War II recasting the conflict as a brutal struggle for survival among declining and ascendant imperial powers In popular memory the Second World War was an unalloyed

victory for freedom over totalitarianism marking the demise of the age of empires and the triumph of an American led democratic order In Scorched Earth historian Paul Thomas Chamberlin dispatches the myth of World War II as a good war Instead he depicts the conflict as it truly was a massive battle beset by vicious racial atrocities fought between rival empires across huge stretches of Asia and Europe The war was sparked by German and Japanese invasions that threatened the old powers dominance not by Allied opposition to fascism The Allies achieved victory not through pluck and democratic idealism but through savage firebombing raids on civilian targets and the slaughter of millions of Soviet soldiers The Soviet Union and the United States emerged as hyper militarized new imperial powers each laying claim to former Axis holdings across the globe before turning on one another and triggering a new forever war Dramatically rendered and persuasively argued Scorched Earth shows that World War II marked the culmination of centuries of colonial violence and ushered in a new era of imperial struggle

Middle-earth and the Return of the Common Good Joshua Hren,2018-10-05 Political philosophy is nothing other than looking at things political under the aspect of eternity This book invites us to look philosophically at political things in J R R Tolkien s legendarium demonstrating that Tolkien s potent mythology can be brought into rich fruitful dialogue with works of political philosophy and political theology as different as Plato s Timaeus Aquinas De Regno Hobbes s Leviathan and Erik Peterson s Monotheism as a Political Problem It concludes that a political reading of Tolkien s work is most luminous when conducted by the harmonious lights of fides et ratio as found in the thought of Thomas Aquinas A broad study of Tolkien and the political is especially pertinent in that the legendarium operates on two levels As a popular mythology it is in the author s own words a really long story that would hold the attention of readers amuse them delight them and at times maybe excite them or deeply move them But the stories of The Silmarillion and The Lord of the Rings contain deeper teachings that can only be drawn out when read philosophically Written from the vantage of a mind that is deeply Christian Tolkien s stories grant us a revelatory gaze into the major political problems of modernity from individualism to totalitarianism sovereignty to surveillance terror to technocracy As an outsider in modernity Tolkien invites us to question the modern in a manner that moves beyond reaction into a vivid and compelling vision of the common good

Revelation Gordon D Fee,2013-04-25 Revelation is a book that many Christians find confusing due to the foreign nature of its apocalyptic imagery It is a book that has prompted endless discussions about the end times with theological divisions forming around epicenters such as the rapture and the millennium In this book award winning author Gordon Fee attempts to excavate the layers of symbolic imagery and provide an exposition of Revelation that is clear easy to follow convincing and engaging Fee shows us how John s message confronts the world with the Revelation of Jesus Christ so that Christians might see themselves as caught up in the drama of God s triumph over sin evil and death Fee draws us into the world of John and invites us to see the world through John s eyes as themorbid realities of this world have the joyous realities of heaven cast over them In this latest installment in the New Covenant Commentary Series we see one of North America s best evangelical

exegetes at his very best *Criticism of Earth* Roland Boer, 2012-06-08 Drawing on mostly ignored texts this book thoroughly reassesses Marx and Engels's engagement with theology. Alongside opium, Hegel and Feuerbach, other dimensions become important historical context: Bruno Bauer, Max Stirner, fetishism, secularism, political ambivalence, and the revolutionary possibilities of theology.
