Last Phase In The Transformation Of Capitalism:

The Last Phase in Transformation Michal Kalecki, 2018-11-01 This volume includes six essays the first dating from 1935 and the last from 1967 by one of the outstanding economists of our time The economics presented in this volume is political economy worthy of the name a discipline which shows us the social relations in particular the class and group conflicts behind the economic quantitative relations Michal Kalecki as Joan Robinson has pointed out anticipated the Keynesian system from a training in the field of Marxist economics The translation to English was executed by the author himself just before his death in April 1970 *The Last Phase in the Transformation of Capitalism* Michal Kalecki, 1972 **Karl Marx's Economics** John Cunningham Wood, 1993 **Post-Keynesian Essays from Down Under Volume I: Essays on Keynes, Harrod and Kalecki** G. Harcourt, Peter Kriesler, Joseph Halevi, John Nevile, 2016-04-29 Joseph Halevi Geoff Harcourt Peter Kriesler and J W Nevile bring together a collection of their most influential papers on post Keynesian thought Their work stresses the importance of the underlying institutional framework of the economy as a historical process and therefore of path determinacy In addition their essays suggest the ultimate goal of economics is as a tool to inform policy and make the world a better place with better being defined by an overriding concern with social justice Volume I analyses the contributions of Keynes Harrod and Kalecki *The Political Economy of Middle East Peace* J.W. Wright Jr., 2013-06-17 The Political Economy of Middle East Peace looks at the political economy of the Middle Eastern peace process with a focus on the politics of trade Contributors investigate the ways new commercial alliances develop as a result of economic agencies established via the Arab Israeli peace process and look at institutions which contribute to redirection of Arab intra and inter regional trade such as the Palestine Monetary Authority the Middle East Development Bank and free trade zone agencies in Aquaba and Dubai *The Long End of the First World War* Katrin Bromber, Katharina Lange, Heike Liebau, Anorthe Wetzell, 2018-10-04 Eigene und Fremde Welten Herausgegeben von Jörg Baberowski Stefan Rinke und Michael Wildt Mit dem Gedenken an den Ausbruch des Ersten Weltkriegs hat sich die Art der Erinnerung an dieses welthistorische Ereignis verändert Die Beiträge dieses Bandes zielen darauf ab Verknüpfungen zwischen individuellen Kriegserfahrungen Geschichtsschreibung und Erinnerung herzustellen und so den Begriff eines statischen klar definierten Endes des Ersten Weltkrieges zu hinterfragen eines Konstrukts das hauptsächlich auf europäischen Entwicklungen beruht *Wars and Capital* Eric Alliez, Maurizio Lazzarato, 2018-05-04 A critique of capital through the lens of war and a critique of war through the lens of the revolution of 1968 We are at war declared the President of the French Republic on the evening of November 13 2015 But what is this war exactly In *Wars and Capital* Eric Alliez and Maurizio Lazzarato propose a counter history of capitalism to recover the reality of the wars that are inflicted on us and denied to us We experience not the ideal war of philosophers but wars of class race sex and gender wars of civilization and the environment wars of subjectivity that are raging within populations and that constitute the secret motor of liberal governmentality By naming the enemy refugees migrants Muslims

the new fascisms establish their hegemony on the processes of political subjectivation by reducing them to racist sexist and xenophobic slogans fanning the flames of war among the poor and maintaining the total war philosophy of neoliberalism Because war and fascism are the repressed elements of post 68 thought Alliez and Lazzarato not only read the history of capital through war but also read war itself through the strange revolution of 68 which made possible the passage from war in the singular to a plurality of wars and from wars to the construction of new war machines against contemporary financialization It is a question of pushing 68 thought beyond its own limits and redirecting it towards a new pragmatics of struggle linked to the continuous war of capital It is especially important for us to prepare ourselves for the battles we will have to fight if we do not want to be always defeated

Exposing Falsehood Michael Uhryn, 2020-01-22 Man is not what he ought to be and that he ought to be that what he could be Eric Fromm Social sciences and research offer hope and optimism for humanity much to the disdain and disappointment of neoliberalism and reactionary forces in society Increasingly people are questioning the authenticity and veracity of negative values being propagandized by the corporate media Many scholars and people take the view that such values as peace and prevention of war are achievable greater economic and social equality is attainable adoption of participatory democracy is desirable and practical and working out a program on climate change and environmental sustainability is possible Moreover the mythology of human greed can be unravelled racism can be subdued empire building can be curtailed and unemployment and poverty can be eliminated Exposing Falsehood I detest what you write but I would give my life to make it possible for you to continue to write Voltaire 1694 1778 The author is consistent and passionate in his belief that a better world is in the making His wide range of experience in farming business teaching music and social activism convinced him of the need to promote the values of an egalitarian society

The Legacy of Rosa Luxemburg, Oskar Lange and Micha? Kalecki R. Bellofiore, E. Karwowski, J. Toporowski, 2013-12-13 Rosa Luxemburg Oskar Lange and Michal Kalecki made important contributions to twentieth century political economy that guided the thinking of their student Tadeusz Kowalik These contributions are re examined by renowned economists highlighting the common themes in their political economy and the neglected aspects of their work

Rethinking Israel and Palestine

Oded Nir, Joel Wainwright, 2020-06-29 The Middle East seems to be in perpetual crisis One might expect a plethora of Marxist analyses of Israel and Palestine Yet in the literature on Israel and Palestine there are hardly any studies of class relations of production or the relationship between the political and economic balance of forces over time This edited volume brings a diverse array of Marxist influenced interpretations of the present conjuncture in Israel and Palestine The collection includes works by luminaries of social theory such as Noam Chomsky and Fred Jameson as well as leading scholars of Palestine Raja Khalidi Sherene Seikaly and Orayb Aref Najjar and Israel Jonathan Nitzan Nitzan Lebovic and Amir Locker Biletzki It comprises the first ever collection of Marxist influenced writings on Palestine and Israel and the relationship between them This book was originally published as a special issue of the journal Rethinking Marxism

Imaginary Futures Richard

Barbrook, 2007-04-20 This book is a history of the future It shows how our contemporary understanding of the Internet is shaped by visions of the future that were put together in the 1950s and 1960s At the height of the Cold War the Americans invented the only working model of communism in human history the Internet Yet for all of its libertarian potential the goal of this hi tech project was geopolitical dominance the ownership of time was control over the destiny of humanity The potentially subversive theory of cybernetics was transformed into the military friendly project of artificial intelligence Capitalist growth became the fastest route to the information society The rest of the world was expected to follow America's path into the networked future Today we're still being told that the Internet is creating the information society and that America today is everywhere else tomorrow Thankfully at the beginning of the twenty first century the DIY ethic of the Internet shows that people can resist these authoritarian prophecies by shaping information technologies in their own interest Ultimately if we don't want the future to be what it used to be we must invent our own improved and truly revolutionary future

Globalization Development and Social Justice

Ann El Khoury, 2015-03-27 Are there existing alternatives to corporate globalization What are the prospects for and commonalities between communities and movements such as Occupy the World Social Forum and alternative economies Globalization Development and Social Justice advances the proposition that another globalization is not only possible but already exists It demonstrates that there are multiple pathways towards development with social justice and argues that enabling propositional agency rather than oppositional

agency such as resistance is a more effective alternative to neoliberal globalization El Khoury develops a theory of infraglobalization that emphasizes creative constitution not just contestation of global and local processes The book features case studies and examples of diverse economic practice and innovative emergent political forms from the Global South and North These case studies are located in the informal social economy and community development as well as everyday practices from prefigurative politics to community cooperatives and participatory planning This book makes an important contribution to debates about the prospects for and practices of a transformative grassroots globalization and to critical debates about globalization and development strategies It will be of interest to students and scholars of international relations globalization social movement studies political and economic geography sociology anthropology and development studies

Science and Ideology in the Policy Sciences Paul Diesing, 2017-07-05 The purpose of this book is to examine how ideology operates in the sense of influencing the conduct of inquiry in the policy sciences defined as economics political science and sociology The author seeks to identify the main ideologies and show how each ideology produces a preference for certain problems methods and hypotheses how it sensitizes scientists to certain phenomena and suggests certain interpretations of those phenomena and how it closes off other phenomena and concepts from investigation and testing or at least distorts that investigation In this book Diesing critically examines all the major schools of policy related social thought from 1930 to 1975 He deals with Neoclassical Economics and its various applications the Keynesians the Systems Approach the Schumpeter perspective the Critical Intellectuals the Pluralists the J K Galbraith School New Left Marxism and the Ecological Paradigm of Schumacher and others The world looks different if your perspective is that of a rational small businessman working in a society of hypothetical perfect competition as opposed to that of a proletarian looking up at your oppressors Part One is descriptive and evaluative considering each ideology in turn Part Two considers the policy implications In 1982 Diesing published a remarkable book entitled *Science and Ideology in the Policy Sciences* When I interviewed Diesing in Buffalo in the summer of 1984 he told me that to date the publication had been reviewed in only two professional journals I was astounded *Science Ideology* was the best book I had read in a decade and it related directly to all the policy sciences The lack of professional response may partially reflect Diesing's disinterest in self promotion but beyond this is the community problem Scholars are recognized within disciplines but there is only a tiny community of social science I consider this to be the most brilliant of Diesing's books Like all of Diesing's works it remains highly relevant today from the introduction by Richard Hartwig

Beyond Liberalism Prabhat Patnaik, 2024-09-10 Liberalism holds that individual freedom can be realized under capitalism Classical liberalism tends to focus on excessive state interference as the primary threat to freedom More recent theorists however recognize that capitalism left to itself would be characterized by mass social ills and argue that state intervention is necessary to guarantee individual freedom This book is a Marxist critique of liberalism Prabhat Patnaik demonstrates that liberalism and Marxism provide vastly differing accounts of individual freedom and the

forces that restrict it In the Marxist view people contrary to appearances lack real agency under capitalism Competition coerces individuals to act according to the impersonal logic of capitalism making them mere instruments of the system In this way capitalism creates universal alienation and true individual freedom is possible only through overcoming it Patnaik argues that socialism can secure individual agency in both economic and political spheres though actually existing socialism has failed in this respect He also considers what a socialist society should look like not a planned economy but a highly decentralized system in which citizens are directly involved in taking decisions affecting their lives and enjoy fundamental economic rights as well as political ones Readable yet rigorous Beyond Liberalism brings together political philosophy and political economy to offer a renewed vision of socialism *The Economics of Military Spending* Adem Yavuz Elveren,2019-05-17 The Economics of Military Spending offers a comprehensive analysis of the effect of military expenditures on the economy It is the first book to provide both a theoretical and an empirical investigation of how military spending affects the profit rate a key indicator of the health of a capitalist economy The book presents a general discussion on the economic models of the nexus of military spending and economic growth as well as military Keynesianism and the military industrial complex Including an account of the Marxist crisis theories it focuses on military spending as a counteracting factor to the tendency of rate of profit to fall Using a range of econometric methods and adopting a Marxist perspective this book provides comprehensive evidence on the effects of military spending on the rate of profit for more than thirty countries The findings of the book shed light on the complex linkages between military spending and the profit rate by considering the role of countries in the arms trade Offering a Marxist perspective and an emphasis on quantitative analysis The Economics of Military Spending will be of great interest to students and scholars of defence and peace economics as well as Marxist economics Heterodox Economics of Military Spending Adem Yavuz Elveren,2025-04-22 Covering Institutional Post Keynesian Marxist and Feminist perspectives Heterodox Economics of Military Spending provides a comprehensive analysis of the effect of military expenditures on the economy The impact of military spending on economic growth has always been a crucial issue for policymakers and academics There exists an extensive body of literature on how military spending affects macroeconomic variables including but not limited to economic growth profit rates income inequality gender inequality and employment Different schools of economic thought have proposed various theoretical approaches to investigate the role of military production in a capitalist economy While some of these approaches are competitive others complement each other Heterodox Economics of Military Spending is the first book to analyze the effects of military spending on various macroeconomic perspectives by considering all major alternative economic schools This book also contributes to the literature by introducing new theoretical models and empirical evidence with a special focus on its impact on economic growth This book will be of great interest to readers in defense and peace economics the history of economic thought Marxist economic theory feminist economics and pluralist approaches to economics Political Economy

in the Twentieth Century Maxine Berg, 1990-01-01 This collection of previously unpublished essays discusses the work of a select number of major intellectuals of the recent past Joan Robinson Piero Sraffa Maurice Dobb Michal Kalecki Paul Sweezy and Joseph Schumpeter These are not the figures who dominated established economic traditions they stood rather outside the mainstream acting as critics of the capitalist order and of the theory that sought to explain it More than a study of leading intellectuals the book also investigates the principal problems and theoretical inheritance which linked together theorists of otherwise disparate social and political contexts Students and scholars of the history of economic thought will find many interesting ideas here It will be a fascinating source of reference for many years to come The contributors are Geoff Harcourt A K Sen Malcolm Sawyer Josef Steindl Michael Lebowitz and Tom Bottomore **War in Economic**

Theories over Time Renata Allio, 2020-03-21 This book offers the first systematic analysis of economic thought concerning war It retraces debates on war from the formation of European states the rise of Mercantilism to Colonialism Imperialism the World Wars and the Cold War Allio shows different economic perspectives from which it is possible to study war as a tool to achieve economic ends causes consequences costs funding methods and effects on the economic status of the state and on the well being of citizens Examining interpretations from Smith Hobson Keynes Kalecki Stiglitz and many more this important volume addresses the economic implications of war from the perspectives of many who bore the costs of wars in reality
