Wright, Michael D. Vose, Kenneth A. De Jong, Lothar M. Schmitt, 2005-06-16

The 8th Workshop on the Foundations of Genetic Algorithms FOGA 8 was held at the University of Aizu in Aizu Wakamatsu City Japan January 5-9 2005 This series of workshops was initiated in 1990 to encourage further research on the theoretical aspects of genetic algorithms and the workshops have been held biennially ever since The papers presented at these workshops are revised edited and published as volumes during the year following each workshop This series of now eight volumes provides an outstanding source of reference for the theoretical work in this field At the same time this series of volumes provides a clear picture of how the theoretical research has grown and matured along with the field to encompass many evolutionary computation paradigms including evolution strategies ES evolutionary programming EP and genetic programming GP as well as the continuing growth in interactions with other fields such as mathematics physics and biology A tradition of these workshops is organizing them in such a way as to encourage lots of interaction and discussion by restricting the number of papers presented and the number of attendees and by holding the workshop in a relaxed and informal setting This year's workshop was no exception Thirty two researchers met for 3 days to present and discuss 16 papers The local organizer was Lothar Schmitt who together with help and support from his university provided the workshop facilities

After the workshop was over the authors were given the opportunity to revise their papers based on the feedback they received from the other participants Phaco Fundamentals Matthew Anderson, Jeremy Butcher, 2011 The book is co-authored by a registrar in ophthalmology and a highly experienced consultant ophthalmologist who teaches on the Royal College of Ophthalmologists Microsurgical Skills Course Observing that trainee ophthalmic surgeons are often introduced to phacoemulsification surgery with little previous microsurgical experience Anderson and Butcher realised the need for a concise yet comprehensive text that describes a single safe way to perform this operation Addressing this gap in the market this book will assist trainee ophthalmic surgeons to perform uncomplicated rewarding surgery The authors provide an unambiguous explanation of surgical steps complemented by extensive use of high quality colour photographs and diagrams Descriptions of operative steps are detailed and importantly assume no prior knowledge of phacoemulsification surgery The book is structured logically so that users can quickly find information most relevant to their immediate requirements in theatre Establishing the Foundation of Collaborative Networks Luis Camarinha-Matos, Hamideh Afsarmanesh, Paulo Novais, Cesar Analide, 2007-09-14 Establishing the foundation of Collaborative Networks The need for computer assisted collaboration which originally manifested decades ago in manufacturing to establish small business oriented networks of

organizations in forms of supply chains or extended enterprises is by now extended into a large number of other areas While today production and service provision constitute the main areas of application for Collaborative Networks CNs worldwide during the last decade virtual scientific laboratories inter enterprise collaborative engineering crisis management virtual institutes and virtual learning communities among others are also rising within the wide spectnlm of application areas in need of CNs These developments emphasize the urgency for establishing a sounder foundation for collaborative networks namely in terms o theoretical principles and formal models capturing the concepts entities behaviors and operations of the CNs and developing technology independent infrastructure architecture tools and methodologies Further to the shorter term goal oriented and opportunity based virtual organi zations nowadays a variety of long term strategic association coalition of organizations have emerged These associations earlier called clusters or clubs act as the breeding environments for virtual organizations and provide the necessary conditions and mechanisms to prepare their members towards dynamic and fluid establishment of potential opportunity based virtual organizations A good collection of active va Breeding Environments VBEs and Professional Virtual Communities PVCs can be found in various regions of the world
