Englands Undiscovered Heritage:

England's Undiscovered Heritage Debra Shipley, Mary Atkinson, 1988-01-01 Presents one hundred sites often missed by travelers

Jewish Heritage in England Sharman Kadish, 2006 Covering more than 300 sites this work highlights major Jewish landmarks in England ranging from Britain's oldest synagogue Bevis Marks Synagogue in London through the Georgian gems of the West Country to the splendid High Victorian cathedral synagogues of Birmingham Brighton and Liverpool

England Alan Edwin Day, 1993 *Creating Heritage* Thomas Carter, David Harvey, Roy Jones, Iain Robertson, 2019-11-15 This book investigates the selection process of heritagisation to understand what specific pasts are being selected or rejected for representation who is selecting them how and to whom they are being represented and why they are being presented or dismissed in the ways that they are Some aspects of our pasts are venerated and memorialised for a variety of reasons while others are forgotten or even hidden This volume thus provides examples from across a spectrum Some phenomena are well suited to heritagisation such as animals memorialised for their bravery long past agricultural techniques and implements and impressive landscapes However this book also deals with products e.g. tobacco historical periods e.g. the Third Reich and scientific techniques e.g. genetic modification with negative connotations that extend beyond their heritage attributes This volume considers how the actors in the heritage industry admit valorise prioritise and rationalise historic resources as heritage products These findings provide practical examples of how heritage institutions privilege frame and or exclude a wide range of heritage items They also contrast the invocations of sectional local national or class based and more cosmopolitan heritages and consider the extent to which innovation and change are or can be acknowledged within the heritage discourse

Recommended in Choice Reference Reviews American Reference Books Annual *Coast: Our Island Story* Nicholas Crane, 2010-10-31 Along our shores towering cliffs from the age of the dinosaurs rise beside wide estuaries teeming with wildlife while Victorian ports share waterfronts with imposing fortifications And the people who have lived worked and played on this spectacular coast from Stone Age fishermen to seafarers chart makers and surfers have an incredible tale to tell *Coast Our Island Story* is an enthralling account sparkling with geography history adventure and eccentric characters told with Nick Crane s trademark charisma and wit *Forthcoming Books* Rose Arny, 1988-09 *International Law of Underwater Cultural Heritage* Kim Browne, Murray Raff, 2023-01-01 This book brings together three distinct areas of International Law namely Environmental Heritage and Ocean Law to address the international legal protection of historically significant wrecks with particular focus on the environmental hazards they may pose The confluence of Heritage Law and the Law of the Sea with International Environmental Law represents an important development in international governance strategies for the twenty first century in particular those legal and administrative regimes that concern the world s oceans and underwater cultural heritage protection Importantly connections between international legal regimes such as the 1982 Law of the Sea and institutions like the International Maritime Organisation IMO and United Nations Education Scientific Cultural Organisation UNESCO can play a crucial part in governance strategies that involve the regulation of marine pollution and historic shipwrecks *International Heritage Law for Communities* Lucas Lixinski, 2019-05-30 This book critically engages the shortcomings of the field of international heritage law seen through the lenses of the five major UNESCO treaties for the safeguarding of different types of heritage It argues that these five treaties have effectively prevented local communities who bear the brunt of the costs associated with international heritage protection from having a say in how their heritage is managed The exclusion of local communities often alienates them not only from international decision making processes but also from their cultural heritage itself ultimately meaning that systems put in place for the protection of cultural heritage contribute to its disappearance in the long term *International Heritage Law for Communities* adds to existing literature by looking at these UNESCO treaties not as isolated regimes but rather as belonging to a discursive continuum on cultural heritage In doing so the book focuses on themes that cut across the relevant UNESCO regimes like the use of expert rule in international heritage law economics the relationship between heritage and the environment among others rather than the regimes themselves It uses this mechanism to highlight the blind spots and unintended consequences of UNESCO treaties and how choices made in their drafting have continuing and potentially negative impacts on how we think about and safeguard heritage *British Archaeological Abstracts* , 1988 *The Cumulative Book Index* , 1992 A world list of books in the English language *Walford's Guide to Reference Material* Marilyn Mullay, 1989 **Iconic Planned Communities and the Challenge of Change** Mary Corbin Sies, Isabelle Gournay, Robert Freestone, 2019-08-23 In the history of planning the design of an entire community prior to its construction is

among the oldest traditions *Iconic Planned Communities and the Challenge of Change* explores the twenty first century fortunes of planned communities around the world Drawing on interdisciplinary perspectives the editors and contributors examine what happened to planned communities after their glory days had passed and they became vulnerable to pressures of growth change and even decline Beginning with Robert Owen s industrial village in Scotland and concluding with Robert Davis s neotraditional resort haven in Florida this book documents the effort to translate optimal design into sustaining a common life that works for changing circumstances and new generations of residents Basing their approach on historical research and practical on the ground considerations the essayists argue that preservation efforts succeed best when they build upon foundational planning principles address landscape architecture and social engineering together and respect the spirit of place Presenting twenty three case studies located in six continents each contributor considers how to preserve the spirit of the community and its key design elements and the ways in which those elements can be adapted to contemporary circumstances and changing demographics *Iconic Planned Communities and the Challenge of Change* espouses strategies to achieve critical resilience and emphasizes the vital connection between heritage preservation equitable sharing of the benefits of living in these carefully designed places and sustainable development

Lixinski,2024-08-06 This Research Agenda recasts cultural heritage law emphasising the importance of developing rigorous and socially engaged scholarly research in the field It analyses tensions and methodologies using the return of colonial cultural objects as a key case study **Waterstone's Guide to Books** Waterstone & Co,1988 **Undiscovered France** Emile Francis Williams,1927 **The Protection of the Underwater Cultural Heritage** Sarah Dromgoole,2006-09-01 The legal protection of the underwater cultural heritage is a field in which there is growing international interest Shipwrecks and other underwater cultural remains in every maritime zone are threatened both by activities directed at them such as treasure hunting and by activities incidentally affecting them such as mineral exploration and exploitation pipeline and cable laying dredging and fishing Since the first edition of this collection published in 1999 the urgent need for an international legal framework to regulate these activities has been formally recognised by the adoption in 2001 of the UNESCO Convention on the Protection of the Underwater Cultural Heritage While the prospects for this Convention remain uncertain it will undoubtedly have a profound influence on national laws and practice in this field This second collection of essays examines the present state of law policy and practice in sixteen different jurisdictions around the world in light of the 2001 Convention Among other things the viewpoint of each jurisdiction in respect of the Convention is considered and the impact that the Convention is already having and is likely to have in the future is explored Eight of the essays are entirely new and several additional jurisdictions are covered Finland the Federated States of Micronesia the Netherlands New Zealand and Norway The other essays have been thoroughly updated and revised to take account of the Convention The contributors come from a variety of backgrounds but all have specialist knowledge and experience of their particular jurisdiction and a keen interest in the field
