Rzeznik,2013-06-20 In *Church and Estate* Thomas Rzeznik examines the lives and religious commitments of the Philadelphia elite during the period of industrial prosperity that extended from the late nineteenth century through the 1920s The book demonstrates how their religious beliefs informed their actions and shaped their class identity while simultaneously revealing the ways in which financial influences shaped the character of American religious life In tracing those connections it shows how religion and wealth shared a fruitful yet ultimately tenuous relationship Country Churches Simon Jenkins,2009-04-02

This is a celebration of England s most glorious churches from Norman masterpieces and Medieval treasures to Baroque splendour and Victorian high gothic Simon Jenkins has travelled England from Cornwall to Cumbria to select its finest churches of all periods and styles unearthing rich mosaics precious stained glass grand marbles and humble carvings of green men dogs rabbits and birds In doing so he reveals not only an unparalleled collection of national art and architecture but the history and spirit of a people Generations of inhabitants have helped shape the English countryside but it has profoundly shaped us too It has provoked a huge variety of responses from artists writers musicians and people who live and work on the land as well as those who are travelling through it *English Journeys* celebrates this long tradition with a series of twenty books on all aspects of the countryside from stargazey pie and country churches to man s relationship with nature and songs celebrating the patterns of the countryside as well as ghosts and love struck soldiers **A Blessed Company** John K.

Nelson,2003-01-14 In this book John Nelson reconstructs everyday Anglican religious practice and experience in Virginia from the end of the seventeenth century to the start of the American Revolution Challenging previous characterizations of the colonial Anglican establishment as weak he reveals the fundamental role the church played in the political social and economic as well as the spiritual lives of its parishioners Drawing on extensive research in parish and county records and other primary sources Nelson describes Anglican Virginia s parish system its parsons its rituals of worship and rites of passage and its parishioners varied relationships to the church All colonial Virginians men and women rich and poor young and old planters and merchants servants and slaves dissenters and freethinkers belonged to a parish As such they were subject to its levies its authority over marriage and other social and economic dictates In addition to its religious functions the parish provided essential care for the poor collaborated with the courts to handle civil disputes and exerted its influence over many other aspects of community life *A Blessed Company* demonstrates that by creatively adapting Anglican parish organization and the language forms and modes of Anglican spirituality to the Chesapeake s distinctive environmental and human conditions colonial Virginians sustained a remarkably effective and faithful Anglican church in the Old Dominion

Arts and Crafts Architecture Maureen Meister,2014-11-04 This book offers the first full scale examination of the architecture associated with the Arts and Crafts movement that spread throughout New England at the turn of the twentieth century Although interest in the Arts and Crafts movement has grown since the 1970s the literature on New England has

focused on craft production Meister traces the history of the movement from its origins in mid nineteenth century England to its arrival in the United States and describes how Boston architects including H H Richardson embraced its tenets in the 1870s and 1880s She then turns to the next generation of designers examining buildings by twelve of the region s most prominent architects eleven men and a woman who assumed leadership roles in the Society of Arts and Crafts founded in Boston in 1897 Among them are Ralph Adams Cram Lois Lilley Howe Charles Maginnis and H Langford Warren They promoted designs based on historical precedent and the region s heritage while encouraging well executed ornament Meister also discusses revered cultural personalities who influenced the architects notably Ralph Waldo Emerson and art historian Charles Eliot Norton as well as contemporaries who shared their concerns such as Louis Brandeis Conservative though the architects were in the styles they favored they also were forward looking blending Arts and Crafts values with Progressive Era idealism Open to new materials and building types they made lasting contributions with many of their designs now landmarks honored in cities and towns across New England

Pioneer Churches of Vancouver Island and the Salish Sea Liz Bryan,2020-06-23 A concise full colour visitor s guide to dozens of historical churches scattered throughout Vancouver Island from humble country chapels to soaring urban cathedrals For many European settlers who arrived on Vancouver Island in the late nineteenth century building a church was as important as establishing a homestead or erecting a school The church was the heart of the community Today although demographics have shifted and church attendance has waned many of those early structures are still standing Pioneer Churches of Vancouver Island and the Salish Sea features more than forty surviving churches whose construction dates back to the 1800s It explores the architecture the local history of the area and the stories of the builders worshippers clergy members those who are buried in the adjoining graveyards Divided into geographical sections Victoria Esquimalt and the Saanich Peninsula the Cowichan Valley Salt Spring Island Central Vancouver Island and the North Island this book is a beautifully photographed easy to follow guide for anyone interested in exploring these architectural treasures and learning more about the history surrounding them

A Traditionalist History of the Great War, Book II Alexander Wolfheze,2021-01-27 This book analyzes the world of 1914 by combining the approaches of traditionalist hermeneutics and 20th century geopolitics The juxtaposition of these two frameworks incorporated in the principles of Sacred Geography and Sea Power allows for a Traditionalist perspective on the choices facing the Ten Great Powers on the eve of the Great War The book s multifaceted approach follows the iconoclastic culture critique method of the Traditional School that was developed by Ren Gu non Frithjof Schuon and Julius Evola it shows the pre war world as essentially different from the post war world Thus the Ten Great Power protagonists of the Great War may be understood on their own terms rather than through a backward projection of politically correct values on the existentially different human life world of 1914 Dislodging the historical materialist progress premise that underpins contemporary academic historiography this book reasserts the highest claim of the Art of History meta narrative meaning

Saint Mark'S Church,

Philadelphia, from 1847 Gerald Klever, PhD, 2015-08-21 This is a nontraditional story of the people of an Episcopal parish that was born in center city Philadelphia in 1847 not many decades after the American Episcopal Church broke with the Church of England By distinct choice Saint Marks founders built an Anglican church feeling that the Church of England journeyed too far from its Anglo Catholic roots These Victorian era people and those who followed them gave magnificent gifts abundantly to their church But they also built operated and staffed missions chapels and churches in Philadelphia and the nation They could did and still do have an impact beyond their parish This is their story
