Intersections of Peace and Language Studies Erin A. Mikulec, Sai Bhatawadekar, Cuhullan Tsuyoshi McGivern, Paul Chamness Iida, 2022-01-01 Readings in Language Studies Volume 7 Intersections of Peace and Language Studies features international contributions that represent state of the field reviews multi disciplinary perspectives theory driven syntheses of current scholarship reports of new empirical research reflections

on pedagogical practices and critical discussions of major topics centered on the intersection of language studies and peace. Consistent with the mission of ISLS, the collection of 13 chapters in this volume seeks to bridge these arbitrary disciplinary territories and provide a forum for both theoretical and empirical research from existing and emergent research methodologies for exploring the relationships among language, power, discourses, and social practices. Language and peace are in themselves incredibly complex concepts. They are simultaneously interpersonal in their function and effect as well as intimately personal in their experience. From everyday communication to the pragmatics of world diplomacy, from embracing a foreign culture to embarking upon a journey of self-awareness, language and peace are inseparably intertwined. To reveal their myriad interconnections in local and global contexts is a limitless task; nevertheless, we attempt to bring you a few glimpses from far corners of the world. It is also a linguistic and postcolonial mission of this society and the book series to publish the voices of non-native speakers of English. Decolonizing the academic enterprise is part of our commitment to diversity.

The Lazy Intellectual Richard J. Wallace, 2010-09-18. It's a small attention span world out there and not everyone is interested in paging through lengthy tomes to deepen their intellect. They want their information. And they want it now. This book fills that void next to the recliner as they go to reference whenever work conversations or bar trivia have you feeling stupid. The top ten academic subjects are broken into digestible pieces such as Fast Facts, One liners that deliver important information, Repeatable Quotables, Smart words by smart people to make readers look smart by repeating, Visual Aids, Graphs, charts, and tables for when even a few words are way too much, Cheat Sheets, Chapter ending recaps that reinforce the major points to take away. Whether they want an answer to a biology question or to brush up on their Spanish during a commercial break, this book is perfect for people who couldn't bother paying attention the first time.
