**Peter L. Larson**

## English Rural Society:

**Transforming English Rural Society** John Broad, 2004-04-22 Between 1540 and 1920 the English elite transformed the countryside and landscape by building up landed estates which were concentrated around their country houses John Broad's study of the Verney family of Middle Claydon in Buckinghamshire demonstrates two sides of that process Charting the family's rise to wealth impelled by a strong dynastic imperative Broad shows how the Verneys sought out heiress marriages to expand wealth and income In parallel he shows how the family managed its estates to maximize income and transformed three local village communities creating a pattern of open and closed villages familiar to nineteenth century commentators Based on the formidable Verney family archive with its abundant correspondence this book also examines the world of poor relief farming families as well as strategies for estate expansion and social enhancement It will appeal to anyone interested in the English countryside as a dynamic force in social and economic history      **English Rural Society, 1200-1350** J. Z. Titow, 2017-07-06 This title first published in 1969 is concerned with historic documents and their uses and with a discussion of living standards among the peasants as it is the author's belief that any worthwhile discussion is impossible without an understanding of the sources and their limitations With its emphasis on the controversial and debateable this book is admirable proof that a study of medieval history is not merely a matter of memorising facts      **English Rural Society, 1500-1800** John Chartres, David Hey, 2006-11-02 Written largely by her former research students this book honours the varied and creative career of Joan Thirsk      Transforming English Rural Society John Broad, 2004-04-22 Exploration of the rise and fall of the dynastic Verney family of Middle Claydon Buckinghamshire      **Custom and Commercialisation in English Rural Society** J. Bowen, A. Brown, 2016-03-01 English rural society underwent fundamental changes between the thirteenth and eighteenth centuries with urbanization commercialization and industrialization producing new challenges and opportunities for inhabitants of rural communities However our understanding of this period has been shaped by the compartmentalization of history into medieval and early modern specialisms and by the debates surrounding the transition from feudalism to capitalism and landlord tenant relations Inspired by the classic works of Tawney and Postan this collection of essays examines their relevance to historians today distinguishing between their contrasting approaches to the pre industrial economy and exploring the development of agriculture and rural industry changes in land and property rights and competition over resources in the English countryside      **Winchester Yields** J. Titow, 2004-02-12 This collection not only antedates all others by some 50 years but is also by far the best series of account rolls in existence and the only one allowing for a study covering the whole of the 13th century      *English Rural Society, 1900-1350* J. Z. Titow, 1969      **Rethinking the Great Transition** Peter L. Larson, 2022-01-27 This case study of two rural parishes in County Durham England provides an alternate view on the economic development involved in the transition from medieval to modern partly explaining England's rise to global economic dominance in the seventeenth century Coal mining did not come to these parishes until the

nineteenth century these are an example of agrarian expansion Low population favourable seigniorial administration and a commercialised society saw the emergence of large farms on the bishopric of Durham soon after the Black Death these secure copyhold and leasehold tenures were among the earliest known in England Individualism developed within a strong parish and village community that encouraged growth while enforcing conformity tenants had freedom to farm as they wished within limits Along with low rents this allowed for a swift expansion of agricultural production in the sixteenth century as population rose and then as the coal trade expanded rapidly The prosperity of these men is reflected in their lands livestock and consumer goods Yet not all shared in this prosperity as the poor and landless increased in number simply by population growth Through reformation and rebellion these and other parishes prospered without experiencing severe disruption or destruction In north eastern England agrarian development was an evolution and not a revolution This study shows England's economic development as a single narrative woven together from a collection of regional experiences at different times and at different speeds

**Earls Colne's Early Modern Landscapes** Dolly MacKinnon, 2016-04-29 The Essex village of Earls Colne boasts one of the most comprehensive collections of historical documents in Britain and has been the subject of an intensive and ongoing research project to collate and computerise the surviving records As such Earls Colne is undoubtedly one of the most studied parishes in England Yet whilst much is now known about the village and its inhabitants little work has been done on the social relationships that bound the community together within its mental and physical landscape As such scholars will welcome Dr MacKinnon's investigation into the social political and cultural world of early modern England as represented by Earls Colne The book provides a fresh approach to the study of the landscape of a seventeenth century village by focussing on the relationships between political power and cultural artefacts It examines how private public and communal spaces within society were generated gendered and governed and how this was recorded and perpetuated in the records names and monuments of the parish and surrounding landscape Yet whilst the elites tried to represent a select social landscape through their control of the local records and documents these attempts were always counterbalanced by the less powerful members of the community who occupied and contested these spaces By reconstructing the dynamics of Earls Colne through a careful reading and cross referencing of the surviving documents buildings and place names this book offers a fascinating insight into how the sights and sounds of early modern society were imbued with the social relations of parish politics As well as deepening our understanding of Earls Colne itself the book offers historians the potential to revisit other local studies from a fresh perspective

**New Directions in Local History Since Hoskins** Christopher Dyer, Andrew James Hopper, Evelyn Lord, Nigel J. Tringham, 2011 Local history in Britain can trace its origins back to the sixteenth century and before but it was given inspiration and a new sense of direction in the 1950s and 60s by the work of W G Hoskins This book marks the fiftieth anniversary of the publication of his Local history in England which was designed to help people researching the history of their own villages and towns It is the result of a collaboration

between academic historians in the Centre for English Local History at the University of Leicester which Hoskins founded and the British Association for Local History an organisation that brings together the thousands of people who are not professional academics but who practise local history Taking the work of Hoskins as a starting point the contributors show how local history is being researched and written today Fifteen historians write about a variety of local history subjects which are significant in their own right but which also point to current trends in the subject They show how local historians use their sources systematically from the non verbal evidence of buildings to various types of electronic resources All periods between the middle ages and the early twenty first century are explored as are many different parts of the country from Skye to the Kent coast There are examples of local historians working on ethnic minorities gender and the working class Those who study localities use a variety of approaches including those of social economic religious legal intellectual and cultural history all of which are employed here They are aware of the roots of their subject and examine the history of local history itself Together the editors and authors raise the various dilemmas which stimulate debates among local historians about the nature of the subject its present health and the directions it will take in the next half century

**Critical Multicultural Practice in Social Work** Charlotte Williams, 2020-07-16 Critical multicultural practice rather than being a specialism is integral to Australian social work Drawing on critical race theory critical multiculturalism intersectionality and critical reflection as practice theory this major new edited collection challenges many of the dominant assumptions of cross cultural social work and provides instead a new model of transformative engagement Key concepts are considered including identity culture diversity and superdiversity how power and privilege shape everyday interactions and what is meant by citizenship in the contemporary context Part One explores the changing nature of multicultural practice in Australia including our society's changing demographic profile the impact of asylum and refugee migrations race and racism and cultural identity Indigenous perspectives and the relationship with multicultural practice are examined together with the ethical and legal basis for multicultural practice This part concludes with an outline of the editors framework for critical multicultural practice Part Two draws on contributions from a range of practitioners and offers new perspectives on diverse fields including child protection mental health disability ageing homelessness and rural and regional practice Featuring case studies and insights drawn from across the spectrum of practice this book is a vital resource for all social workers practising in Australia today A rich and nuanced analysis of what is happening at the interfaces of our work and the lives of Australian citizens it articulates ways forward that are genuine bold and empathetic From the foreword by Professor Kerry Arabena The University of Melbourne

**Earthly Necessities** Keith Wrightson, 2000-01-01 Wrightson describes the basic institutions and relationships of economic life in Britain tracing the processes of change and examines how these changes affect men women and children of all ages Illustrations

**The Later Tudors** Penry Williams, 1998 The Later Tudors is an authoritative and comprehensive study of England between the accession of Edward VI and the death of Elizabeth I a turbulent period of conflict amongst

European nations and between warring Catholics and Protestants These internal and external struggles created anxiety in England but by the end of Elizabeth's reign the nation had achieved a remarkable sense of political and religious identity Penry Williams combines the political religious and economic history of the nation with a broader analysis of English society family relations and culture in order to explain the workings and development of the English state The result is an incisive and wide ranging analysis that culminates in an assessment of England's part in the shaping of the New World It should hold its own for some time the best account for the serious reader History Today

**Contested Countryside Cultures** Paul Cloke, Jo Little, 2005-08-12 This book examines the other side of the countryside a place also inhabited and visited by women children teenagers the elderly gay men and lesbians black and ethnic minorities the unemployed and the poor These groups have remained largely excluded by both rural policies and the representations of rural culture The book charts the experiences of these marginalised groups and sets this exploration within the context of postmodern poststructuralist postcolonial and late feminist analysis This theoretical framework reveals how notions of the rural have been created to reflect and reinforce divisions amongst those living in the countryside

**England in the Later Middle Ages** M.H. Keen, 2004-08-02 First published to wide critical acclaim in 1973 England in the Later Middle Ages has become a seminal text for students studying this diverse constantly changing period The second edition of this book while maintaining the character of the

**Crime in Early Modern England 1550-1750** James A Sharpe, 2014-06-17 Still the only general survey of the topic available this widely used exploration of the incidence causes and control of crime in Early Modern England throws a vivid light on the times It uses court archives to capture vividly the everyday lives of people who would otherwise have left little mark on the historical record This new edition fully updated throughout incorporates new thinking on many issues including gender and crime changes in punishment and literary perspectives on crime

**Local Identities in Late Medieval and Early Modern England** Daniel Woolf, 2007-10-17 Inspired by the path breaking work of Robert Tittler the authors explore late Medieval and Early Modern community and identity across England They examine the decline of neighbourliness the politics of market towns clerical status charity crime and ways in which overlapping communities of court and country London and Lancashire relate

**The Elizabethan World** Susan Doran, Norman Jones, 2014-09-15 This comprehensive and beautifully illustrated collection of essays conveys a vivid picture of a fascinating and hugely significant period in history Featuring contributions from thirty eight international scholars the book takes a thematic approach to a period which saw the defeat of the Spanish Armada the explorations of Francis Drake and Walter Raleigh the establishment of the Protestant Church the flourishing of commercial theatre and the works of Edmund Spenser Philip Sidney and William Shakespeare Encompassing social political cultural religious and economic history and crossing several disciplines The Elizabethan World depicts a time of transformation and a world order in transition Topics covered include central and local government political ideas censorship and propaganda parliament the Protestant Church the Catholic community social

hierarchies women the family and household popular culture commerce and consumption urban and rural economies theatre art architecture intellectual developments exploration and imperialism Ireland and the Elizabethan wars The volume conveys a vivid picture of how politics religion popular culture the world of work and social practices fit together in an exciting world of change and will be invaluable reading for all students and scholars of the Elizabethan period The Character of English Rural Society Henry French, Richard Hoyle, 2007-08-15 This is a major study of the transformation of early modern English rural society It begins by assessing the three major debates about the character of English society the Brenner Debate the debate over English Individualism and the long running debate over the disappearance of the small landowner It then turns to the history of Earls Colne in Essex which has never before been the subject of a full length study despite it being one of the most discussed villages in England It is a key work for all those interested in how English rural society changed between the sixteenth and eighteenth centuries *World of the Small Farmer* Patricia Croot, 2017-06-01 This detailed and original study of early modern agrarian society in the Somerset Levels examines the small landholders in a group of sixteen contiguous parishes in the area known as Brent Marsh These were farmers with lifehold tenures and a mixed agricultural production whose activities and outlook are shown to be very different from that of the small peasant farmers of so many general histories Patricia Croot challenges the idea that small farmers failed to contribute to the productivity and commercialization of the early modern economy While the emergence of large capitalist farms was an important development these added to the production of existing small cultivators rather than replacing them The idea that only large scale specialized farmers were involved in agricultural progress or that their contribution alone was enough to account for the great increase in food production by the late 17th century is questioned small farmers continued to make a living contributed to the market and survived alongside the new bigger farms Croot's in depth study not only adds to our knowledge of agrarian society generally but shows that far from being backward and interested primarily in subsistence farming small producers in this area sought profit in making the best use of their resources however limited being flexible in their production and growing new or unusual crops The main land tenures copy and lease for lives are also covered in detail contributing to current debates on landholding and sub tenancy The author shows the uses to which lifehold tenures could be put resulting in the increasing financial strength of copyholders and their dominance in local society The effects of the tenure and profits of farming can be seen in the way that families were provided for as well as in the roles that women played and the responsibility they had in economic and social life while the wider interests of the inhabitants are shown in their religious and political engagement in events of the 17th century Patricia Croot's meticulous study is a valuable contribution to English agrarian history and in particular to the history of this under researched region

The Top Books of the Year English Rural Society The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous captivating novels enthralling the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the fascinating narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover masterfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Uncover the Best : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. English Rural Society : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
