English Garden Abroad:

The English Garden Abroad Charles Quest-Ritson,1992

Recreates the world of forgotten gardens and their valiant if often eccentric owners The reader is brought right up to date with the explosion of gardening among English people now living in southern Europe and such contemporary gardens such as the Caetani Howard paradise at Ninfa

The Italian Garden John Dixon Hunt,1996-11-28 Italian gardens vary widely according to their historical date and geographic location This collection approaches Italian gardens of all periods from the middle ages to modern times and it ranges widely throughout the peninsula from Genoa to Sicily the Veneto to Liguria and Ferrara to Florence The authors are a distinguished group of Italian American English and German scholars with different backgrounds in art history literature architecture planning and cultural history The explorations of the subject from these different perspectives illuminate not only their own disciplines but are concerned to make many fresh connections between garden art and the politics of nationalism between the art of gardens and urban infrastructure between cultural movements like freemasonry and site planning between design and planting materials The book offers therefore a narrative of the garden by selecting ten high points of its history which are introduced with a consideration by the volume editor of the fresh challenges to contemporary Italian garden history

Hanover and England Marcus Köhler,Joachim Wolschke-Bulmahn,2018-07-31 When George I Elector of Hanover was crowned King of England in 1714 he established a dynastic union between the two countries that endured until 1837 leaving many cultural and political accomplishments to

posterity The 300th anniversary of this union led the Institute of Landscape Architecture Technische Universität Dresden and the Centre of Garden and Landscape Architecture CGL Leibniz Universität Hannover to take a critical look at the gardens that resulted The symposium Hanover and England a union of state and garden German and British garden culture between 1714 and today was sponsored by the Lower Saxonian Ministry of Science and Culture The resulting papers dealt with far more than garden history addressing as well the background and channels by which ideas on art agriculture commerce technology literature and politics were exchanged Given the encyclopedic interests of late 18th century thinkers it was necessary to invite several academic disciplines to participate in order to describe and discuss the cultural transfer between Great Britain and Hanover The transfer of horticultural and artistic ideas very often flourished in the 19th century at different places For this reason the conference focused on two key aspects the Hanoverian British exchange between 1714 and 1837 the period of the actual royal union and the Anglo German relations that endure to the present day Als Georg I Kurfürst von Hannover 1714 zum König von England gekrönt wurde begründete dies eine Personalunion zwischen den beiden Ländern die bis 1837 bestand und der Nachwelt eine Vielzahl kultureller und politischer Errungenschaften hinterließ Das 300 jährige Jubiläum dieses Zusammenschlusses nahmen das Institut für Landschaftsarchitektur der Technischen Universität Dresden und das Zentrum für Gartenkunst und Landschaftsarchitektur CGL der Leibniz Universität Hannover zum Anlass sich kritisch mit den in dieser Zeit entstandenen Grenzen auseinanderzusetzen Das Symposium Hanover and England a union of state and garden German and British garden culture between 1714 and today wurde vom Niedersächsischen Ministerium für Wissenschaft und Kultur gefördert Die Beiträge beschäftigten sich nicht nur mit Gartengeschichte sondern widmeten sich auch dem Austausch von Ideen zu Kunst Landwirtschaft Handel Technologie Literatur und Politik So schien es sinnvoll unterschiedliche akademische Disziplinen zur Teilnahme einzuladen um den kulturellen Transfer zwischen Großbritannien und Hannover zu untersuchen und zu diskutieren Die Konferenz konzentrierte sich auf zwei Schlüsselaspekte den hannoverisch britischen Austausch zwischen 1714 und 1837 die Zeit der Personalunion und die deutsch englischen Beziehungen die bis heute andauern **The Idea of Europe in British Travel Narratives, 1789-1914** Katarina

Gephardt, 2016-03-03 The nineteenth century was the heyday of travel with Britons continually reassessing their own culture in relation to not only the colonized but also other Europeans especially the ones that they encountered on the southern and eastern peripheries of the continent Offering illustrative case studies Katarina Gephardt shows how specific rhetorical strategies used in contemporary travel writing produced popular fictional representations of continental Europe in the works of Ann Radcliffe Lord Byron Charles Dickens and Bram Stoker She examines a wide range of autobiographical and fictional travel narratives to demonstrate that the imaginative geographies underpinning British ideas of Europe emerged from the spaces between fact and fiction Adding texture to her study are her analyses of the visual dimensions of cross cultural representation and of the role of evolving technologies in defining a shared set of rhetorical strategies Gephardt argues that

British writers envisioned their country simultaneously as distinct from the Continent and as a part of Europe anticipating the contradictory British discourse around European integration that involves both fear that the European super state will violate British sovereignty and a desire to play a more central role in the European Union *La Foce* Benedetta Origo, 2001-10-26 Situated in the Val d'Orcia a wide valley in southeastern Tuscany La Foce is run by Benedetta and Donata Origo and is open to the public one day a week

Flora's Empire Eugenia W. Herbert, 2012-01-31 Like their penchant for clubs cricket and hunting the planting of English gardens by the British in India reflected an understandable need on the part of expatriates to replicate home as much as possible in an alien environment In *Flora's Empire* Eugenia W. Herbert argues that more than simple nostalgia or homesickness lay at the root of this garden imperialism however Drawing on a wealth of period illustrations and personal accounts many of them little known she traces the significance of gardens in the long history of British relations with the subcontinent To British eyes she demonstrates India was an untamed land that needed the visible stamp of civilization that gardens in their many guises could convey Colonial gardens changed over time from the garden houses of eighteenth century nabobs modeled on English country estates to the herbaceous borders gravel walks and well trimmed lawns of Victorian civil servants As the British extended their rule they found that hill stations like Simla offered an ideal retreat from the unbearable heat of the plains and a place to coax English flowers into bloom Furthermore India was part of the global network of botanical exploration and collecting that gathered up the world's plants for transport to great imperial centers such as Kew And it is through colonial gardens that one may track the evolution of imperial ideas of governance Every Government House and Residency was carefully landscaped to reflect current ideals of an ordered society At Independence in 1947 the British left behind a lasting legacy in their gardens one still reflected in the design of parks and information technology campuses and in the horticultural practices of home gardeners who continue to send away to England for seeds

Twentieth Century, 1905 The Nineteenth century and after London **A History of Gardening in England** Alicia Amherst, 2012-11 Bei diesem Werk aus dem Jahr 1896 handelt es sich um ein Handbuch das den Leser auf eine Reise in die englischen Gärten in die Zeit vom 13 bis 19 Jahrhundert mitnimmt Es handelt sich hierbei um eine englischsprachige Ausgabe

Well Worth a Shindy Sarah Brandes Madry, 2004-03 Well Worth a Shindy tells the story of the Old Well beloved symbol of the University of North Carolina at Chapel Hill the United States first public university The Old Well is a Greco Roman garden temple built in 1897 over an old water well on the campus The facts concerning the Old Well's beginnings serve to introduce an historical study of the round temple from Mycenaean tholos tombs and treasuries to eighteenth century English garden follies The reasons that the Old Well was built according to its commissioner Edwin Alderman the sixth president of the University of North Carolina are repetitious of those that directed such as Alexander the Great Augustus Caesar and Ferdinand and Isabella of Spain to build round temples to be symbols of their territorial and dynastic desires The mythological philosophical and artistic conventions that Alderman and the designer of the Old Well Eugene Lewis Harris

used to construct the temple were not new but were ancient guides filtered through Medieval and Renaissance prisms A catalog of over 100 round structures in 14 countries is provided **The Gardener's Dictionary: Containing the Methods of Cultivating ... the ... Garden, ... Conservatory and Vineyard. Abridg'd from the Folio Edition, Etc** Philip Miller, 1740

Novel Cultivations Elizabeth Hope Chang, 2019-03-25 Shortlisted for the Best Book Prize from the British Society of Literature and Science Nineteenth century English nature was a place of experimentation exoticism and transgression as site and emblem of the global exchanges of the British Empire Popular attitudes toward the transplantation of exotic species botanical and human to Victorian greenhouses and cities found anxious expression in a number of fanciful genre texts including mysteries science fiction and horror stories Situated in a mid Victorian moment of frenetic plant collecting from the far reaches of the British empire *Novel Cultivations* recognizes plants as vital and sentient subjects that serve often more so than people as actors and narrative engines in the nineteenth century novel Conceptions of native and natural were decoupled by the revelation that nature was globally sourced a disruption displayed in the plots of gardens as in those of novels Elizabeth Chang examines here the agency asserted by plants with shrewd readings of a range of fictional works from monstrous rhododendrons in Daphne du Maurier's *Rebecca* and Mexican prickly pears in Olive Schreiner's *Story of an African Farm* to Algernon Blackwood's hair raising *The Man Whom the Trees Loved* and other obscure ecogothic tales This provocative contribution to ecocriticism shows plants as buttonholes between fiction and reality registering changes of form and content in both realms

The Brother Gardeners Andrea Wulf, 2009-03-31 A fascinating look at the men who made Britain the center of the botanical world from the author of *Magnificent Rebels* and New York Times bestseller *The Invention of Nature* Wulf's flair for storytelling is combined with scholarship brio and a charmingly airy style A delightful book and you don't need to be a gardener to enjoy it The New York Times Book Review Bringing to life the science and adventure of eighteenth century plant collecting *The Brother Gardeners* is the story of how six men created the modern garden and changed the horticultural world in the process It is a story of a garden revolution that began in America In 1733 colonial farmer John Bartram shipped two boxes of precious American plants and seeds to Peter Collinson in London Around these men formed the nucleus of a botany movement which included famous Swedish botanist Carl Linnaeus Philip Miller bestselling author of *The Gardeners Dictionary* and Joseph Banks and David Solander two botanist explorers who scoured the globe for plant life aboard Captain Cook's *Endeavor* As they cultivated exotic blooms from around the world they helped make Britain an epicenter of horticultural and botanical expertise *The Brother Gardeners* paints a vivid portrait of an emerging world of knowledge and gardening as we know it today

Edith Wharton Hermione Lee, 2008-12-24 From Hermione Lee the internationally acclaimed award winning biographer of Virginia Woolf and Willa Cather comes a superb reexamination of one of the most famous American women of letters Delving into heretofore untapped sources Lee does away with the image of the snobbish bluestocking and gives us a new Edith Wharton tough startlingly modern as brilliant and

complex as her fiction Born into a wealthy family Wharton left America as an adult and eventually chose to create a life in France Her renowned novels and stories have become classics of American literature but as Lee shows Wharton s own life filled with success and scandal was as intriguing as those of her heroines Bridging two centuries and two very different sensibilities Wharton here comes to life in the skillful hands of one of the great literary biographers of our time
