Evaluating ALL Teachers of English Learners and Students With Disabilities Diane Staehr Fenner, Peter Kozik, Ayanna Cooper, 2015-03-04

Unique Student Strengths and Needs Require Unique Teacher Evaluation Methods. Teacher evaluation should never be used in a one size fits all manner, especially when evaluating all teachers who work with English Learners (ELs) and students with disabilities. Evaluations of all teachers who work with diverse learners require unique considerations. Such considerations are precisely what you will learn in this comprehensive action oriented book. Backed by research and case studies, the authors detail Four Principles for Inclusive Teacher Evaluation of diverse learners, compatible with the Danielson and Marzano frameworks. Specialized look for evaluators can use and adapt to recognize effective teaching of diverse learners. Strategies for coaching teachers who need more support reaching diverse learners.

Kettle, 2017-06-15. Hand in hand with the continuing drive to recruit international students to Western universities goes an interest in student engagement. However, it is often unclear exactly what is meant by engagement. This book goes beyond the policy rhetoric to provide a practice based explication of international student engagement and its enabling institutional conditions. By utilising a social practice conceptual model, the book explains the multiple dimensions of engagement that are often conflated in policy: the antecedents to engagement, the actions of engaging, and the achievements and outcomes of engagement. As a result, the book is able to address issues such as how English comes to matter in international student academic practice, the teaching and assessment approaches that promote international student engagement, and the metacognitive, cognitive, and affective strategies that international students use to achieve academic and personal transformation.
