Waterford Crystal John M. Hearne, 2018-11-05 Waterford Crystal is the first ever fully illustrated history of Ireland s most iconic cut glass manufacturer its name synonymous with high end glassmaking throughout the world Former Waterford glass cutter and local historian John Hearne explores how the art of glassmaking first arrived in Waterford at the turn of the sixteenth century Hearne reveals how Waterford Crystal developed as a brand under the guidance of skilled artisans and shrewd business leaders with an eye for ingenuity Waterford developed a global reputation for quality glass and crystalware

that was rocked and buoyed by events that span centuries including the American Revolutionary war the World Fair in London World War Two and the attacks of 9 11 A testament to innovations in design and brilliant marketing strategy Waterford Crystal also examines the brand s failures dubious accountancy practices that led to a long and bitter strike in 1990 the avarice and self aggrandisement that ultimately led to the company s demise in 2009 Preserving the memory and legacy of Waterford Crystal for future generations of glassmaking Hearne pays tribute to some of the finest artisans Ireland has ever produced whose passionate devotion prefigured inspired works of art turning basic ingredients sand and ash into objects of aesthetic beauty Glass in Early America Henry Francis du Pont Winterthur Museum, Arlene M. Orser, Jr., 2018-07-05 An Archaeology of the British Atlantic World 1600 1700 is the first book to apply the methods of modern world archaeology to the study of the seventeenth century English colonial world Charles E Orser Jr explores a range of material evidence of daily life collected from archaeological excavations throughout the Atlantic region including England Ireland western Africa Native North America and the eastern United States He considers the archaeological record together with primary texts by contemporary writers Giving particular attention to housing fortifications delftware and stoneware Orser offers new interpretations for each type of artefact His study demonstrates how the archaeological record expands our understanding of the Atlantic world at a critical moment of its expansion as well as to the development of the modern Western world *Archeological Investigations at the Narbonne House* Geoffrey P. Moran, Edward F. Zimmer, Anne E. Yentsch, 1982 **The Beggar's Benison** David Stevenson, 2013-04-04 Two clubs dedicated to proclaiming the joys of libertine sex thrived in mid and late 18th century Scotland The Beggar s Benison 1732 starting from local roots in Fife became large and sprawling with branches in Edinburgh Glasgow and St Petersburg As a toast The Beggar s Benison was drunk at aristocratic dinners in London as a coded reference to sex and the Prince of Wales later George IV became a member In Edinburgh also the Wig Club 1775 gave the elite of the Scottish Tory establishment a forum in which to dine gamble and venerate a wig supposedly made of the pubic hairs of the mistresses of Charles II Both clubs flourished in a great age of raucous clubs in which bawdy often played a prominent part and both died as changes in sensibility made such behaviour seem gross and unacceptable As the Victorian age approached the clubs withered away under its disapproving glare In this book the author tells the story of these clubs analyzes the obscene relics of their rituals which survive and places the clubs in their social cultural and political contexts It is an extensively researched study but at the same time recognizes the entertainment value of the many anecdotes concerning the clubs the absurdities inherent in the

antics of club rituals and the appeal of the bawdy **The Journal of the Royal Society of Antiquaries of Ireland** Royal Society of Antiquaries of Ireland,1973 Catalogue Bernard Quaritch (Firm),1920 *Captain Jones's Wormslow* William M. Kelso,2008-08-01 During the fall of 1968 and the summer of 1969 William Kelso conducted archaeological excavations at the site of eighteenth century ruins at Wormslow near Savannah Georgia Historical records indicated that the ruins were the remains of Fort Wimberly most likely constructed by Noble Jones an original settler of Georgia Records further suggested that Fort Wimberly had been constructed on the site of Jones s earlier fortification a timber guardhouse known as Jones s Fort built in 1739 and 1740 The existence of these two structures built at different times on the same location made possible an archaeological study of two periods of Georgia coastal fortifications The earlier was built as a major link in General James Oglethorpe s chain of defenses against the Spanish threat from Florida in the 1740s and the later presumably was built to repel the French The project also presented another important opportunity the chance to define what effect the semitropical hostile border environment of colonial Georgia had on the plantation development scheme of at least one English settler Mr Kelso s report of his excavations begins with a documentary history of Wormslow followed by a presentation of the archaeological evidence that correlates it with the historical documents Ultimately he reconstructs the site based on the historical and archaeological evidence an architectural study of the ruins and information about early Georgia architecture in general and other eighteenth century buildings in particular The report concludes with a detailed study of the artifacts with illustrations descriptions and identifications of the important pieces *Baffle Marks and Pontil Scars: A Reader on Historic Bottle Identification* Peter D. Schulz,2016-03-04 *Catalog of Printed Books of the Folger Shakespeare Library*, Washington, D.C. Folger Shakespeare Library,1970
