Linguists, scholars of literature and culture, and language educators address aspects of these questions in a wide range of contributions. The book shows that the power of English can oscillate between empowerment and subjection on the one hand, enabling humans to develop manifold capabilities, and on the other, constraining their scope of action and reflection. In this edited volume, a case is made for self-critical English Studies to be dialogic, empowering, and power-critical in approach.

The Cultural Politics of English as an International Language Alastair Pennycook, 2017-03-16. A much-cited and highly influential text by Alastair Pennycook, one of the world authorities in sociolinguistics. *The Cultural Politics of English as an International Language* explores the globalization of English by examining its colonial origins, its connections to linguistics and applied linguistics, and its relationships to the global spread of teaching practices. Nine chapters cover a wide range of key topics, including international politics, colonial history, critical pedagogy, postcolonial literature. The book provides a critical understanding of the concept of the worldliness of English or the idea that English can never be removed from the social, cultural, economic, or political contexts in which it is used. Reissued with a substantial preface, this Routledge Linguistics Classic remains a landmark text which led a much-needed critical and ideologically informed investigation into the burgeoning topic of World Englishes. Key reading for all those working in the areas of Applied Linguistics, Sociolinguistics, and World Englishes.

English as a Lingua Franca in Teacher Education Telma Gimenez, Michele Salles El Kadri, Luciana Cabrini Simões Calvo, 2017-11-07. A lingua franca perspective into English language teaching in Brazil has only recently taken flight. As an emerging economy, the country faces enormous challenges when it comes to language education in schools where English has traditionally been taught as a foreign language. This collection brings the perspectives of academics and language practitioners in their efforts to incorporate an ELF approach into teacher education, thus offering a voice sorely missed in the international community interested in developing new approaches to English in a global world.

Chinese English Zhichang Xu, 2022-09-15. This book offers a distinct exploration of Chinese English, which has the largest rising population of speakers in the World Englishes (WE) family. Xu focuses on the fundamental issues of names and norms that are closely related to Chinese English and the narratives of the speakers of Chinese English. In addition to current approaches to WE research, this book proposes a novel theoretical and analytical framework based on classical Chinese and Western philosophies. The volume has an empirical basis, drawing upon interview and questionnaire survey data from proficient speakers of Chinese English. It is also based on an extensive review of the relevant literature on both WE and Chinese English, and it draws upon the author's research experience of over two

decades on the subject This is the third research book on Chinese English that the author has contributed to WE literature and it will be a valuable read for students and scholars alike The Societal Codification of Korean English Alex Baratta, 2021-11-04 From K pop to kimchi Korean culture is becoming increasingly popular on the world stage This cultural internationalisation is also mirrored linguistically in the emergence and development of Korean English Often referred to as Konglish this book describes how the two terms in fact refer to different things and explains how Koreans have made the English language their own Arguing that languages are no longer codified and legitimised by dictionaries and textbooks but by everyday usage and media Alex Baratta explores how to reconceptualise the idea of codification Providing illustrative examples of how Koreans have taken commonly used English expressions and adjusted them such as doing Dutch pay wearing a Burberry and using hand phones this book explores the implications and opportunities social codification presents to EFL students and teachers In so doing The Societal Codification of Korean English offers wider perspectives on English change across the world seeking to dispel the myth that English only belongs to native speakers English as a Lingua Franca in ASEAN Andy Kirkpatrick, 2010-09-01 The lingua franca role of English coupled with its status as the official language of ASEAN has important implications for language policy and language education These include the relationship between English the respective national languages of ASEAN and thousands of local languages How can the demand for English be balanced against the need for people to acquire their national language and mother tongue While many will also need a regional lingua franca they are learning English as the first foreign language from primary school in all ASEAN countries Might not this early introduction of English threaten local languages and children s ability to learn Or can English be introduced and taught in such a way that it can complement local languages rather than replace them The aim of this book is to explore questions such as these and then make recommendations on language policy and language education for regional policymakers The book will be important for regional policymakers and language education professionals It should also benefit language teachers especially but by no means exclusively English language teachers The book will be of interest to all who are interested in the development of English as an international language and the possible implications of this upon local languages and cultures Andy Kirkpatrick is chair professor of English as an international language at the Hong Kong Institute of Education and director of the Institute s Research Centre into Language Education and Acquisition in Multilingual Societies His research interests include the development of regional varieties of English and the history of Chinese rhetoric Much research has been carried out on varieties of English used in Southeast Asia but how intelligible these varieties are to others and whether a shift towards an international standard variety occurs in interactions between people from the region has been much less discussed This volume which provides a comprehensive account of the roles and functions of English in ASEAN and gives a linguistic description of the English spoken in the region followed by an approach to teaching English called the multilingual model is therefore a welcome contribution to studies on English in Asia Azirah
