Engraven Desire Philip Stewart, William M. Barron, 1992 **Imagining Sex** Sarah Toulalan, 2007-09-06 Imagining Sex examines a variety of material from 17th century England to argue that unlike today pornography was not a discrete genre nor was it usually subject to suppression The book explores contemporary thinking on these issues and wider cultural concerns **Graphic Design, Print Culture, and the Eighteenth-Century Novel** Janine Barchas, 2003-06-05 The uniformity of the eighteenth century novel in today's paperbacks and critical editions no longer conveys the early novel's visual exuberance Janine Barchas explains how during the genre's formation in the first half of the eighteenth century the novel's material embodiment as printed book rivalled its narrative content in diversity and creativity Innovations in layout ornamentation and even punctuation found in for example the novels of Richardson an author who printed his own books help shape a tradition of early visual ingenuity From the beginning of the novel's emergence in Britain prose writers including Daniel Defoe Jonathan Swift and Henry and Sarah Fielding experimented with the novel's appearance Lavishly illustrated with more than 100 graphic features found in eighteenth century editions this important study aims to recover the visual context in which the eighteenth century novel was produced and read [The Illustrated Shakespeare, 1709-1875](#) Stuart Sillars, Iakovos Vasiliou, 2008-12-18 A complete study of the history and tradition of illustrated editions of Shakespeare containing 167 illustrative images from major editions **Antiquity in Print** Daniel Orrells, 2024-05-16 Daniel Orrells examines the ways in which the ancient world was visualized for Enlightenment readers and reveals how antiquarian scholarship emerged as the principal technology for envisioning ancient Greek culture at a time when very few people could travel to Greece which was still part of the Ottoman Empire Offering a fresh account of the rise of antiquarianism in the 18th century Orrells shows how this period of cultural progression was important for the invention of classical studies In particular the main focus of this book is on the visionary experimentalism of antiquarian book production especially in relation to the contentious nature of ancient texts With the explosion of the Quarrel between the Ancients and the Moderns eighteenth century intellectuals antiquarians and artists such as Giambattista Vico Johann Joachim Winckelmann the Comte de Caylus James Stuart Julien David Leroy Giovanni Battista Piranesi and Pierre François Hugues d'Hancarville all became interested in how printed engravings of ancient art and archaeology could visualize a historical narrative These figures theorized the relationship between ancient text and ancient material and visual culture theorizations which would pave the way to foundational questions at the heart of the discipline of classical studies and neoclassical aesthetics [Rousseau's Hand](#) Angelica Goodden, 2013-10 Rousseau's Hand explores Rousseau's involvement in and promotion of craft in the context of the technological developments of the Enlightenment and his own European celebrity as a writer **Reading Iconotexts** Peter Wagner, 1995 Traditionally texts and images have been discussed together on the assumption that they are sister arts but in Reading Iconotexts Peter Wagner pushes beyond the word image opposition in a radical attempt to break down the

barriers between literature and art He sets out here the new approach he has identified for dealing with the iconotext a genre in which neither image nor text is free from the other Examples include Swift s Gulliver s Travels a number of William Hogarth s best known engravings and a sample of the so called obscene propaganda prints that were published during the French Revolution Throughout the author argues for the importance of seeing text and image as mutually interdependent in the ways they establish meaning It becomes clear in the course of Wagner s exposition that one cannot study prints without taking into account their accompanying inscriptions whilst illustrated books contain two kinds of text one verbal one visual that are invariably at odds with one another Drawing on theories of intertextuality and semiotics as developed by Barthes and Kristeva as well as post structuralist studies by Derrida Foucault and others Reading Iconotexts treats pictures as encoded visual discourse and illustrations in books as counter discourse The author s persuasively argued polemic in favour of recognising the iconotext as a viable advance in methodology is an important contribution to current debates on word and image

Visualizing the Nation Joan B. Landes, 2018-08-06 Popular images of women were everywhere in revolutionary France Although women s political participation was curtailed female allegories of liberty justice and the republic played a crucial role in the passage from old regime to modern society In her lavishly illustrated and gracefully written book Joan B Landes explores this paradox within the workings of revolutionary visual culture and traces the interaction between pictorial and textual political arguments Landes highlights the widespread circulation of images of the female body notwithstanding the political leadership s suspicions of the dangers of feminine influence and the seductions of visual imagery The use of caricatures and allegories contributed to the destruction of the masculinized images of hierarchic absolutism and to forging new roles for men and women in both the intimate and public arenas Landes tells the fascinating story of how the depiction of the nation as a desirable female body worked to eroticize patriotism and to bind male subjects to the nation state Despite their political subordination women too were invited to identify with the project of nationalism Recent views of the French Revolution have emphasized linguistic concerns in contrast Landes stresses the role of visual cognition in fashioning ideas of nationalism and citizenship Her book demonstrates as well that the image is often a site of contestation as individual viewers may respond to it in unexpected even subversive ways

Moved by Love Mary D. Sheriff, 2008-10-30 In eighteenth century France the ability to lose oneself in a character or scene marked both great artists and ideal spectators Yet it was thought this same passionate enthusiasm if taken to unreasonable extremes could also lead to sexual deviance mental illness even death Women and artists were seen as especially susceptible to these negative consequences of creative enthusiasm and women artists doubly so Mary D Sheriff uses these very different visions of enthusiasm to explore the complex interrelationships among creativity sexuality the body and the mind in eighteenth century France Drawing on evidence from the visual arts literature philosophy and medicine she portrays the deviance ascribed to both inspired men and women But while various mythologies worked to normalize deviance in male artists women had no justification for their deviance For

instance the mythical sculptor Pygmalion was cured of an abnormal love for his statue through the making of art He became a model for creative artists living happily with his statue come to life No happy endings though were imagined for such inspired women writers as Sappho and Heloise who burned with erotomania their art could not quench Even so Sheriff demonstrates the perceived connections among sexuality creativity and disease also opened artistic opportunities for creative women took full advantage of them Brilliantly reassessing the links between sexuality and creativity artistic genius and madness passion and reason Moved by Love will profoundly reshape our view of eighteenth century French culture *The Portrait and the Book* Megan Walsh,2017-05-15 Benjamin Franklin s portraits and colonial printing Phillis Wheatley and the durability of the author portrait Nationalist portraiture magazines and political books Picturing the seduction heroine in the U S Gothic portraiture in Charles Brockden Brown s Wieland and Ormond *French and German Gothic Fiction in the Late Eighteenth Century* Daniel Hall,2005 European Connections Studies in Comparative Literature Intermediality and Aesthetics is a peer reviewed series that focuses on the literary and artistic relations that shape European cultures It also wishes to explore relations with non European cultures with a view to fostering more equitable models of cultural exchange and transfer

Sensibility, Reading and Illustration Ann Lewis,2017-12-02 Eighteenth century sensibility has always been controversial In fact the term itself refers to complex forms of physical and emotional responsiveness and Lewis s study investigates the fictional exploration of various key problems of sentimental response that were at the heart of eighteenth century moral epistemological and aesthetic debates These are analysed in conjunction with some of the actual often emotional responses that the term its fictions and images have provoked through time including an indispensable survey of the varying construction of sensibility as an object of study and the polemics subtending its definition The verbal evocation of the visual in the form of spectacles and signs was understood in the eighteenth century as having an especially powerful impact Lewis provides a new reading of the theme of sensibility by analysing the textual images in three best selling novels from the mid century Graffigny s *Lettres d une Peruvienne* Marivaux s *La Vie de Marianne* and Rousseau s *Julie* The examination of a largely neglected corpus of illustrations understood as readings of each text provides striking new evidence of the complexity thematic richness and duplicity of these spectacles whose power to provoke different reactions is perhaps their most interesting characteristic

Books and the Sciences in History Marina Frasca-Spada,Nicholas Jardine,2000-11-02 This book published in 2000 examines the intersection between science and books from early medieval times to the nineteenth century *Husbands, Wives, and Lovers* Patricia Mainardi,2003-01-01 In this interdisciplinary exploration of the cultural and social history of early 19th century France Patricia Mainardi focuses on what was considered a major social problem of the time adultery In a period when expectations about marriage were changing the problems of husbands wives and lovers became a major theme in theatre literature and the visual arts The author demonstrates that this intense interest was historically grounded in the post revolutionary collision between the new concept of the individual s

right to happiness and the traditional prerogatives of family and state duty or happiness more important Are arranged marriages doomed to be empty of love and poisoned by adultery Should adulterous wives and their lovers be punished while husbands may commit adultery with impunity Out of such legal social and cultural debates ultimately emerged modern bourgeois family values Mainardi argues And she illuminates how art in all its varieties both influences and is influenced by social change

The Drowned Muse Anne-Gaëlle Saliot, 2015-09-10 The Drowned Muse is a study of the extraordinary destiny in the history of European culture of an object which could seem at first glance quite ordinary in the history of European culture It tells the story of a mask the cast of a young girl's face entitled L Inconnue de la Seine the Unknown Woman of the Seine and its subsequent metamorphoses as a cultural figure Legend has it that the Inconnue drowned herself in Paris at the end of the nineteenth century The forensic scientist tending to her unidentified corpse at the Paris Morgue was supposedly so struck by her allure that he captured in plaster the contours of her face This unknown girl also referred to as The Mona Lisa of Suicide has since become the object of an obsessive interest that started in the late 1890s reached its peak in the 1930s and continues to reverberate today Aby Warburg defines art history as a ghost story for grown ups This study is similarly a ghost story for grown ups narrating the aura of a cultural object that crosses temporal geographical and linguistic frontiers It views the Inconnue as a symptomatic expression of a modern world haunted by the earlier modernity of the nineteenth century It investigates how the mask's metamorphoses reflect major shifts in the cultural history of the last two centuries approaching the Inconnue as an entry point to understand a phenomenon characteristic of 20th and 21st century modernity the translatability of media Doing so this study mobilizes discourses surrounding the Inconnue casting them as points of negotiation through which we may consider the modern age

Painting the Novel Jakub Lipski, 2017-12-22 Painting the Novel Pictorial Discourse in Eighteenth Century English Fiction focuses on the interrelationship between eighteenth century theories of the novel and the art of painting a subject which has not yet been undertaken in a book length study This volume argues that throughout the century novelists from Daniel Defoe to Ann Radcliffe referred to the visual arts recalling specific names or artworks but also artistic styles and conventions in an attempt to define the generic constitution of their fictions In this the novelists took part in the discussion of the sister arts not only by pointing to the affinities between them but also more importantly by recognising their potential to inform one another in other words they expressed a conviction that the theory of a new genre can be successfully rendered through meta pictorial analogies By tracing the uses of painting in eighteenth century novelistic discourse this book sheds new light on the history of the so called rise of the novel The Open Access version of this book available at <https://www.taylorfrancis.com/books/painting-novel-jakub-lipski> 10.4324/9781351137812 has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Book Illustration in the Long Eighteenth Century Christina Ionescu, Renata Schellenberg, 2015-01-12 Hitherto relegated to the closets of art history and literary studies book illustration has entered

mainstream scholarship The chapters of this collection offer only a glimpse of where a complete reconfiguration of the visual periphery of eighteenth century texts might ultimately take us The use of the gerund of the verb to reconfigure in the subtitle of this collection instead of the corresponding noun underlines the work in progress character of this interdisciplinary endeavour which aims above all to discern new vistas while charting or revisiting landmarks in the rich field of eighteenth century book illustration The specific interpretive lenses through which contributors to this collection re evaluate the visual periphery of the text cover an array of disciplines and areas of interest among these the most prominent are book history and print culture art history and image theory material and visual culture word and image interaction feminist theory and gender studies history of medicine and technology This spectrum could have been even less restrictive and more colourful if it were not for pragmatic and editorial considerations Nonetheless its plurality of vision provides a framework for an inclusive and multifaceted approach to eighteenth century book illustration Perhaps these essays are most valuable in the practical models they provide on how to tackle the interdisciplinary challenge that is the study of the eighteenth century illustrated book The collection as such is the first formal step in an effort to rethink or reconfigure the visual periphery of eighteenth century texts It has become clear that the study of the illustrated book of the Age of Enlightenment has the potential of yielding multiple findings perspectives and discourses about a society immersed in visual culture skilled in visual communication and reflected in the visual legacy it left behind
