The Statutes at Large, of England and of Great Britain Great Britain, 1811 **Construction Review**, 1976 Issues for 1955 accompanied by supplement Construction volume and costs 1915 1954 **The Statutes at Large of England and of Great Britain**, 1811 *Census of England and Wales. 1911 ...* Great Britain. Census Office, 1913 Area families or separate occupiers and population **Vernacular Buildings** Allen Noble, 2013-11-27 Constancy permits the evolution of types and characteristics to be identified even in widely spread locations It helps trace the origins of structures despite later modifications And change allows one to trace the effects of difference in environment fashion cultural ideas and economic influences Change and constancy operate together although one may or other may dominate at a particular time and place In Vernacular Buildings Allen Noble extends the global survey contained in his earlier highly successful Traditional Buildings to cover vernacular buildings and dwellings around the world In a truly comprehensive account he ranges from the fazenda of the pioneer Brazilian settlers the Masai dwellings of Tanzania and the gothic houses of Shanghai to Virginia Hall and Parlor houses the thatched dwellings of the Eifel region of Germany and the three decker houses of New York Acknowledging the value of archival research the author is also firmly convinced of the importance of field observation and the book is extensively illustrated with photographs from his own personal collection With a comprehensive bibliography and incorporating new material from cultural geographers historians folklorists and anthropologists Vernacular Buildings is a unique survey that will be welcomed by specialists and enthusiasts alike **The British Clay Worker**, 1904 **Letters and papers, foreign and domestic, of the reign of Henry VIII** John Sherren Brewer, 1898 **The British Clayworker**, 1899 Folk Housing in Middle Virginia Henry Glassie, 1975 In this fascinating analysis of eighteenth century vernacular houses of Middle Virginia Henry Glassie presents a revolutionary and carefully constructed methodology for looking at houses and interpreting from them the people who built and used them Glassie believes that all relevant historical evidence unwritten as well as written must be taken into account before historical truth can be found He is convinced that any study of man's past must make use of nonverbal and verbal evidence since written history the story of man as recorded by the intellectual elite does not tell us much about the everyday life thoughts and fears of the ordinary people of the past Such people have always been in the majority however and a way has to be found to include them in any valid history In Folk Housing in Middle Virginia Glassie admirably sets forth such a way The people who lived in Middle Virginia in the eighteenth century are almost unknown to history because so little has been written about them After Glassie selected the area roughly Goochland and Louisa counties for study he selected a representative part of the countryside recorded all the older houses there developed a transformational grammar of traditional house designs and examined the area's architectural stability and change Comparing the houses with written accounts of the period he found that the houses became more formal and less related to their environment at the same time as the areas established political economic and religious institutions were

disintegrating It is as though the builders of the houses were deliberately trying to impose order on the surrounding chaotic world Previous orthodox historical interpretations of the period have failed to note this Glassie has provided new insights into the intellectual and social currents of the period and at that time has rescued a heretofore little known people from historiographical oblivion Combining a fresh perceptive approach with a broad interdisciplinary body of knowledge ha has made an invaluable breakthrough in showing the way to understand the people of history who have left their material things as their only legacy Henry Glassie is College Professor of Folklore at Indiana University He is the author of Pattern in the Material Folk Culture of the Eastern United States passing the Time in Ballymenone Irish Folktales and The Spirit of Folk Art He has served as president of the Vernacular Architecture Forum and the American Folklore Society *The Century Dictionary: The Century dictionary* William Dwight Whitney, Benjamin Eli Smith, 1895 **The Statutes of the United Kingdom of Great Britain and Ireland** Great Britain, 1812 **Brick** , 1898 **Building Age** , 1928 *Memoirs of the Geological Survey of Great Britain, and of the Museum of Practical Geology in London* Geological Survey of Great Britain, 1858 **The Civil Engineer's Pocket-book** John Cresson Trautwine, 1907 **Official descriptive and illustrated Catalogue of the great Exhibition of the Works of Industry of all Nations** , 1851 Britain Andrew Whittaker, 2009 British culture is strewn with names that strike a chord the world over such as Shakespeare Churchill Dickens Pinter Lennon and McCartney This book examines the people history and movements that have shaped Britain as it now is providing key information in easily digested chunks The Brickbuilder , 1893 An architectural monthly Building , 1911 **Official Descriptive and Illustrated Catalogue: Index and introductory.
