English Radicalism:

English Radicalism, 1550-1850 Glenn Burgess, Matthew Festenstein, 2007-02 An exploration of the place of radical ideas and activity in English political and social history over three centuries Its core concern is whether a long term history of radicalism can be written Are the things that historians label radical linked into a single complex radical tradition or are they separate phenomena linked only by the minds and language of historians Does the historiography of radicalism uncover a repressed dimension of English history or is it a construct that serves the needs of the present more than the understanding of the past The book contains a variety of answers to these questions As well as an introduction and eleven substantive chapters it also includes two afterwords which reflect on the implications of the book as a whole for the study of radicalism The distinguished list of contributors is drawn from a variety of disciplines including history political science and literary studies

British and colonial territory The French Revolution and British Popular Politics makes an unusually integrated and coherent collection of essays substantially advancing knowledge in this controversial area and bringing together important work by senior figures in the field Radicalism and Reform in Britain, 1780-1850 J. R. Dinwiddy, 1992-07-01 This book brings together the articles of J R Dinwiddy to show both the coherence and importance of his contribution to British history in this period His work covers the spectrum of political activity and thought from the Whigs to the Luddites and from Burke via Bentham to Marx After Chartism Margot C. Finn, 1993 Working and middle class radical politics in England from the fall of Chartism in 1848 to the 1870s **Visionary Religion and Radicalism in Early Industrial England** Philip Lockley, 2013 Early industrial England witnessed significant interactions between millenarianism and traditions of radical popular politics including the first English socialisms This book provides a detailed archive based study of Southcottianism from 1815 to 1840 that revises many previous assumptions about this popular millenarian movement **Radicalism and Dissent in the World of Protestant Reform** VolkswagenStiftung,, German Historical Institute, Library, Bridget Heal, Anorthe Wetzels, 2017-04-03 This volume of essays explores the themes of radicalism and dissent within Protestantism The comparisons highlight the contingent nature of particular settlements and narratives and reveal the extent to which the definition of religious radicalism was dependent upon immediate context and show that radicalism and dissent were truly transnational phenomena The historiography of the so called radical reformation has been unduly shaped by the hostile categories imposed by mainstream or magisterial reformers during the sixteenth and seventeenth centuries This volume argues that scholars should adopt an open ended understanding of evangelical reform and recognize that the boundaries between radicalism and its opposite were not always firmly drawn The distinction between the two is an inheritance of the Lutheran Reformation of the 1520s which shaped not only the later course of the Reformation in the Holy Roman Empire but also attitudes towards and writings on religious dissent in the Netherlands and England Radical critique is immanent within mainstream Protestantism in a faith that emphasizes the power of the gospel with its unrelenting demands *The Radical and Socialist Tradition in British Planning* Duncan Bowie, 2018-03-12 Focusing on the key period between the late 18th century and 1914 this book provides the first comprehensive narrative account of radical and socialist texts and organised movements for reform to land planning and housing policies in Britain Beginning with the early colonial settlements in the puritan and enlightenment eras it also covers Benthamite utilitarian planning Owenite and utopian communitarianism the Chartists late Chartists and the First International Christian socialists and positivists working class and radical land reform campaigns in the late 19th century Garden City pioneers and the institutionalisation of the planning profession The book in effect presents a prehistory of land planning and housing reform in the UK in contrast with most historiography which focuses on the immediate pre World War I period Providing an analysis of different intellectual traditions and contrasting middle class led reform initiatives with those based on working class organisations the book seeks to relate historical debates

to contemporary themes including utopianism and pragmatism the role of the state the balance between local initiatives and centrally driven reforms and the interdependence of land housing and planning **English Radicalism: 1886-1914** Simon Maccoby, 1953
