### **SYSTEMATIC INSTRUCTION IN READING FOR SPANISH-SPEAKING STUDENTS** Elva Duran, 2013-04-01

Students whose first language is not English are the fastest growing group in public schools in all regions of the United States. Almost 10 million children between the ages of five and 17 live in the homes and communities in which a language other than English is spoken and presently most schools in the U S are under educating many English learners. The achievement of Hispanic students needs to improve dramatically over the next five years and this book describes the cornerstone elements for bringing about this change. The initial chapter introduces direct instruction to be used with reading and literacy programs. Chapters 2 and 3 provide excellent review of the literature in language development and address developing language instruction listening and speaking with Spanish speaking students and offers what a comprehensive language development program should look like. Chapter 4 reviews academic language and literacy instruction while the next addresses the components of instruction in Spanish. Chapter 6 offers lesson plan suggestions for Spanish speaking students while the following two sections discuss components that transfer and do not transfer in Spanish to English reading instruction. Chapter 9 reviews English language development and provides lesson plans for implementing SDAIE programs. Finally Chapter 10 discusses two way bilingual immersion and shares actual classroom schedules and lessons. This unique text will help in the preparation of primary grade teachers throughout the U S so that they may be successful with Hispanic students entering the public schools with little or no English background. It will also be a useful tool for school districts staff development in addressing school improvement goals for increasing the achievement of Hispanic students.

Navarijo, 2019-09-09 Learning to Read in English and Spanish Made Easy A Guide for Teachers Tutors and Parents By Susie G Navarijo Reading is fundamental to every child's growth. It expands their creative experiences and allows them to venture into the unknown. It also expands their vocabulary and develops concepts that are going to help children with communication skills and prepare them for academic success. Reading is the critical foundation for learning. All children should have the opportunity to learn and have the right to excel to the best of their ability especially in reading. Children come to school with different needs and because of this it is a challenge to get through to all of the children. If the expectations are high for everyone then everyone will have a better chance of reading to their potential. A teacher has to be open to and on the lookout for many ways to teach the same objective because children come to school from different backgrounds experiences and abilities. The more the teacher knows of a child's background and language experiences the more insight there is into his/her learning process. In Learning to Read in English and Spanish Made Easy A Guide for Teachers Tutors and Parents Susie G Navarijo shares the unique methods she developed over three decades of teaching reading in the first grade. She also shares experiences she has had in trying to help children with special needs and backgrounds. Her insight and experiences are sure to be of help to anyone who wishes to help children.
