Tupas,2015-05-26 This book proposes examines and unpacks the notion of unequal Englishes as a way to understand English today Unlike many studies on the pluralization of English the volume assumes that inequalities and Englishes are inextricably linked and must be understood and theorized together English a Changing Medium for Education Constant Leung,Brian V. Street,2012-07-25 In this volume a range of authors from different international contexts argue that the notion of communicative competence in

English hitherto largely referenced to metropolitan native speaker norms has to be expanded to take account of diverse contexts of use for a variety of purposes It also discusses the popular belief that language and literacy should simply be regarded as a technical skill which confers universal benefits and that it should be replaced with a social practice view that recognises situated variations and diversity This volume we believe provides a reference point for extended research and practice in these areas that will be of interest to wide range of people engaged in language and literacy education
