sample of current 71F research and activities It seemed to us especially important to do this at a time when the operational demands on the Army and the total force were reaching unprecedented levels with no sign of easing and with the Army in turn relying more heavily on research psychology to inform its programs for protecting the health well being and performance of Soldiers and their families

Unfreedom for All Thomas J. Donahue-Ochoa,2019-08-19 It is often said that we live under systems of injustice But if so who ought to combat them and why Many in the world s liberal elite hold that only the perpetrators or the victims have such duties because of their special connections to the injustice Others hold that all of the privileged have them because they have duties to relieve suffering or to redress their complicity in the injustice This book challenges those answers It argues that everyone living under such injustices ought to combat them victim perpetrator and bystander alike Moreover they all have the same reason for doing so such injustices suppress everyone s resistance to their workings But there is a name for such suppression authoritarianism Hence such injustices make everyone unfree because they subject everyone to authoritarian tactics The book thus reinterprets and defends a core doctrine of the global left No one is free while others are oppressed For it shows how oppression subjects everyone including you to arbitrary power The book argues that systematic injustice occurs when one group finds that its political voice is unjustly marginalized its members exploited and subject to systematic violence and that society s dominant norms unjustly favor a privileged group It diagnoses three global injustices of this kind gender race and poverty It then shows how such injustices always suppress everyone s resistance to them making everyone unfree But if so it argues then this shared unfreedom should be the ground on which victims bystanders and perpetrators unite in solidarity against injustice
