Department of Commerce and Labor, Arthur B. Butman, 1913 **Precautionary Principle** Indur M. Goklany, 2001-10-25 The precautionary principle the environmental version of the admonition first do no harm is now enshrined in numerous international environmental agreements including treaties addressing global warming biological diversity and various pollutants Some environmentalists have invoked this principle to justify policies to control if not ban any technology that cannot be proven to cause no harm In this innovative book Goklany shows that the current use of the precautionary principle to justify such

policies is flawed and could be counterproductive because it ignores the possible calamities those very policies might simultaneously create or prolong The precautionary principle unfortunately does not provide any method of resolving such dilemmas which are commonplace in the field of environmental policy To address that problem Goklany develops a framework consistent with the precautionary principle to resolve such dilemmas That framework ranks potential threats to the environment on the basis of their nature magnitude immediacy uncertainty persistence and the extent to which they can be alleviated Applying that framework to three contentious environmental policy issues facing humanity and the globe DDT bioengineered crops and global warming Goklany shows that some popular policy prescriptions despite good intentions are in fact likely to do more harm than good **Frommer's?
