From Sundown To Sunup The Making Of The Black Community:

From Sundown to Sunup George P. Rawick,1972 *From Sundown to Sunup* George P. Rawick,1972 **Unfree Labor** Peter Kolchin,1990-03-01 The American enslavement of blacks and the Russian subjection of serfs flourished in different ways and varying degrees until legally abolished in the mid 19th century Kolchin compares and contrasts the two systems over time highlighting their basic similarities while identifying key differences discernible only in comparative perspective *Unthinking Eurocentrism* Ella Shohat,Robert Stam,2014-06-05 *Unthinking Eurocentrism* a seminal and award winning work in postcolonial studies first published in 1994 explored Eurocentrism as an interlocking network of buried premises embedded narratives and submerged tropes that constituted a broadly shared epistemology Within a transdisciplinary study the authors argued that the debates about Eurocentrism and post coloniality must be considered within a broad historical sweep that goes at least as far back as the various 1492s the Inquisition the Expulsion of Jews and Muslims the Conquest of the Americas and the Transatlantic slave trade a process which culminates in the post War attempts to radically decolonize global culture Ranging over multiple geographies the book deprovincialized media cultural studies through a polycentric approach while analysing in depth such issues as postcolonial hybridity antinomies of Enlightenment the tropes of empire gender and rescue fantasies the racial politics of casting and the limitations of positive image analysis The substantial new afterword in this 20th anniversary new edition brings these issues into the present by charting recent transformations of the intellectual debates as terms such as the transnational the commons indigeneity and the Red Atlantic have come to the fore The afterword also explores some cinematic trends such as indigenous media and postcolonial adaptations that have gained strength over the past two decades along with others such as Nollywood that have emerged with startling force Winner of the Katherine Kovacs Singer Best Film Book Award the book has been translated in full or in its entirety into diverse languages from Spanish to Farsi This expanded edition of a ground breaking text proposes analytical grids relevant to a wide variety of fields including postcolonial studies literary studies anthropology media studies cultural studies and critical race studies **The Art of Democracy** Jim Cullen,2002-07 The highly acclaimed first edition of *The Art of Democracy* won the 1996 Ray and Pat Brown Award for Best Book presented by the Popular Culture Association

Encyclopedia of African American History, 1896 to the Present: O-T Paul Finkelman,2009 Alphabetically arranged entries from O to T that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century *Contesting Slave Masculinity in the American South* David Stefan Doddington,2018-07-12 *Contesting Slave Masculinity in the American South* demonstrates the significance of internal divisions comparison and conflict in shaping gender and status in slave communities of the American South David Stefan Doddington seeks to move beyond unilateral discussions of slave masculinity and instead demonstrates how the repressions of slavery were both personal and political Rather than automatically support one another against an emasculatory white

society Doddington explores how enslaved people negotiated identities in relation to one another through comparisons between men and different forms of manhood held up for judgment An examination of the framework in which enslaved people crafted identities demonstrates the fluidity of gender as a social and cultural phenomenon that defied monolithic models of black masculinity solidarity and victimization Focusing on work authority honor sex leisure and violence this book is a full length treatment of the idea of masculinity among slave communities of the Old South **Long Is the Way and Hard** Kevern Verney, Lee Sartain, Adam Fairclough, 2009-11-01 Celebrating its one hundredth anniversary in February 2009 the National Association for the Advancement of Colored People NAACP has been the leading and best known African American civil rights organization in the United States It has played a major and at times decisive role in most of the important developments in the twentieth century civil rights struggle Drawing on original and previously unpublished scholarship from leading researchers in the United States Britain and Europe this important collection of sixteen original essays offers new and invaluable insights into the work and achievements of the association The first part of the book offers challenging reappraisals of two of the NAACP's best known national spokespersons Walter White and Roy Wilkins Other essays analyze the association's cultural initiatives and the key role played by its public relations campaigns in the mid 1950s to counter segregationist propaganda and win over the hearts and minds of American public opinion in the wake of the NAACP's landmark legal victory in *Brown v Board of Education* Others provide thought provoking accounts of the association's complex and difficult relationship with Martin Luther King the post World War II Civil Rights movement and Black Power radicals of the 1960s The second part of the collection focuses on the work of the NAACP at state city and local levels examining its grassroots organization throughout the nation from Chicago Cleveland and Detroit in the North to California in the West as well as states across the South including Virginia Arkansas Alabama Louisiana and Texas Providing detailed and fascinating information on hitherto little explored aspects of the association's work these studies complement the previous essays by demonstrating the impact national initiatives had on local activists and analyzing the often strained relations between the NAACP national office in New York and its regional branches *Represented* Brenna Wynn Greer, 2019-06-14 In 1948 Moss Kendrix a former New Deal public relations officer founded a highly successful Washington D C based public relations firm the flagship client of which was the Coca Cola Company As the first black pitchman for Coca Cola Kendrix found his way into the rarefied world of white corporate America His personal phone book also included the names of countless black celebrities such as bandleader Duke Ellington singer actress Pearl Bailey and boxer Joe Louis with whom he had built relationships in the course of developing marketing campaigns for his numerous federal and corporate clients Kendrix along with Ebony publisher John H Johnson and Life photographer Gordon Parks recognized that in the image saturated world of postwar America media in all its forms held greater significance for defining American citizenship than ever before For these imagemakers the visual representation of African Americans as good citizens was good business In

Represented Brenna Wynn Greer explores how black entrepreneurs produced magazines photographs and advertising that forged a close association between blackness and Americanness In particular they popularized conceptions of African Americans as enthusiastic consumers a status essential to postwar citizenship claims But their media creations were complicated subject to marketplace dictates they often relied on gender class and family stereotypes Demand for such representations came not only from corporate and government clients to fuel mass consumerism and attract support for national efforts such as the fight against fascism but also from African Americans who sought depictions of blackness to counter racist ideas that undermined their rights and their national belonging as citizens The story of how black capitalists made the market work for racial progress on their way to making money reminds us that the path to civil rights involved commercial endeavors as well as social and political activism

Remembering Slavery Marc Favreau,2021-09-07 The groundbreaking bestselling history of slavery with a new foreword by Pulitzer Prize winning historian Annette Gordon Reed With the publication of the 1619 Project and the national reckoning over racial inequality the story of slavery has gripped America's imagination and conscience once again No group of people better understood the power of slavery's legacies than the last generation of American people who had lived as slaves Little known before the first publication of *Remembering Slavery* over two decades ago their memories were recorded on paper and in some cases on primitive recording devices by WPA workers in the 1930s A major publishing event *Remembering Slavery* captured these extraordinary voices in a single volume for the first time presenting them as an unprecedented first person history of slavery in America *Remembering Slavery* received the kind of commercial attention seldom accorded projects of this nature nationwide reviews as well as extensive coverage on prime time television including Good Morning America Nightline CBS Sunday Morning and CNN Reviewers called the book chilling and riveting Publishers Weekly and something truly truly new The Village Voice With a new foreword by Pulitzer Prize winning scholar Annette Gordon Reed this new edition of *Remembering Slavery* is an essential text for anyone seeking to understand one of the most basic and essential chapters in our collective history

Antebellum Slave Narratives Jermaine O. Archer,2009-01-13 Though America experienced an increase in a native born population and an emerging African American identity throughout the nineteenth century African culture did not necessarily dissipate with each passing decade Archer examines the slave narratives of four key members of the abolitionist movement Frederick Douglass William Wells Brown Harriet Tubman and Harriet Jacobs revealing how these highly visible proponents of the antislavery cause were able to creatively engage and at times overcome the cultural biases of their listening and reading audiences When engaged in public sphere discourses these individuals were not as some scholars have suggested inclined to accept unconditionally stereotypical constructions of their own identities Rather they were quite skillful in negotiating between their affinity with antislavery Christianity and their own intimate involvement with slave circle dance and improvisational song burial rites conjuration divination folk medicinal practices African dialects and African inspired festivals

The authors emerge as more complex figures than scholars have imagined Their political views though sometimes moderate often reflected a strong desire to strike a fierce blow at the core of the slavocracy

Atlantic and internal slave trades the relationships between Indians and enslaved people and enslavement in Latin America Inventive and stimulating the essays model the blending of methods and styles that characterizes the new cultural history of slavery's social political and economic systems Several common themes emerge from the volume among them the correlation between race and identity the meanings contained in family and community relationships gender and life's commonplaces and the literary and legal representations that legitimated and codified enslavement and difference Such themes signal methodological and pedagogical shifts in the field away from master slave or white black race relations models toward perspectives that give us deeper access to the mental universe of slavery Topics of the essays range widely including European ideas about the reproductive capacities of African women and the process of making race in the Atlantic world the contradictions of the assimilation of enslaved African American runaways into Creek communities the consequences and meanings of death to Jamaican slaves and slave owners and the tensions between midwifery as a black cultural and spiritual institution and slave midwives as health workers in a plantation economy Opening our eyes to the personal the contentious and even the intimate these essays call for a history in which both enslaved and enslavers acted in a vast human drama of bondage and freedom salvation and damnation wealth and exploitation

Child Care Justice Maurice Sykes, Kyra Ostendorf, 2022 Join the authors of this book in starting a movement of hope and possibility for an antiracist child care and early childhood education system This volume disrupts mental models regarding where the work of early care and education began with enslaved African women and how the stigma of that beginning relegates present day child care workers to a low status low wage field of practice Expert authors contribute their wisdom experience research and practical knowledge on issues related to equity and social justice They examine the oppressive historical political economic educational and cultural systems that continue to oppress early care educators and by extension racialized children and children in poverty The interrogation and litigation of past and current issues and grievances of injustice and inequities in the field are addressed while threading the needle of social justice and critical consciousness throughout the chapters *Child Care Justice* calls on educators activists and their allies to rethink reimagine and reconstruct a more equitable and just system for all who receive and provide care to our nation's youngest of children When historically marginalized child care workers are held in high esteem then and only then will America live up to its promise of liberty and justice for all Book Features Centers the historic and current oppression of Black people in the United States as foundational to the disregard for childcare workers today Uses Paulo Freire's critical consciousness framework to guide readers to see analyze and act Calls for a multiracial coalition of activists for racial justice gender justice and economic justice The roadmap has been drawn but it requires inspired and knowledgeable advocates to implement Read be inspired build community and take up the mantle for change From the Foreword by Barbara T Bowman Erikson Institute Contributors Rebecca Berlin Sarah R Bussey Michael Gramling Ed Greene Iheoma U Iruka Alexis Jemal Denisha Jones Hakim M Rashid Joey Saunders and James C Young

A History of Children's

Play and Play Environments Joe L. Frost, 2010-04-02 Children's play throughout history has been free spontaneous and intertwined with work set in the playgrounds of the fields streams and barnyards Children in cities enjoyed similar forms of play but their playgrounds were the vacant lands and parks Today children have become increasingly inactive abandoning traditional outdoor play for sedentary indoor cyber play and poor diets The consequences of play deprivation the elimination and diminution of recess and the abandonment of outdoor play are fundamental issues in a growing crisis that threatens the health development and welfare of children This valuable book traces the history of children's play and play environments from their roots in ancient Greece and Rome to the present time in the high stakes testing environment Through this exploration scholar Dr Joe Frost shows how this history informs where we are today and why we need to re establish play as a priority Ultimately the author proposes active solutions to play deprivation This book is a must read for scholars

researchers and students in the fields of early childhood education and child development **Exposing Slavery** Matthew Fox-Amato, 2019-02-26 Within a few years of the introduction of photography into the United States in 1839 slaveholders had already begun commissioning photographic portraits of their slaves Ex slaves turned abolitionists such as Frederick Douglass had come to see how sitting for a portrait could help them project humanity and dignity amidst northern racism In the first decade of the medium enslaved people had begun entering southern daguerreotype studios of their own volition posing for cameras and leaving with visual treasures they could keep in their pockets And as the Civil War raged Union soldiers would orchestrate pictures with fugitive slaves that envisioned racial hierarchy as slavery fell In these ways and others from the earliest days of the medium to the first moments of emancipation photography powerfully influenced how bondage and freedom were documented imagined and contested By 1865 it would be difficult for many Americans to look back upon slavery and its fall without thinking of a photograph Exposing Slavery explores how photography altered and was in turn shaped by conflicts over human bondage Drawing on an original source base that includes hundreds of unpublished and little studied photographs of slaves ex slaves free African Americans and abolitionists as well as written archival materials it puts visual culture at the center of understanding the experience of late slavery It assesses how photography helped southerners to defend slavery enslaved people to shape their social ties abolitionists to strengthen their movement and soldiers to pictorially enact interracial society during the Civil War With diverse goals these peoples transformed photography from a scientific curiosity into a political tool over only a few decades This creative first book sheds new light on conflicts over late American slavery while also revealing a key moment in the relationship between modern visual culture and racialized forms of power and resistance **Race and American Political Development** Joseph E. Lowndes, Julie Novkov, Dorian T.

Warren, 2012-11-12 Race has been present at every critical moment in American political development shaping political institutions political discourse public policy and its denizens political identities But because of the nature of race its evolving and dynamic status as a structure of inequality a political organizing principle an ideology and a system of power we must
