From Pluralist To Patriotic Politics Putting Practice First:

From Pluralist to Patriotic Politics Charles Blattberg, 2000-02-03 The moral and political philosophy of pluralism has become increasingly influential To pluralists when values genuinely conflict we should aim to strike an appropriate balance or trade off between them though this means accepting that compromise will be inevitable Politics as a result appears as a thoroughly tragic affair Drawing on a hermeneutical conception of interpretation the author develops an original account of practical reasoning one which assumes that though making compromises in the face of conflicts is indeed often unavoidable there are times when reconciliation as distinct from compromise is feasible For this to be so however citizens must strive to converse and not just negotiate with each other thus fulfilling the good that is at the heart of their shared political community This is the central message of the patriotic alternative to pluralist politics that the author defends here *Patriotic Elaborations* Charles Blattberg, 2009-03-01 How might we mend the world Charles Blattberg suggests a new patriotism one that reconciles conflict through a form of dialogue that prioritizes conversation over negotiation and the common good over victory This patriotism can be global as well as local left as well as right Blattberg's is a genuinely original philosophical voice The essays collected here discuss how to re-conceive the political spectrum where deliberative democrats go wrong why human rights language is tragically counterproductive how nationalism is not really secular how many nations should share a single state a new approach to the Arab Israeli conflict and why Canada might have something to teach about the war on terror We also learn about the right way to deny a role to principles in ethics how to distinguish between the good and the beautiful the way humor works the rabbinic nature of modernism the difference between good bad great and evil why Plato's dialogues are not really dialogues and why most philosophers are actually artists **PERSONAL VALUES, SOCIAL**

Shall We Dance? Charles Blattberg, 2003 Charles Blattberg shows that while a just politics based on dialogue is at the core of Canadians sense of ourselves as citizens our current forms of dialogue are inadequate To some we should be pleading before authorities responsible for upholding a unified foundation for our politics Pierre Trudeau and his followers for example advocate a Charter of Rights and Freedoms that trumps any values not contained within it To others we ought to be true to the longstanding Canadian political tradition of compromise and so negotiate our conflicts a form of dialogue that strives for accommodation rather than trumping Blattberg argues however that both of these approaches have largely failed us To him the preferred form of dialogue in Canadian politics today should be that of conversation As he shows only conversation aims for the genuine reconciliation of conflict only it will help us realize the common good that is at the heart of a truly patriotic Canadian politics

Rooted Cosmopolitanism Will Kymlicka, 2012 Canadians take pride in being good citizens of the world yet our failure to meet commitments on the global stage raises questions Do Canadians need to transcend local attachments and national loyalties to become full global citizens Is the very idea of rooted cosmopolitanism simply a myth that encourages complacency about Canada's place in the world This volume brings together leading scholars to assess the concept of rooted cosmopolitanism both in theory and practice In Part 1 authors examine the nature complexity and relevance of the concept itself and show how local identities such as patriotism and Quebec nationalism can but need not conflict with cosmopolitan values and principles In Part 2 they reveal how local ties and identities in practice enable and impede Canada's global responsibilities in areas such as multiculturalism climate change immigration and refugee policy and humanitarian intervention By examining how Canada has negotiated its relations to the world both within and beyond its own borders *Rooted Cosmopolitanism* evaluates the possibility of reconciling local ties and nationalism with commitments to human rights global justice and international law

The Political Philosophy of Zionism Eyal Chowers, 2012-02-27 Zionism emerged at the end of the nineteenth century in response to a rise in anti-Semitism in Europe and to the crisis of modern Jewish identity This novel national revolution aimed to unite a scattered community defined mainly by shared texts and literary tradition into a vibrant political entity destined for the Holy Land However Zionism was about much more than a national political ideology and practice By tracing its origins in the context of a European history of ideas and by considering the writings of key Jewish and Hebrew writers and thinkers from the nineteenth and twentieth centuries the book offers an entirely new philosophical perspective on Zionism as a unique movement based on intellectual boldness and belief in human action In counter distinction to the studies of history and ideology that dominate the field this book also offers a new way of reflecting upon contemporary Israeli politics

The Burden of Democracy Geneviève Souillac, 2011-12-16 This book offers an original contribution to the debate on contemporary democratic ethics It argues that public culture provides the mediating spaces required for processes of encounter but should be supplemented with an open dialog on history memory and identity Since democratic modernity is consolidating its new phase characterized by the multiplicity of perspectives the mediation of conflict identity and memory are required to continue fostering mutual understanding and the identification of issues of common concern The historical emergence of a public culture is a democratic gain Recognizing this offers opportunities for ethical transformation that respects diversity but also addresses the realities of conflict under conditions of post modernity

Power, Legitimacy and the Public Sphere Amin Sharifi Isaloo, 2017-04-28 A ground breaking study of political transformations in non Western societies this book applies anthropological sociological and political concepts to the recent history of Iran to explore the role played by a ritual theatrical performance Ta ziyeh and its symbols on the construction of public mobilisations With particular attention to three formative phases the 1978-79 Islamic Revolution the 1980-88 Iran Iraq

War and the 2009 Green Movement the author concentrates on the relations between symbols of the ritual performance and the public sphere to shed light on the ways in which the symbols of Ta ziyeh were used to claim political legitimacy Thus the book elucidates how symbols and images of a ritual performance can be utilised by tricksters such as political actors and fanatical religious leaders to take advantage of the prolongation of a state of transition within a society and so manipulate the public in order to mobilise crowds and movements to fulfil their own interests and concerns An insightful analysis of political mobilisation explained in terms of a set of interrelated master concepts such as liminality trickster and schismogenesis Power Legitimacy and the Public Sphere integrates theoretical empirical and diagnostic perspectives in order to investigate and illustrate links between the public sphere and religious and cultural rituals As such it will appeal to scholars of sociology politics and anthropology with interests in social theory public mobilisations and political transformation **Leo Strauss**

African Democratic Citizenship Education

Revisited Yusef Waghid, Nuraan Davids, 2017-11-28 This edited collection explores how democratic citizenship education manifests across the African continent A recognition of rights and responsibilities coupled with an emphasis on deliberative engagement among citizens while not uniquely African provides ample evidence that the concept can most appropriately be realised in relation to its connectedness with experiences of people living on the continent Focussing on a diverse collection of voices the editors and authors examine countries that have an overwhelming allegiance to democratic citizenship education In doing so they acknowledge that this concept enveloped by a certain Africanness has the potential to manifest in practices across the African continent By highlighting the success of democratic citizenship education the diverse and varied contributions from across this vast continent address the malaise in its implementation in countries where autocratic rule prevails This pioneering volume will be an invaluable resource for researchers and students working in the fields of education and sociology particularly those with an interest in education policy philosophy of education and global citizenship initiatives **Commerce Education in North-East India** A. Rajmani Singh, 2010 The Quest for Professionalism

Georges Romme, 2016-01-29 Early pioneers in management thinking such as Henri Fayol and Peter Drucker conceived of management as a science based professional activity that serves the greater good Today however many organizations are managed by people demonstrating anything but professionalism resulting in mismanagement of risks as well as a one

dimensional focus on short term results The key thesis in this book is that The Quest for Professionalism must be revitalized because the societal costs and damage caused by managerial amateurism are huge The book is about how to address this grand challenge for example by exploring whether and how a shared professional purpose and a professional body of knowledge can be developed While most work in this area has previously focused on management education The Quest for Professionalism adopts an inside out approach implying management scholarship is the driving force behind any intrinsic transformation of the profession at large Without management scholars playing an active role in advancing science based professionalism in the mould of engineering and medicine any attempt to professionalize management practice is doomed to fail Moreover Georges Romme demonstrates the professionalization quest has to move away from the idea of management being confined to a few people at the top toward management as a technology for distributing power and leadership throughout the organization
