Cattanach, Richard Page Wheeler, 1980 *The Delineator*, 1905 *Address of Hon. John M. Raymond* Salem Public Library, 1889 **Paranormal Pursuits** Bryan "Ian Xavier" Dorn, 2011-06-16 This book will give you some insight on what it's like to be a paranormal investigator. It will give you some helpful tips on what to do during investigations, interviews and dealing with clients. It also covers some of the haunted history of a few locations in the United States. *Managing Staff in Early Years Settings* Ann Langston, Adrian Smith, 2003-09-02 This book draws on a wide range of management theory and shows its relevance and relationship to early years settings. Case studies are used to provide the starting point for reflection and throughout the chapters you are asked to consider the examples, stand back, interpret and audit your own actions in order to develop your management skills. This book will assist managers and prospective managers by providing them with the tools to facilitate staff training sessions or to conduct personal enquiry into the working of their own organization. Chapters cover leadership and management teams and team building, staff motivation, managing change, selecting suitable staff and effective interviewing, staff assessment, projecting and maintaining a positive image for your school or nursery, managing conflict and stress. **Harper's Bazaar**, 1929 *Thirty Years Into Yesterday* Jefferson Reid, Stephanie Whittlesey, 2015-11-01 For thirty years the University of Arizona Archaeological Field School at Grasshopper, a 500-room Mogollon pueblo located on what is

today the Fort Apache Indian Reservation in Arizona probed the past taught scholars of international repute and generated controversy This book offers an extraordinary window into a changing American archaeology and three different research programs as they confronted the same pueblo ruin Like the enigmatic Mogollon culture it sought to explore and earlier University of Arizona field schools in the Forestdale Valley and at Point of Pines Grasshopper research engendered decades of controversy that still lingers in the pages of professional journals Jefferson Reid and Stephanie Whittlesey players in the controversy who are intimately familiar with the field school that ended in 1992 offer a historical account of this major archaeological project and the intellectual debates it fostered *Thirty Years Into Yesterday* charts the development of the Grasshopper program under three directors and through three periods dominated by distinct archaeological paradigms culture history processual archaeology and behavioral archaeology It examines the contributions made each season the concepts and methods each paradigm used and the successes and failures of each The book transcends interests of southwestern archaeologists in demonstrating how the three archaeological paradigms reinterpreted Grasshopper illustrating larger shifts in American archaeology as a whole Such an opportunity will not come again as funding constraints ethical concerns and other issues no doubt will preclude repeating the Grasshopper experience in our lifetimes Ultimately *Thirty Years Into Yesterday* continues the telling of the Grasshopper story that was begun in the authors previous books In telling the story of the archaeologists who recovered the material residue of past Mogollon lives and the place of the Western Apache people in their interpretations *Thirty Years Into Yesterday* brings the story full circle to a stunning conclusion
