**The Fontana Project** Tennessee Valley Authority,1950 The Fontana project on the Little Tennessee River in western North Carolina was designed and constructed as one of the important planned multiple purpose units in the TVA s unified program for the development of the Tennessee Valley The Congress December 17 1941 authorized its construction as a part of TVA s third wartime emergency program Construction began January 1 1942 closure of the dam was made November 7 1944 and the first of two 67 500 kilowatt capacity generating units was placed in operation January 20 1945 only 36 5 months after the start of construction in time to be of considerable value in the closing phases of the war **The Bibliographic Index** ,1951 *The Fort Loudoun Project* Tennessee Valley Authority,1949 Fort Loudon Dam was the last of seven main river dams proposed for construction in TVA s report to Congress dated March 31 1936 and is the upper link in the chain of dams for navigation envisioned in the TVA Act A record of the more important facts concerning planning design construction cost and initial operations of this major unit in the integrated water control system is contained herein as Technical Report No 11 It has been prepared from detailed reports in the files of TVA and has been edited to present special coverage to new or unprecedented procedures with relatively less emphasis on standard practices of engineering and construction **Bibliographic Index** ,1956 **The Douglas Project** Tennessee Valley Authority,1949 Two major tributaries the French Broad and the Holston unite just above Knoxville to form the main Tennessee River Projects constructed by TVA on these two tributaries made an important contribution to the war effort of the United States during World War II by making blocks of badly needed power available at crucial stages of the conflict The Douglas project whose name was derived from Douglas Bluff located on the French Broad about 32 miles above its confluence with the Holston controls a drainage area of 4 541 square miles **Journal of the House of Representatives of the State of Connecticut** Connecticut. General Assembly. House of Representatives,2005 *Conservation Process Model* Marta Acierno,Donatella Fiorani,2025-06-24 Computer ontologies have gained particular importance in current research They play a fundamental role in the organisation of data and therefore of the knowledge that forms the basis for defining any intervention in the field of cultural heritage To ensure effective interoperability and greater efficiency these formalizations must not be disconnected from each other but rather well structured according to the different domains of interest For this reason it was decided to develop the CPM Conservation Process Modelling ontology dedicated to the restoration of historic buildings closely related to CIDOC CRM the most established ontology in the field of material historical heritage he book consists of three distinct sections linked by their common focus on defining ontologies suitable for formalising historical cultural heritage issues with particular reference to architecture The first part is devoted to the complete formulation of version 1 0 of the CPM The second presents some examples of concrete applications of the CPM including the modelling of the Risk Map for historic centres Finally the third deals with the broader spectrum of digitisation in the field of tangible cultural heritage paying particular attention to the

CIDOC CRM ontology and to the debate on digitisation in the field of architectural restoration

**The Upper Holston Projects** Tennessee Valley Authority, 1958 The development from inception through initial operation of four major TVA water control projects in the upper or northeastern part of the Tennessee Valley Watauga South Holston Boone and Fort Patrick Henry collectively designated Upper Holston is presented in this technical report The Upper Holston Projects Improvement of the minor Wilbur project immediately below Watauga is included as an appendix The manuscript was compiled from basic planning design construction and other development of the projects and comprises a record of the more important facts concerning the planning design construction costs and initial operations of these projects by the TVA *Congressional Record* Congress, 1990

Comprehensive Handbook of Psychopathology Henry E. Adams, Patricia B. Sutker, 2007-05-08 The purpose of this handbook originally published in 1984 was to provide a comprehensive review of current clinical descriptions research and theories of psychopathology Descriptive psychopathology is a field that forms the foundation of clinical practice and research in clinical psychology psychiatry psychiatric social work psychiatric nursing and allied professions in mental health Since the 1st edition the editors have devised and updated a handbook to cover both general and specific topics in psychopathology that would be useful to researchers practitioners and graduate or other advanced students in the mental health and behavioral medicine professions To implement this plan we have very carefully chosen colleagues whom we respect for their expertise in particular fields These authors include both clinicians and researchers who have outstanding national reputations as well as more junior behavioral scientists and clinicians who in our opinion will achieve similar recognition in the future The excellent chapters in this book lead us to believe that we have chosen wisely We would like to express our appreciation to these authors for their outstanding contributions and cooperation
