After a brief introductory history and a chapter that defines the characteristics of women's fiction the author showcases annotations and suggestions of approximately 300 titles by more than 100 authors. She explains how women's fiction differs from romance fiction enabling readers to appreciate this rich body of literature that encompasses titles as diverse as Meg Cabot's lighthearted chick lit to the more serious novels of Elizabeth Berg and Maeve Binchy. The book identifies some of the most popular and enduring women's fiction authors and titles and provides invaluable reading lists and readalike suggestions that will be appreciated by both librarians and general readers.

Instructors can assign modules in their own preferred order. The modules make no assumptions about what students have previously read. Illustrations and key terms are repeated as needed.
