parents can do about it While uncovering data for the book she came to know great educators teachers psychologists as well as wise parents She contacted Sixty Minutes Nova numerous Internet sources and learned texts The opinions of many of these experts as well as parents comments are included in this book The author found that most psychologists are competent caring people ready to help needy clients But many appeared badly trained or still echo the theories of Freud and Erickson and others who criticized parents for their children s problems Many mothers and fathers feel these criticisms have been unwarranted and unfair This book will show that parents are far wiser and more competent than they think
