A Class Analysis of
European Economic
Integration

For Another Europe

Stephen Graham

For Another Europe:

For Another Europe Guglielmo Carchedi, 2001 In this innovative work Guglielmo Carchedi argues that only an analysis centered on class as the basic unit of social life with production and distribution of value understood as the bedrock of the economy can throw light on the internal contradictions of European economic integration Two specific themes emerge from this radical approach First familiar topics such as competition and social policy economic and monetary union the Common Agricultural Policy and immigration are treated in an original manner Second subjects usually ignored in the standard textbooks for instance the role of interest groups in the Union's decision making process are shown to be of crucial importance in understanding the economics of the European Union This work therefore provides both an introduction to and a critique of the European project The book's central message however is that another sort of Europe is possible one based on the erosion of economic polarization on the abolition of Europe's imperialist relations with the Third World and on the creation of truly democratic institutions of self determination

re:generation Europe Floris de Witte, 2019-06-26 This book sets out a vision for another Europe one that cherishes diversity listens to its public and is sensitive to its younger generations It is a call for a re imagination of the European project as a response to the three biggest crises that the EU has had to endure the Euro zone crash the refugee crisis and Brexit These crises demonstrate a fundamental weakness at the heart of the EU it struggles with making legitimate decisions when member states disagree about how to proceed This book offers a guide out of this mess It discusses how the EU can make better use of the trust between its citizens and how it can reform itself internally so that it can actually listen to those citizens It also offers ten original policy proposals from the scandalously ambitious to the prosaic to show what another Europe could look like
