Memorias, lecciones y representaciones históricas. La celebración del primer centenario de la independencia en las escuelas de la Provincia de Cartagena (1900-1920) Rafael Enrique Acevedo Puello,2011-01-01 La celebración del primer centenario de la independencia en las escuelas de la provincia de Cartagena 1900 1920 es un texto en el que se intenta dar cuenta del lugar de la enseñanza y la construcción de la historia en las localidades particularmente en Cartagena durante la conmemoración de su primer centenario de vida independiente Su autor intenta analizar cuál fue el aporte de los maestros y de los estudiantes a la invención de la historia local quienes en la organización de la fiesta centenaria de 1911 por medio de la publicación de cartillas mapas y anagramas locales empezaron a transformar manipular y reconstruir los relatos sobre la independencia de la provincia presentados en los textos de historia patria nacional Se trata precisamente de mostrar cómo la historia de la independencia de Cartagena que había sido vista con recelo y como un error nacional a lo largo del siglo XIX intenta ser recuperada y redefinida como una instancia constitutiva de la organización nacional lo que da lugar al proceso de nacionalización de las epifanías locales En todo este proceso sin duda la participación de las escuelas resulta crucial para entender la invención de la historia en las localidades y la celebración de eventos conmemorativos como el del Primer Centenario de la Independencia de la provincia de Cartagena **La Revolución** Thomas Benjamin,2010-01-01 The 1910 Revolution is still tangibly present in Mexico in the festivals that celebrate its victories on the monuments to its heroes and most important in the stories and memories of the Mexican people Yet there has never been general agreement on what the revolution meant what its objectives were and whether they have been accomplished This pathfinding book shows how Mexicans from 1910 through the 1950s interpreted the revolution tried to make sense of it and through collective memory myth making and history writing invented an idea called la Revolución In part one Thomas Benjamin follows the historical development of different and often opposing revolutionary traditions and the state's efforts to forge them into one unified and unifying narrative In part two he examines ways of remembering the past and making it relevant to the present through fiestas monuments and official history This research clarifies how the revolution has served to authorize and legitimize political factions and particular regimes to the present day Beyond the Mexican case it demonstrates how history is used to serve the needs of the present **The Writings of Eusebio Chacón** Eusebio Chacón,2012-03-15 Eusebio Chacón born in Pecos New Mexico is arguably one of the most significant and most overlooked figures in New Mexico's cultural heritage He earned a law degree from Notre Dame and returned to practice law in Trinidad Colorado He served as a district attorney for Las Animas County Colorado and as a translator for the U S Court of Private Land Claims In 1898 he began to write and edit for El Progreso in which many of his articles exposed the unjust treatment of Hispanics in Colorado and New Mexico He was also New Mexico's first novelist and took pride in his pioneering efforts to establish a Nuevomexicano literary tradition This

collection of Chacón's writings brings together all published and written materials found displaying his versatility with samples of his work as an accomplished orator translator essayist historian novelist and poet *Historia Patria* Carolyn P. Boyd, 1997-07-27 Based on a broad range of archival and published sources including parliamentary and ministerial records pedagogical treatises and journals teachers manuals memoirs and a sample of over 200 primary and secondary school textbooks the study examines ideological and political conflict among groups of elites seeking to shape popular understanding of national history and identity through the schools both public and private Monuments of Progress Claudia Agostoni, 2003 A social and cultural history of public health in Mexico during the late 1800s and early 1900s The book offers a fresh take on the history of medicine and public health by shifting away from the history of epidemic disease and heroic accounts of medical men and toward looking at public health in a broader social framework It shows how new public health policies were instrumental in the modernisation of Mexico Adds to a small but fast growing body of literature on the history of public health in Latin America and other developing areas of the world **The Blood Contingent** Stephen B. Neufeld, 2017-04-15 This innovative social and cultural history explores the daily lives of the lowest echelons in president Porfirio Díaz's army through the decades leading up to the 1910 Revolution The author shows how life in the barracks not just combat and drill but also leisure vice and intimacy reveals the basic power relations that made Mexico into a modern society The Porfirian regime sought to control and direct violence to impose scientific hygiene and patriotic zeal and to build an army to rival that of the European powers The barracks community enacted these objectives in times of war or peace but never perfectly and never as expected The fault lines within the process of creating the ideal army echoed the challenges of constructing an ideal society This insightful history of life love and war in turn of the century Mexico sheds useful light on the troubled state of the Mexican military more than a century later **Spain's Declining Power in South America, 1730-1806** Bernard Moses, 1919 *The Cambridge Companion to Latin American Independence* Marcela Echeverri, Cristina Soriano, 2023-03-23 Bringing together experts across Latin America North America and Spain The Cambridge Companion to Latin American Independence innovatively revisits Latin American independence within a larger regional temporal and thematic framework to highlight its significance for the Age of Atlantic Revolutions The volume offers a synthetic yet comprehensive tool for understanding and assessing the most current studies in the field and their analytical contributions to the broader historiography Organized thematically and across different regions of the Iberian Peninsula and Spanish and Luso America the essays deepen well known conclusions and reveal new interpretations They offer analytical interventions that produce new questions on periodization the meaning of anti colonialism liberalism and republicanism as well as the militarization of societies public opinion the role of sciences labor regimes and gender dynamics A much needed addition to the existing scholarship this volume brings a transnational perspective to a critical period of history in Latin America **Education and the State in Modern Peru** G. Espinoza, 2013-12-10 Espinoza's work illuminates how education

was the site of ideological and political struggle in Peru during its early years as an independent state Spanning 100 years and discussing both urban and rural education it shows how school funding curricula and governance became part of the cultural process of state building in Peru

Spanish identity in the age of nations José Álvarez-Junco, 2013-07-19

Spanish identity in the age of nations offers the first comprehensive account in any language of the formation and development of Spanish national identity from ancient times to the present Much has been written on French British and German nationalism but remarkably little has been published on Spanish nationalism Paradoxically even in Spain there is much more on Basque Catalan and other regional nationalisms than on Spanish identity As a result this study fills an enormous gap in the literature on Spanish history This book traces the emergence and evolution of an initial collective identity within the Iberian Peninsula from the Middle Ages to the end of the ancien regime based on the Catholic religion loyalty to the Crown and Empire The adaptation of this identity to the modern era beginning with the Napoleonic Wars and the liberal revolutions forms the crux of this study None the less the book also embraces the highly contested evolution of the national identity in the twentieth century including both the Civil War and the Franco Dictatorship lvarez Junco s pioneering study was awarded both the National Prize for Literature in Spain and the Fastenrath Prize by the Spanish Royal Academy

The Other Within Yirmiyahu Yovel, 2018-06-05

The Marranos were former Jews forced to convert to Christianity in Spain and Portugal and their later descendents Despite economic and some political advancement these Conversos suffered social stigma and were persecuted by the Inquisition In this unconventional history Yirmiyahu Yovel tells their fascinating story and reflects on what it means for modern forms of identity He describes the Marranos as the Other within people who both did and did not belong Rejected by most Jews as renegades and by most veteran Christians as Jews with impure blood Marranos had no definite integral identity Yovel argues The Judaizers Marranos who wished to remain secretly Jewish were not actually Jews and those Marranos who wished to assimilate were not truly integrated as Hispano Catholics Rather mixing Jewish and Christian symbols and life patterns Marranos were typically distinguished by a split identity They also discovered the subjective mind engaged in social and religious dissent and demonstrated early signs of secularity and this worldliness In these ways Yovel says the Marranos anticipated and possibly helped create many central features of modern Western and Jewish experience One of Yovel s philosophical conclusions is that split identity which the Inquisition persecuted and modern nationalism considers illicit is a genuine and inevitable shape of human existence one that deserves recognition as a basic human freedom Drawing on historical studies Inquisition records and contemporary poems novels treatises and other writings this engaging critical history of the Marrano experience is also a profound meditation on dual identities and the birth of modernity
