*The Historic Faith and a Changing World* William Norman Pittenger, 1971      **The Historic Faith and a Changing World** William Norman Pittenger, 1950      Old Believers in a Changing World Robert Crummey, 2011-04-26 This important collection of essays by a pioneer in the field focuses on the history and culture of a conservative religious tradition whose adherents have fought to preserve their beliefs and practices from the seventeenth century through today Old Belief had its origins in a protest against liturgical reforms in the Russian Orthodox Church in the mid 1600s and quickly grew into a complex torrent of opposition to the Russian state the official church and the social hierarchy For Old Believers periods of full religious freedom have been very brief from 1905 to 1917 and since the fall of the Soviet Union Crummey examines the ways in which Old Believers defend their core beliefs and practices and adjust their polemical strategies and way of life in response to the changing world Opening chapters survey the historiography of Old Belief examine the methodological problems in studying the movement as a Russian example of popular religion and outline the first decades of the history Particular themes of Old Believer history are the focus of the rest of the book beginning with two sets of case studies of spirituality culture and intellectual life Subsequent chapters analyze the diverse structures of Old Believer communities and their fate in times of persecution A final essay examines publications of contemporary scholars in Novosibirsk whose work provides glimpses of the life of traditional believers in the Soviet period Old Believers in a Changing World will appeal to scholars and students of Russian history to those interested in Eastern Orthodoxy and to those with an interest in the comparative history of religious movements      **The Living Church** , 1951      *The Roots of CONCERN* Virgil Vogt, 2009-01-01 In the aftermath of World War II seven American Mennonite graduate students spent eleven days together in Amsterdam discussing their concerns around the state of North American Mennonite churches Out of this historic gathering came a publication project known as Concern A Pamphlet Series for Questions of Christian Renewal While the series extended from 1952 to the early 1970s the first four volumes now printed in this single volume comprise the roots that is the foundations that preceded the many articles that were written thereafter Throughout The Roots of Concern the discussion revolves around the recovery of an Anabaptist view of church life and discipleship Here we find the seeds of a theme that would gain much attention in later years the primary identity of the church as alternative community as opposed to its positive identification with the world The fourteen articles in this volume cover a variety of issues such as form and spirit in the church preaching fellowship discipleship dissent and property An article coauthored by Yoder reveals his seminal thoughts around Mennonite church organization in relation to both biblical and contemporary denominational structures

**The Making of American Liberal Theology** Gary J. Dorrien, 2006-01-01 In this first of three volumes Dorrien identifies the indigenous roots of American liberal theology and demonstrates a wider longer running tradition than has been thought The tradition took shape in the nineteenth century motivated by a desire to map a modernist third way between orthodoxy

and rationalistic deism atheism It is defined by its openness to modern intellectual inquiry its commitment to the authority of individual reason and experience its conception of Christianity as an ethical way of life and its commitment to make Christianity credible and socially relevant to modern people Dorrien takes a narrative approach and provides a biographical reading of important religious thinkers of the time including William E Channing Ralph Waldo Emerson Horace Bushnell Henry Ward Beecher Elizabeth Cady Stanton and Charles Briggs Dorrien notes that although liberal theology moved into elite academic institutions its conceptual foundations were laid in the pulpit rather than the classroom

**Ancient Word, Changing Worlds** Stephen J. Nichols, Eric T. Brandt, 2009-03-10 Belief in the Bible as God's authoritative revelation to humanity forms the bedrock of the Christian faith laying the groundwork for nearly everything in the practice of theology For the last 150 years or so this doctrine has been put under the microscope of the modern age with focused attention and criticism falling on three main subject areas the authority of Scripture the sufficiency of Scripture and the interpretation of Scripture Ancient Word Changing Worlds tells the story of these developments in the doctrine of Scripture in the modern age combining in one volume both narrative chapters and chapters devoted to primary source materials This new genre of historical theology will appeal to general readers who will be drawn in by the book's prose style and students who will benefit from features like timelines charts explanations of key terms and introductions and explanatory notes for the primary source documents

The Rise and Fall of Triumph Mark D. Popowski, 2011-12-16 This is a history of Triumph a post Vatican II Roman Catholic lay magazine that examines its origins and decline paying special attention to the editors often bellicose views on a range of issues from Church affairs to the Vietnam War and civil rights to abortion Triumph's editors formed the magazine to defend the faith against what they perceived as the imprudent and secular excesses of Vatican II reformers but especially against what they viewed as an increasing barbarous and anti Christian American society Yet Triumph was not a defensive magazine rather it was audaciously triumphalist proclaiming the Roman Catholic faith as the solution to America's ills The magazine sought to convert Americans to Roman Catholicism and to construct a confessional state which subjected its power to the moral authority of the Roman Catholic Church If the liberalizing and secularizing trajectory in American society exalted man as sovereign of himself and his world as Triumph's editors posited then their mission was to reinstitute Christ's Kingship to hallow the world in His name

The In-Between Church Alice Mann, 1998-11-01 Alban Senior Consultant Mann draws on her lengthy experience in helping congregations deal with the hurdles and anxieties of expansion or contraction in size Often congregations experiencing size change do not recognize the need to change culture and form as part of the successful adaptation process Mann details the adjustments in attitude as well as practice that are necessary to support successful size change

*Fairies, Fractious Women, and the Old Faith* Regina Buccol, 2006-07 Fairies unruly women and vestigial Catholicism constituted a frequently invoked triad in late sixteenth and early seventeenth century drama which has seldom been critically examined and therefore constitutes a significant lacuna in scholarly treatments of early modern

theater including the work of Shakespeare Fairy tradition has lost out in scholarly critical convention to the more masculine mythologies of Christianity and classical Greece and Rome in which female deities either serve masculine gods or are themselves masculinized i e Diana as a buckskinned warrior However the fairy tradition is every bit as significant in our critical attempts to situate early modern texts in their historical contexts as the references to classical texts and struggles associated with state mandated religious beliefs are widely agreed to be fairy rebellious woman quasi Catholic trio repeatedly stages resistance to early modern conceptions of appropriate class and gender conduct and state mandated religion in A Midsummer Night s Dream The Merry Wives of Windsor Cymbeline All s Well That Ends Well and Ben Jonson s The Alchemist

**The Old Believers in Imperial Russia** Peter T. De Simone, 2018-06-14 Two Romes have fallen The third stands And there will be no fourth So spoke Russian monk Hegumen Filofei of Pskov in 1510 proclaiming Muscovite Russia as heirs to the legacy of the Roman Empire following the collapse of the Byzantine Empire The so called Third Rome Doctrine spurred the creation of the Russian Orthodox Church although just a century later a further schism occurred with the Old Believers or Old Ritualists challenging Patriarch Nikon s liturgical and ritualistic reforms and laying their own claim to the mantle of Roman legacy While scholars have commonly painted the subsequent history of the Old Believers as one of survival in the face of persistent persecution at the hands of both tsarist and church authorities Peter De Simone here offers a more nuanced picture Based on research into extensive yet mostly unknown archival materials in Moscow he shows the Old Believers as versatile and opportunistic and demonstrates that they actively engaged with and even challenged the very notion of the spiritual and ideological place of Moscow in Imperial Russia Ranging in scope from Peter the Great to Lenin this book will be of use to all scholars of Russian and Orthodox Church history

*Defusing the Sexuality Debate* Mark Vasey-Saunders, 2023-06-30 As debates around sexuality rumble on within certain sections of the church and become increasingly entrenched and embittered there is an increasing need from non evangelicals and evangelicals alike to grasp the historical and cultural context in which current debates about sexuality are happening Offering a detailed examination of the development consolidation and fracturing of an evangelical anglican consensus on the sexuality Defusing the Sexuality Debate seeks to explain why current disagreements are so intractable and offer some suggestions as to how all sides could facilitate a more constructive conversation Building on an exploration of the development of tradition and biblical scholarship in evangelical anglicanism

during the twentieth century the book makes the case that conflicts over sexuality are symbolic of deeper disagreements over the place of christianity in the modern world      **Religious Education** ,1924      *The Changing Global Environment* S.F. Singer,2012-12-06 We know a great deal about historical climate and its variations from various geo logical studies There are two points worth remarking on One is that the climate changes frequently and radically but that the degree of variation and even sense of variation depends on the time scale which we are considering Secondly that this is a most unusual geological period for the Planet Earth we are living in a period of mountain building and glaciations whereas during most of the last 250 million years m y there was little ice and little topography A good view of climate change of the last hundred m y can be gained by looking at the paper of Kellogg We are now in a period of extensive glaciations The previous interval occurred 300 to 250 m y ago when even the Sahara was glaciated Of course it was at that time near the position of the South Pole we know that 300 m y ago the continents had not broken apart and formed one land mass Apparently between 250 and 20 m y ago there was little ice on the Earth even at Antarctica Continental basins were flooded by shallow seas This was the period when plant life and marine life proliferated and when most of our fossil fuels were laid down      Outline of Christian Doctrine Wilfried Harle,2015-04-14 In this book Wilfried Hrle so distills Protestant Christian teaching as to bring fresh insight both to new students and to experienced readers of systematic theology Outline of Christian Doctrine however is not merely a translation of Hrle s classic German text Nicholas Sagovsky has also entirely adapted the original work to the needs and resources of English speaking readers Biblically rooted contextually sensitive alert to philosophical issues and relevant with respect to debates about the world as we know it today Hrle s Outline of Christian Doctrine An Evangelical Dogmatics is an ideal contemporary theology book for both class use and individual study      *The Old Faith and the New* David Friedrich Strauss,2023-09-26 Reprint of the original first published in 1873 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost
