B, Mythology and folklore. C, Philosophy. 1910 William Swan Sonnenschein, 1910 The Long Millennium Mark Jarzombek, 2023-12-01 This book argues that long distance trade in luxury items such as diamonds gold cinnamon scented woods ivory and pearls all of which require little overhead in their

acquisition and were relatively easy to transport played a foundational role in the creation of what we would call global trade in the first millennium CE The book coins the term dark matter economy to better describe this complex though mostly invisible relationship to normative realities. The first full integration of dark matter economy with the emerging global flows took place in South India and Sri Lanka at the beginning of the millennium The book then moves to other places in the world sweet spots where a particular type of affluence was generated through the trade in luxury goods. This upstream affluence manifested itself in the creation of shrines palaces temples and engineering works that all thickened the landscape of memory control and extraction and also served as a defense mechanism against intrusions from afar The book also explains the collapse of dark matter economy as a result of the cumulative energies of colonialism modernization and nationalism that make it hard for us today to come to terms with this history. The Long Millennium will appeal to students and scholars alike studying the trade networks and economics of the early Middle Ages as well as anyone interested in the effect of trade on medieval society in the first millennium CE Encyclopedia of Beasts and Monsters in Myth, Legend and Folklore Theresa Bane, 2016-05-22 Here there be dragons this notation was often made on ancient maps to indicate the edges of the known world and what lay beyond Heroes who ventured there were only as great as the beasts they encountered This encyclopedia contains more than 2 200 monsters of myth and folklore who both made life difficult for humans and fought by their side Entries describe the appearance behavior and cultural origin of mythic creatures well known and obscure collected from traditions around the world A History of Architecture and Trade Patrick Haughey, 2018-01-19 A History of Architecture and Trade draws together essays from an international roster of distinguished and emerging scholars to critically examine the important role architecture and urbanism played in the past five hundred years of global trading moving away from a conventional Western narrative The book uses an alternative holistic lens through which to view the development of architecture and trade covering diverse topics such as the coercive urbanism of the Dutch East India Company how slavery and capitalism shaped architecture and urbanization and the importance of Islamic trading in the history of global trade Each chapter examines a key site in history using architecture landscape and urban scale as evidence to show how trade has shaped them It will appeal to scholars and researchers interested in areas such as world history economic and trade history and architectural history Asian Folklore Studies ,2003 **Nelson's Perpetual Loose-leaf** Encyclopaedia John Huston Finley, 1909 Traditions of the Tinguian: a Study in Philippine Folk-Lore Fay-Cooper Cole,2022-09-15 DigiCat Publishing presents to you this special edition of Traditions of the Tinguian a Study in Philippine Folk Lore by Fay Cooper Cole DigiCat Publishing considers every written word to be a legacy of humankind Every DigiCat book has been carefully reproduced for republishing in a new modern format The books are available in print as well as ebooks DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature
