Food First Beyond The Myth Of Scarcity:

Food First Frances Moore Lappé, Joseph Collins, Cary Fowler, 1979 Abstract Dispelling old myths regarding the root causes of hunger a prescription for food self reliance applicable to developing and industrial countries is detailed as the only path toward true self reliance In question and answer format commonly accepted obstacles such as insufficient production inappropriate technology and discriminatory trade practices in meeting the world s food needs are considered Hunger is a social problem rather than a technical problem and calls for America as well as developing countries to explore their values and modes of operation Putting food first requires that each country meet its own food needs before exports and requires planning and a struggle against a system that increasingly concentrates wealth and power in a few *Food First* F. M. Lappé, 1977 *Food First* Frances Moore Lappé, Joseph Collins, 1980 **Food First** Frances Moore Lappé, 1977 Food First Dexter Tiranti, Offley, Clive, Stalker, Peter, 1977 **Diet for a Small Planet (20th Anniversary Edition)** Frances Moore Lappe, 2011-05-18 Here again is the extraordinary bestselling book that taught America the social and personal significance of a new way of eating one that remains a complete guide for eating well in the 90s Featuring simple rules for a healthy diet a streamlined easy to use format delicious food combinations of protein rich meals without meat hundreds of wonderful recipes and much more From the Paperback edition **Food First: Selected Writings from 40 Years of Movement Building** Teresa K Miller, Tanya M Kerssen, 2015-12-15 This book looks back on forty years of writings from the Oakland based Institute for Food and Development Policy better known as Food First on the occasion of its 40th anniversary The book highlights the breadth and depth of the organization s published works addressing issues such as hunger international trade US foreign policy the Green Revolution agroecology climate justice land reform food and farm workers rights and food sovereignty New Internationalist Peter Stalker, Dexter Tiranti, 1977 *The SAGE Encyclopedia of World Poverty* Mehmet Odekon, 2015-06-15 The SAGE Encyclopedia of World Poverty Second Edition addresses the persistence of poverty across the globe while updating and expanding the landmark work Encyclopedia of World Poverty originally published in 2006 prior to the economic calamities of 2008 For instance while continued high rates of income inequality might be unsurprising in developing countries such as Mexico the Organization of Economic Co operation and Development OECD reported in May 2013 even countries with historically low levels of income inequality have experienced significant increases over the past decade including Denmark Sweden and Germany The U N and the World Bank also emphasize the persistent nature of the problem It is not all bad news In March 2013 the Guardian newspaper reported Some of the poorest people in the world are becoming significantly less poor according to a groundbreaking academic study which has taken a new approach to measuring deprivation The report by Oxford University s poverty and human development initiative predicts that countries among the most impoverished in the world could see acute poverty eradicated within 20 years if they continue at present rates On the other hand the U N says environmental threats from climate change could push billions more into

extreme poverty in coming decades All of these points lead to the need for a revised updated and expanded edition of the Encyclopedia of World Poverty Key Features 775 evaluated and updated and 175 entirely new entries New Reader s Guide categories Signed articles with cross references Further Readings will be accompanied by pedagogical elements Updated Chronology Resource Guide Glossary and thorough new Index The SAGE Encyclopedia of World Poverty Second Edition is a dependable source for students and researchers who are researching world poverty making it a must have reference for all academic libraries

Beyond the Green Revolution Kenneth Dahlberg, 2012-12-06 This book which is the result of an intellectual odyssey began as an attempt to explore and map the environmental and cross cultural dimensions of the continuing spread of the green revolution that package of high yielding varieties of grain fertilizers irrigation and pesticides that constitutes the core of modern industrial agriculture In the process of traversing the terrain of several intellectual traditions and cutting through various disciplinary forests and thickets a number of striking observations were made all leading to two sober ing conclusions First most intellectual maps dealing with agriculture fail to recognize it as the basic interface between human societies and their environment Because of this they are little better than the flat earth maps of earlier centuries in helping to understand global realities Second when agriculture is analyzed from a global perspec tive that takes evolution seriously one sees that the ecological risks as well as the energy and social costs of modern industrial agriculture make it largely inappropriate for developing countries Beyond that one can see a great need within industrialized countries to develop less costly less risky and more sustainable agricultural alternatives Early in the journey it became clear that conventional disciplinary approaches were inadequate to comprehend the scope and diversity of global agriculture and that a new multilevel approach was needed It also became clear that any new approach

would have to try to correct certain Western biases and blind spots **How the World Hunger Problem Was not Solved**
Christian Gerlach, 2024-02-14 The world food crisis 1972 1975 gave rise to new development concepts To eradicate world hunger small peasants were supposed to use modern inputs like high yielding seeds fertilizer pesticides and irrigation This would turn subsistence producers into business owners transform rural areas invigorate national economies and the crisis stricken world economy and thus stabilize capitalism Together with an in depth account of the world food crisis this book analyses how this global scheme largely failed It shows its diverse initiators their reasoning and motives its political breakthrough the degrees to which it was implemented globally and nationally in the following decades and its socioeconomic effects in rural areas Despite internationally coordinated policies and coercive means the scheme failed on all levels situation analysis design policies incapable institutions including big business implementation and peasants responses Selective realization in certain regions and for certain crops and the appropriation of funds by local elites often aggravated inequality and hunger Case studies are about Bangladesh Indonesia Tanzania and Mali The book shows limits to global social engineering imperialism and state control It is aimed at students scholars activists and non specialists interested in development and the world food problem The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Robert J. Mayhew, 2016-06-20 Thomas Robert Malthus 1766 1834 was a pioneer in demography economics and social science more generally whose ideas prompted a new Malthusian way of thinking about population and the poor On the occasion of the two hundred and fiftieth anniversary of his birth New Perspectives on Malthus offers an up to date collection of interdisciplinary essays from leading Malthus experts who reassess his work Part one looks at Malthus s achievements in historical context addressing not only perennial questions such as his attitude to the Poor Laws but also new topics including his response to environmental themes and his use of information about the New World Part two then looks at the complex reception of his ideas by writers scientists politicians and philanthropists from the period of his own lifetime to the present day from Charles Darwin and H G Wells to David Attenborough Al Gore and Amartya Sen *Who's Involved with Hunger*

Patricia L. Kutzner, Mark Lewy, Christina Miller, World Hunger Education Service, 1979 **Environment** Jules

Pretty, 2006-06-23 This four volume set explores the locations where the environment matters most such as where people are poor where environments are under threat such as on frontiers where there are few natural resources remaining and where industrialization is rampant It will also explore these concerns at different system levels from local community to regional national and global It will also explore costs of damage to the very resources on which economies rely and the values of environmental goods and services and the controversies surrounding such valuations It is organized around environment people interactions livelihoods poverty income economic growth environment environment interactions do people matter and people people interactions collective action challenges institutions **The Fight Over Food** Wynne Wright, Gerard

Middendorf, 2010-11 One problem with the food system is that price is the bottom line rather than having the bottom line be land stewardship an appreciation for the environmental and social value of small scale family farms or for organically grown produce Interview with farmer in Skagit County Washington For much of the later twentieth century food has been abundant and convenient for most residents of advanced industrial societies The luxury of taking the safety and dependability of food for granted pushed it to the back burner in the consciousness of many Increasingly however this once taken for granted food system is coming under question on issues such as the humane treatment of animals genetically engineered foods and social and environmental justice Many consumers are no longer content with buying into the mainstream commodity driven food market on which they once depended Resistance has emerged in diverse forms from protests at the opening of McDonald s restaurants worldwide to ever greater interest in alternatives such as CSAs community supported agriculture fair trade and organic foods The food system is increasingly becoming an arena of struggle that reflects larger changes in societal values and norms as expectations are moving beyond the desire for affordable convenient foods to a need for healthy and environmentally sound alternatives In this book leading scholars and scholar activists provide case studies that illuminate the complexities and contradictions that surround the emergence of a new day in agriculture The essays found in The Fight Over Food analyze and evaluate both the theoretical and historical contexts of the agrifood system and the ways in which trends of individual action and collective activity have led to an accumulation of resistance that greatly affects the mainstream market of food production The overarching theme that integrates the case studies is the idea of human agency and the ways in which people purposefully and creatively generate new forms of action or resistance to facilitate social changes within the structure of predominant cultural norms Together these studies examine whether these combined efforts will have the strength to create significant and enduring transformations in the food system
