For Lust Of Knowing:

For Lust of Knowing Robert Irwin, 2007-01-25 Robert Irwin's history of Orientalism leads from Ancient Greece to the present. He shows that whether making philological comparisons between Arabic and Hebrew cataloguing the coins of Fatimid Egypt or establishing the basic chronology of Harun al Rashid's military campaigns against Byzantium scholars have been unified not by politics or ideology but by their shared obsession. **For Lust of Knowing** is an extraordinary passionate book both a sustained argument and a brilliant work of original scholarship.

For Lust of Knowing Archibald Roosevelt, 1988 An Arabic scholar and former CIA operative offers an informed perspective of the Islamic world recounting his career in the intelligence service and the important political figures he has met along the way. *Debating Orientalism* Anna Bernard, David Attwell, 2013-06-13 Edward Said continues to fascinate and stir controversy nowhere more than with his classic work *Orientalism*. *Debating Orientalism* brings a rare mix of perspectives to an ongoing polemic. Contributors from a range of disciplines take stock of the book's impact and appraise its significance in contemporary cultural politics and philosophy.

Fieldwork in Educational Settings Sara Delamont, 2002-11-01 Extensively revised and updated this new edition of *Fieldwork in Educational Settings* will be welcomed by researchers and academics in education and the social sciences. Embracing both sociological and anthropological approaches to qualitative research the book covers education inside and beyond schools. It emphasises writing up ethnographic research and getting the project finished and is packed with examples from research in progress. This new edition brings the original text right up to date for new researchers. There is an additional chapter on computer software for data handling and attention is given to the implications of postmodernism for writing up research. The examples given are taken from the latest research replacing those from the first edition. This is an indispensable handbook by an author whose work on this subject is widely recognised as being an essential resource for the researcher in education.

Dangerous Knowledge Robert Irwin, 2006-11-02 What is Orientalism who were the Orientalists and how did Western scholars of Islamic culture come to be vilified as insidious agents of European imperialism. In this new history the author answers this question with a detailed story of the motley crew of intellectuals and eccentrics who brought an understanding of the Islamic world to the West. In a narrative that ranges from an analysis of Ancient Greek perceptions of the Persians to a portrait of the first Western European translators of Arabic to the contemporary Muslim world's perceptions of the Western study of Islam Irwin affirms the value of the Orientalists' legacy not only for the contemporary scholars who have disowned it but also for anyone committed to fostering the cross cultural understanding which could bridge the real or imagined gulf between Islamic and Western civilization.
