From Wodehouse To Wittgenstein:

From Wodehouse to Wittgenstein Anthony Quinton, 1998 A collection of Quinton's writings which address some of the central political philosophical and religious issues of our day *Approaches to Metaphysics* William Sweet, 2006-02-28 Today when systematic philosophy and reason itself are challenged both outside of and within philosophy is it still possible to do metaphysics This volume provides a broad perspective on contemporary approaches to the nature and the fundamental questions of metaphysics Drawing on scholars from continental Europe Asia Canada the United States and Great Britain and representing a variety of philosophical cultures and traditions this volume surveys and extends work in metaphysics and its implications for broader philosophical concerns e.g. in ethics and social philosophy in mathematics and logic and in epistemology It also addresses such questions as the role of history and historicity in undertaking metaphysics the nature of metaphysics the priority of metaphysics over epistemology and the challenges of empiricism and postmodernism *The Cognitive Value of Philosophical Fiction* Jukka Mikkonen, 2013-02-14 Can literary fictions convey significant philosophical views understood in terms of propositional knowledge This study addresses the philosophical value of literature by examining how literary works impart philosophy truth and knowledge and to what extent the works should be approached as communications of their authors Beginning with theories of fiction it examines the case against the prevailing pretence and make believe theories of fiction hostile to propositional theories of literary truth Tackling further arguments against the cognitive function and value of literature this study illustrates how literary works can contribute to knowledge by making assertions and suggestions and by providing hypotheses for the reader to assess Through clear analysis of the concept of the author the role of the authorial intention and the different approaches to the meaning of a literary work this study provides an historical survey to the cognitivist anti cognitivist dispute introducing contemporary trends in the discussion before presenting a novel approach to recognizing the cognitive function of literature An important contribution to philosophical studies of literature and knowledge *Of Men and Manners* Anthony Quinton, Anthony Kenny, 2011-11-17 This is a collection of elegant and learned writings by the late Lord Quinton one of the most prominent men of letters of the late twentieth century The first part ranges over the last 400 years of intellectual history in the second he discusses freedom morality politics language culture and the relation between humans and animals *Hitler's Philosophers* Yvonne Sherratt, 2013-05-21 A gripping account of the philosophers who supported Hitler's rise to power and those whose lives were wrecked by his regime *Hegel: Philosophy of Mind* Georg Wilhelm Friedrich Hegel, Michael Inwood, 2007 Philosophy of Mind is the third part of Hegel's encyclopedia of the philosophical sciences in which he summarises his philosophical system It is one of the main pillars of his thought **The Philosophy Gym** Stephen Law, 2003-12-16 A philosopher takes readers on a lively tour through some of life's biggest questions in this vivid enlightening introduction to clear thinking Philip Pullman author of His Dark Materials From Descartes to designer babies The Philosophy Gym poses questions about some of history's most

important philosophical issues ranging in difficulty from pretty easy to very challenging Philosopher Stephen Law brings new perspectives to age old conundrums while also tackling modern day dilemmas some for the first time At The Philosophy Gym you can begin your warmup by contemplating whether a pickled sheep can truly be considered art or dive right in and tackle the existence of God In this new and accessible way of engaging with philosophy Law illustrates the problem with a story then lets the argument battle it out in clear and intelligent prose This compact volume is sure to give your mind a great workout

From Aberdeen to Oxford Fergus Kerr, 2023-10-30 Academic theologians when they write normally decide for themselves what to discuss Admittedly these days they may work under pressure to ensure tenure to advance their prospects or to secure funding for a departmental project Mostly however they work sometimes for years on the books which consolidate the vision of theology that has energised their teaching Sometimes of course the contingencies of being invited to review a book or take part in a conference lead to what for medieval theologians were quodlibets responses to whatever topics raised by members of the class during open ended discussions sometimes unexpected even random treated suggestively rather than fully worked out This volume is a miscellany of just such papers a wide ranging collection of papers from books and journals with a strong philosophical leaning

The Wisdom of Our Ancestors Graham James McAleer, Alexander S. Rosenthal-Pubul, 2023-12-01 In The Wisdom of Our Ancestors the authors mount a powerful defense of Western civilization sketching a fresh vision of conservatism in the present age In this book Graham McAleer and Alexander Rosenthal Pubul offer a renewed vision of conservatism for the twenty first century Taking their inspiration from the late Roger Scruton the authors begin with a simple question What after all is the meaning of conservatism In reply they make a case for a political orientation that they call conservative humanism which threads a middle way between liberal universalism and its ideological alternatives This vision of conservatism is rooted in the humanist tradition that is classical humanism Christian humanism and secular humanism which the authors take to be the hallmark of Western civilizational identity At its core conservative

humanism attempts to reconcile universal moral values rooted in natural law with local particularist loyalties In articulating this position the authors show that the West contra various contemporary critics does in fact have a great deal of wisdom to offer The authors begin with an overview of the conservative thought world situating their proposal relative to two major poles liberalism and nationalism They move on to show that conservatism must fundamentally take the form of a defense of humanism the master idea of our civilization The ensuing chapters articulate various aspects of conservative humanism including its metaphysical institutional legal philosophical and economic dimensions Largely rooted in the Anglo Continental conservative tradition the work offers fresh perspectives for North American conservatism "I Could Not Speak My Heart" University of Regina. Confessing and Commending the Faith Alan P.F. Sell, 2006-09-01 Since

Christianity is a way and not simply a theory commending the faith to others is an activity in which every Christian participates. *Confessing and Commending the Faith* discusses the presuppositions which underlie the intellectual commendation of Christianity in the face of the philosophical challenges of the present day. Following his earlier books *John Locke and the Eighteenth Century Divines* and *Philosophical Idealism and Christian Belief*, Alan Sell proposes a way of proceeding with Christian apologetics in the twenty first century. He discusses what Christians wish to proclaim, asks whether these claims are reasonable, and examines what is involved in the intellectual commendation of the Christian faith. *Confessing and Commending the Faith* makes extensive use of the historical tradition of apologetics and brings this work to bear on contemporary questions such as the meaning, use and reference of religious language and the question of transcendence in relation to history. Alan Sell argues that if the intellectual commendation of Christianity's claim to truth is to be viable, contemporary apologetics must draw upon reason, revelation and experience to do justice to Christianity's basic confession of Christ as Saviour and Lord.
