The Politics of Contested Narratives Ilse

Lazaroms, Emily Gioielli, 2016-03-17 The twentieth century in Europe was characterized by great moments of rupture such as two world wars ideological conflict and political polarization In these processes as well as in the historical writing that followed in its wake the individual as an historical entity often appeared crushed In line with contemporary theories about the precariousness of historical writing and the self this volume seeks to understand the important developments in modern Europe from the perspective of the single sometimes isolated but always original viewpoint of individuals inhabiting the space at the other side of the traditional grand narratives Including theoretical chapters as well as detailed case studies this volume takes a biographical approach to dystopian events the Holocaust Fascism Communism and collectivization by starting with the voices of unknown historical actors and relating their experiences to larger processes in modern European history such as the emergence of the national collective memory and state formation as well as changes in the understanding of modern identities and the re formulation of the self This book was originally published as a special issue of the European Review of History

Black Humor and the White Terror Béla Bodó, 2023-04-06 This book examines political humor as a reaction to the lost war the post war chaos and antisemitic violence in Hungary between 1918 and 1922 While there is an increased body of literature on Jewish humor as a form of resistance and a means of resilience during the Holocaust only a handful of studies have addressed Jewish humor as a reaction to physical attacks and increased discrimination in Europe during and after the First World War The majority of studies have approached the issue of Jewish humor from an anthropological cultural or linguistic perspective they have been interested in the humor of lower or lower middle class Jews in the East European shtetles before 1914 On the other hand this study follows a historical and political approach to the same topic and focuses on the reaction of urban middle class and culturally assimilated Jews to recent events to the disintegration of the Dual Monarchy the collapse of law and order increased violence the reversal of Jewish emancipation and the rise of new and more pernicious antisemitic prejudices The study sees humor not only as a form of entertainment and jokes as literature and a product of popular culture but also as a heuristic device to understand the world and make sense of recent changes as well as a means

to defend one's social position individual and group identity strike back at the enemy and last but not least to gain the support and change the hearts and minds of non Jews and neutral bystanders Unlike previous scholarly works on Jewish resistance during the Holocaust this study sees Budapest Jewish humor after WWI as a joint adventure as a product of urban and Hungarian culture in which Jewish not only played an important role but also cofounded Finally the book addressed the issue of continuity in Hungarian history the twisted road to Auschwitz whether urban Jewish humor as a form of escapism helped to desensitize the future victims of the Holocaust to the approaching danger or it continued to play the same defensive and positive role in the interwar period as it had done in the immediate aftermath of the Great War
