

REVOLUTION IN LATIN AMERICA

ARGENTINA - BACKGROUND

- Argentina had become an economy similar to the N.A. Midwest (meat and wheat).
- The government resented the interests of the *oligarquia*, who were content to import almost all of its industrial goods.
- WWI weakened the land owning class => the urban middle class and wealthy land owners share power at the expense of the poor
- Profits in the 1920s led to industrialization, but new technologies (plane and radio) continued to create dependence.

The Revolutionary Imagination in the Americas and the Age of Development María Josefina Saldaña-Portillo,2003-11-07 Table of contents [Intellectual Foundations of the Nicaraguan Revolution](#) Donald C. Hodges,2014-02-04 In this critical study of the thought of Augusto Cesar Sandino and his followers Donald C Hodges has discovered a coherent ideological thread and political program which he succeeds in tracing to Mexican and Spanish sources Sandino s strong religious inclination in combination with his anarchosyndicalist political ideology established him as a religious seer and moral reformer as well as a political thinker and is the prototype of the curious blend of Marxism and Christianity of the late twentieth century Nicaraguan government the Frente Sandinista de Liberaci n Nacional **Future of Liberation Theology** Ivan Petrella,2006-06-28 There is a notion amongst some academics that Latin American Liberation Theology has had its day a dream killed off by the Nicaraguan and Salvadoran revolutions the 1989 demise of socialism and the end of history claims of the champions of capitalism However in this book Petrella proves this to be an ill conceived notion and shows that this theology can be reinvented to bring its preferential option for the poor into the real world The actualisation of historical projects is possible by adopting the methods developed by the Brazilian champion of critical legal studies Robert Unger Doing so will entail the rejection of these theologians unitary concepts of a despised and rejected

capitalism and a canonized and accepted socialism Petrella argues for a reconstruction of these concepts and those of democracy and property too He closely analyses the differences in democracy and capitalism as practised across the USA and Europe in support for the reconstruction of these concepts bringing about far reaching suggestions for the future of liberation theology From Dependency To Development Heraldo Munoz, 2019-04-09 Although much has been written on the concept nature and implications of dependency in underdeveloped countries there is a noticeable lack of comprehensive material on dependency reversal the ways and circumstances under which dependency and underdevelopment can be overcome Dr Mu oz brings together in a coherent volume the alternative strategies for dependency reversal that have been posed by leading social scientists the emphasis is on commonalities differences and theoretical and practical derivations The book outlines the basic features of the dependency literature and clarifies the emergence and development of the dependency paradigm its meaning and its differences from other theoretical perspectives on underdevelopment New aspects of dependency situations are also introduced Significant alternatives to dependency are offered taking into account varying geographical ideological and functional factors Though no claim is made that all existing answers to development are included this is clearly the most complete work available to date *Under Northern Eyes* Mark T. Berger, 1995 Examines how North American scholarship on Latin America has tended to support US policy toward that part of the world since the latter part of the nineteenth century This work looks at universities research centers the various branches of the US government and the numerous philanthropic foundations concerned with Latin America **Imperialism, Crisis and Class Struggle**, 2010-03-22 This book of essays is written in honour of James Petras in recognition of his intellectual achievements and political interventions his steadfast principles distinguished scholarship extraordinary writing and uncompromising dedication to the popular struggles of millions across the world In recognition of his lifetime of significant contributions and central role in the global struggle for social justice the authors of this collection each a leading scholar in his own right address some of the most critical issues of our time those of imperialism crisis and class struggle These issues allow the authors to identify both the the enduring verities and contemporary face of capitalism and James Petras contributions to their work and that of others Contributors are Berch Berberoglu Tom Brass Ronald H Chilcote Ra l Delgado Wise John Bellamy Foster Hannah Holleman Ashok Kumbamu Fernando Leiva Stephen Lendman Morris Morley Michael Parenti and Henry Veltmeyer **Democracy in Latin America Since 1930** Jonathan Hartlyn, Arturo Valenzuela, 1994 *Dependence and Underdevelopment: Latin America's Political Economy* James D. Cockcroft, Andre Gunder Frank, Dale L. Johnson, 1972 This book challenges all of the most commonly held ideas regarding underdevelopment The process of development say the authors is not a matter of higher Gross National Products which to the contrary often serve to increase a country s long run underdevelopment Meaningful development is a political as well as an economic process which improves the quality of life for the people of a country The authors argue that underdevelopment far from being an original or natural condition of the

countries of the so called Third World is a condition imposed by the international expansion of capitalism The authors go on to dispute some common assumptions regarding industrialization economic aid and the allegedly progressive nature of the international expansion of capitalism The authors go on to dispute some common assumptions regarding industrialization economic aid and the allegedly progressive nature of native bourgeoisies The theory of development and underdevelopment presented in this book is supported by case studies of Mexico Venezuela Chile and other Latin American nations but the implications extend to Asia Africa the Middle East and the internal colonies of the United States *Dependency and Underdevelopment in West Africa* (=JAAS XIV,1-2) Victor C. Aybar de Soto,2019-04-10 This book describes the interlocking relationship of government and multinational corporations MNCs that led to U S intervention in Guatemala in 1954 It explains the intervention in terms of the continuous penetration of the extended domain of the metropole *Poverty in Contemporary Economic Thought* Mats Lundahl,Daniel Rauhut,Neelambar Hatti,2021-04-29 Poverty in Contemporary Economic Thought aims to describe and critically examine how economic thought deals with poverty including its causes consequences reduction and abolition This edited volume traces the ideas of key writers and schools of modern economic thought across a significant period ranging from Friedrich Hayek and Keynes to latter day economists like Amartya Sen and Angus Deaton The chapters relate poverty to income distribution asserting the point that poverty is not always conceived of in absolute terms but that relative and social deprivation matters also Furthermore the contributors deal with both individual poverty and the poverty of nations in the context of the international economy In providing such a thorough exploration this book shows that the approach to poverty differs from economist to economist depending on their particular interests and the main issues related to poverty in each epoch as well as the influence of the intellectual climate that prevailed at the time when the contribution was made This key text is valuable reading for advanced students and researchers of the history of economic thought economic development and the economics of poverty
