The inquiry is long over years There is another crucial aspect of it The landscapes and weather of Nature itself bluffs skies water trees wildlife flowers become the scenery through which all the participants stories gain significance Nigh with gentle insight and attention to detail demonstrates the evolution of what essentially becomes their imaginal learning in nature Throughout this play of sharing in nature Nigh includes glimpses of her own evolution of self as she inter folds her experiences with those of the others As Nature cycles through the seasons so cycle the lives of these individuals Nigh s academic and lyrical passages will inspire educators to widen teaching methods to include what it is beyond our everyday thought that significantly influences what we learn Vivian Darroch Lozowski Professor Emerita University of Toronto
